Dear Mrs. Clark:

On December 18, 1969 the Burley District Manager issued an "Initial Decision" classifying the lands included in your desert land petition-application as suitable for entry under the desert land act. The decision also stated that no entry would be allowed until satisfactory evidence of an available and adequate supply of water was submitted. Under this classification you are offered the opportunity to apply for a special land use permit to drill a well in order to obtain the necessary evidence of a water supply for irrigation.

Attached are application and stipulation forms and an instruction sheet. Please carefully read and comply with the requirements in the instruction sheet.

PLEASE NOTE: The application and stipulation forms must be completed in duplicate and sent or taken to the District Manager, Bureau of Land Management, P.O. Box 489, Burley, Idaho 83318 within 30 days from receipt of this letter.

If the application, stipulation, fees, rental and bond are not received by the District Manager within the 30 days allowed, we will assume that you are not interested in drilling a well. Your application will then be considered as rejected and will be closed without further notice.

If a well is not drilled or is unsuccessful during the period the permit is in effect, your application will automatically be considered as rejected when the permit expires.

You must also obtain a State water appropriation permit from the State Department of Reclamation to drill the well. Attached is an extra copy of this letter. The copy should be submitted to that office when you apply for a permit. Unless they have knowledge that the land in your desert application has been classified as suitable for entry, they may decline to issue the water permit. You should arrange with the State Reclamation Engineer, to have a copy of the issued permit sent to this office. Please advise us when you apply for the permit.

Sincerely yours,

Orval G. Radley
Manager, Land Office

Dear Mr. Baker:

A representative of this Department has made an examination of the works covered by your Permit No. 45-7053, and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: 4.41 cfs Source: a groundwater source

The maximum quantity diverted shall not exceed 1244.0 acre feet per year.

Point(s) of diversion: NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6, T. 12S, R. 21E, Cassia County

Beneficial use: Irrigation of 311 acres within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 5, T. 12S, R. 21E

Priority date established: June 22, 1970 (late proof)

Conditions (if any):

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

Remarks: Pivot shown on aerial photo has been replaced with wheel/hand lines. Booster motor that was part of the system blew up some time ago but has not been replaced yet. Booster would pump another 500 gpm according to Mr. Baker. However, land is being fully irrigated with present water supply. Well in NW/4NW/4 Sec. 5th also supplies water to this ground on an emergency basis, but permit holder wants only the section 6 well on the license.

(Include distance from pump to measuring device, if applicable.)

Mr. Alfred E. Barrus
Attorney-at-Law

Dear Mr. Barrus:

This office has received your letter of July 6th requesting an extension of time under the above referenced permit.

Section 42-204 of the Idaho Code provides for the granting of only one extension of time and, as you are aware, an extension was approved for this permit in July of last year. Unless Mr. Baker has been prevented from proceeding with his project by a governmental agency or by litigation, the Department cannot approve another extension of time.

Unless proof of beneficial use is made within 60 days, the permit will be null and void and it will be necessary for Mr. Baker to refile on this project. A proof affidavit and application for permit are enclosed for your consideration.

Should you have questions regarding this matter, please feel free to contact us.

Very truly yours,

Dear Mr. Baker:

One of the conditions of approval of your water Permit No. 45-7053 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before JULY 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: 45-7053, Dwaine Baker

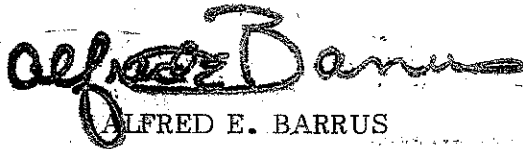

Dear Mr. Higginson:

I recently received a copy of a letter sent to Mr. Baker from you stating that under the provisions of Idaho Code, Section 42-218A, Mr. Baker's permit had lapsed.

This is confusing to me because I had sent in to you for Mr. Baker, an application for extension of time on that permit and it was my understanding that such extension had been granted. If the extension of time was not granted, would you please notify me as to the reasons why and what showing of reasonable cause I need to make.

Your cooperation is appreciated.
