Dear Mr. Warren:

A representative of this Department has made another examination of the works covered by your Permit No. 45-7023 and has found the following:

Quantity of water diverted: 1.77 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.77 cfs

The maximum quantity diverted shall not exceed 574.8 acre feet per year.

Beneficial use: Irrigation of 143.7 acres within the NW $\frac{1}{4}$, Sec. 2, Twp. 11 S, Rge. 21 E, B. M.

Point of diversion: SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 2, Twp. 11 S, Rge. 21 E, B. M.

The priority date established is: January 26, 1968

Actually the examiner found, during his visit on July 13, 1971, only 1.75 cfs of water being diverted from your well, but that 143.7 acres were being irrigated.

If you do not concur with these findings, please advise us within 10 days; otherwise a license will be issued as set forth in this letter.

Sincerely,

BOBBY D. FLEENOR

Dear Mr. Parsons:

We have reviewed your letter of December 4, 1970 in connection with the above referenced permit. Please be advised, on behalf of Mr. John L. Warren, that the Department will conduct another examination during the 1971 irrigation season. We will attempt, at that time, to verify the errors represented in your letter of December 4, 1970.

The examiner used the installed flow meter, Badger Meter No. M0340488, in measuring the water, and used an aerial photo from the ASCS Office, with which he reviewed the acres irrigated. Possibly Mr. Warren could have his meter inspected prior to the next irrigation season to verify that it is accurately measuring the water.

If we can assist in any manner between this letter and the examination, do not hesitate to contact us.

Very truly yours,

RE: Permit No. 45-7023 John L. Warren

Attention: Donald W. McEldowney

Dear Mr. McEldowney:

I have reviewed the November 25, 1970 advice to Mr. Warren pertaining to his water rights. I have also received your December 3rd letter.

On behalf of Mr. John L. Warren protest is hereby given to the allowance of 1.77 c.f.s. of water to irrigate 106 acres. The field examination appears to be inadequate if this is all the allowance for the fact of the matter is that almost 160 acres are watered by the use of ditches, sumps, reservoirs, and so on. There are about 7 acres of water in the land owned by the applicant that is not watered at the present time. The pump capacity is more than adequate to pump the amount and he has so applied it to beneficial use.

We do request another investigation or a correction in line with the proof.

If you have a particular form of protest that is necessary please submit the same but otherwise consider this a protest to the issuance of the license as stated in the statement of November 25, 1970.

There would be no objection to the 3.2 c.f.s. on 160 acres of ground. If you want to correct the license in that regard you may do so and there would be no protest.

Very truly yours,

PARSONS & SMITH

Dear Mr. Warren:

We acknowledge receipt of your affidavit submitted as proof of beneficial use on application for permit 45-7023.

Before a license can be issued a field examination must be made by a representative from this department.

We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than you should be contacted by the examiner, please advise.

Very truly yours,

Re: Permit No. 45-7023

Mr. John L. Warren
Route 2, Box 85
Burley, Idaho 83318

Dear Mr. Warren:

One of the conditions of the approval of your permit no. 45-7023 was that proof of application of the water to beneficial use be submitted to this office on or before April 1, 1970.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
