SUBJECT Field Exam - Permit 45-7043, Austin Walker

Please refer to attached copy of our notice letter of Feb. 20, 1974, to Mr. Walker.

As you will recall, Mr. Walker objected to the amount of water measured and, therefore, on 3/1/74 I ~~returned~~ returned the exam and requested a re-exam.

You will note that on the exam I received recently, the amount is 1.02 cfs, which is no doubt all the well is producing. However, the acreage indicated is now 155 acres and before we had found 165 acres.

I'm not questioning the fact that the Q is the same, but is the acreage indeed ~~165~~ 155 acres rather than the 165 as found on the first exam?

Sorry to be such a pest, please advise me in this matter.

Thanks

Dear Sir:

I have a permit(No. 45-7043) to drill a well on my land. Location of diversion is NW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 11, Township 11s, Range 24E, B.M. Cassia County.

After Mr. Common Drills his well, he suggested I change my point of diversion if we could. As I would like to get a little lower down and as close to the canal as I can.

My new point of diversion would be north of the one listed in permit no. 45-7043, which I now have. I'M including a map with the suggested joint of the new diversion. Please reply as so as possible as of amount so I can forward or if any questions.
