The Department acknowledges receipt of your letter requesting the status of all the claims, permits and licenses for the City of Burley. In regards to the status of the water rights, no further action is required on the licensed rights or the claims. The statements of beneficial use have been submitted for all of the permits. The field exam has been conducted for Permit No. 45-7436 and is pending on Permit No. 01-7074. The Department will notify you of the extent of beneficial use found just prior to licensing these rights.

The City of Burley apparently had the above permit and for some reason the City's records do not appear that the permit was proved up on.

Could you tell me the status of the permit and send us the necessary papers to prove up on the permit.

We would also appreciate a report as to what your files also indicate as to any other permits or licenses that the City of Burley has or should have.

Very truly yours,

Re: Permit No. 45-7114

In reference to question 5b and 5c of application, the City of Burley did not install a measuring device on this well as it did not state to do so on our Permit No. 45-7114.

I am enclosing a map showing the irrigation system, pipe sizes, etc., and the area to which water was applied. Pump pressure was 65 pounds. We operate 35 sprinklers with 9/32 inch nozzles on 3/4" risers. These are run four 8-hour days and then off three days from April 10th to November 1st.

If you so desire, the City will install a metering device for next season.

Thank you,

One of the conditions of approval of your water Permit No. 45-7114 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Fleenor:

The time is coming in the near future that we are going to be needing to expand into our vacant area of our Cemetery for more room. We already own the extra ground and are trying to maintain it, but with the present well we have there, it is next to impossible to keep the area nice and green.

We are making application for permission to drill another well on the lower east end of the Cemetery in order to supply water for the area we will soon be needing.

Would you look the application over for approval, and if you need more information, please feel free to contact us.

Thank you,
