Re: Permit No. 45-7063

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Sincerely,

Gary L. Funderburg

MEMORANDUM TO FILE

Today, July 8, 1975, at approximately 10:00 a.m. I received a call from the Bureau of Land Management Office in Boise inquiring of the status of Permit 45-7063 which lapsed July 3, 1975.

The Bureau of Land Management stated that they were in the process of allowing the entry but noticed that the permit had lapsed. I asked, out of curiosity, why the entry had not been allowed and was told that the permit holder had to first show that water was available before the entry would be allowed.

The Bureau of Land Management further stated that the entry could be allowed if the permit were reinstated by this Department.

Further, according to Bob Haynes of the Southern District, applicant has drilled the well and has proceeded diligently.

Dear Ms. Hull:

One of the conditions of approval of your water Permit No. 45-7063 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
