(late proof)
License of Water Right No. 45-7052 Priority June 5, 1970 Amount 6.30 cfs

THIS IS TO CERTIFY, that Ronald G. Baker
of Burley, Idaho, has complied with the terms and conditions of Permit
No. 45-7052 issued pursuant to Application for Permit dated April 7, 1970,
and has submitted proof to the Department of Water Resources on July 30, 1975,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 6.45 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	<u>from April 1 to October 31</u>	<u>at 6.30 cfs</u>	<u>and 1260.0 acre feet</u>
	<u>from _____ to _____</u>	<u>at _____ cfs</u>	<u>and _____</u>
	<u>from _____ to _____</u>	<u>at _____ cfs</u>	<u>and _____</u>

(both dates inclusive)

Subject, however, to the condition that no more than 6.30 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1260.0 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section
6, Twp. 12S, Rge. 21E in the County of Cassia

This right when combined with all other rights shall provide no more than 0.02
cfs per acre nor more than 4.0 afa per acre for the lands above.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, and is subject to all prior water rights, as provided by the laws of Idaho.

IN THE MATTER OF PERMIT NO. 45-7052
in the name of RONALD G. BAKER

ORDER OF REINSTATEMENT

WHEREAS, on April 7, 1970, Elizabeth H. Clark filed with the Department of Water Resources (formerly the Department of Water Administration) an application for permit to appropriate 6.40 cubic feet per second of groundwater to be diverted from within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6, Twp. 12S, Rge. 21E, Cassia County, to be used for irrigation purposes; and,

WHEREAS, on June 25, 1970, the Department approved said application and issued Permit No. 45-7052 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before June 1, 1975; and,

WHEREAS, on April 9, 1971, the permit holder amended the point of diversion; and,

WHEREAS, on May 17, 1975, the permit holder assigned all her right, title and interest in the permit to Ronald G. Baker; and,

WHEREAS, on March 31, 1975, the permit holder was notified by the Department with a certified letter that proof of beneficial use was due and instructed the permit holder as to the steps to be taken to make said proof; and,

WHEREAS, on June 4, 1975, the Department notified the permit holder that Permit No. 45-7052 had lapsed for failure to submit proof of beneficial use of water; and,

WHEREAS, on July 30, 1975, the Department received the required proof of beneficial use of water; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing as to why said permit should be reinstated;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 45-7052 be REINSTATED and the priority advanced to June 5, 1970.

Elizabeth H. Clark

Dear Mrs. Clark:

On January 26, 1970 the Burley District Manager issued an "initial decision" classifying the lands included in your desert land petition-application as suitable for entry under the desert land act. The decision also stated that no entry would be allowed until satisfactory evidence of an available and adequate supply of water was submitted. Under this classification you are offered the opportunity to apply for a special land use permit to drill a well in order to obtain the necessary evidence of a water supply for irrigation.

Attached are application and stipulation forms and an instruction sheet. Please carefully read and comply with the requirements in the instruction sheet.

PLEASE NOTE: The application and stipulation forms must be completed in duplicate and sent or taken to the District Manager, Bureau of Land Management, P.O. Box 489, Burley, Idaho 83318 within 30 days from receipt of this letter.

If the application, stipulation, fees, rental and bond are not received by the District Manager within the 30 days allowed, we will assume that you are not interested in drilling a well. Your application will then be considered as rejected and will be closed without further notice.

If a well is not drilled or is unsuccessful during the period the permit is in effect, your application will automatically be considered as rejected when the permit expires.

You must obtain a State water appropriation permit from the State Department of Reclamation to drill the well. Attached is an extra copy of this letter which should be submitted to that office when you apply for a permit. Unless they have knowledge that the land in your desert application has been classified as suitable for entry, they may decline to issue the water permit. You should arrange with the State Reclamation Engineer to have a copy of the issued permit sent to this office.

Sincerely yours,

Orval G. Hadley
Manager, Land Office

Dear Mr. Baker:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit. Enclosed is an Order of Reinstatement; please note that the priority has been advanced to June 5, 1970.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just which part of the irrigation season the examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field exam, please contact our District Office in Twin Falls.

Dear Mr. Baker:

One of the conditions of approval of your water Permit No. 45-7052 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Clark:

Due to the condition of the original amendments after the various changes, we have taken the liberty of retyping them for clarification. We also wish to call your attention to the fact that when you changed the legal descriptions on the map of the amendment, you neglected to change the description of the points of diversion under item 1 on the first page. We have also made these changes on the new applications.

Please review these corrected amendments carefully and if they meet your approval, please have them signed and returned to the Department for processing.

If you should have any questions on this matter, please advise.

Dear Mrs. Clark:

We are in receipt of the letter from Alma Clark concerning the above referenced permit.

In reviewing this permit, we find that the point of diversion is listed as being in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6, T. 12 S, R. 21 E, B.M. We were advised by the well driller that the point of diversion was located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6, T. 12 S, R. 21 E, B.M., which we indicated in our letter of November 9, 1970. If your well is indeed in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ instead of the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 6, then you will be required to submit to this Department an application for amendment, a form for which is enclosed. If it is merely an error of the well driller, please advise us as soon as possible.

If we may be of any assistance, please contact us.

The well driller & I measured this section to locate this well - As near as possible we put it in the 5 acre tract allotted for it by the Bureau. If we find on more accurate survey that we are not in NE SE 1/4 Sec 6 we will file a relocation application. That's where we think we are.

Gentlemen:

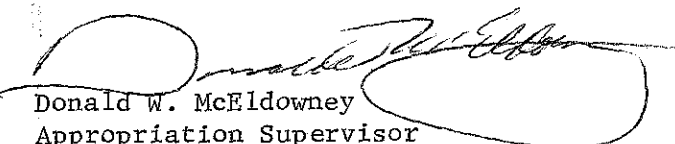

Through a cooperative arrangement with the well drillers licensed in Idaho, notice is supplied to this agency prior to the construction of wells drilled in connection with exploration for groundwater.

We were notified that you are constructing a well located in Twp. 12S, Rge. 21E, B.M., Sec. 6, NW 1/4 SE 1/4. We have reviewed our records, and the preliminary check has failed to indicate that you have filed an application with this agency. If we have overlooked your permit, please advise us of the number by return mail. If you have indeed not filed an application for permit, and your diversion is other than a single family domestic unit and producing less than 13,000 gallons/day, then you are required to file an application before construction starts and receive a valid permit from this agency before groundwater may be diverted.

Idaho has been under a mandatory permit system for groundwater since March 25, 1963: Reference: Carl Tappin, State Reclamation Engineer, v.s. Clyde Smith and Bonny Smith, Idaho Supreme Court, 1967. Therefore, it is held by this agency as an illegal act to divert groundwater without the aid of a valid permit or a license on appropriations with a priority junior to March 25, 1963 for other than excluded above.

We will supply you with an application for permit and instructions if you so request. Please contact us for forms or if we can be of any service.
