Dear Mr. Skaggs:

On August 22, 1973, the Department requested that you amend the above referenced permit to change the point of diversion from the SW $\frac{1}{4}$ SW $\frac{1}{4}$ , of Section 27, as listed under the permit, to that location actually found by the field examiner. You were advised that when such amendment was approved, the Department could issue a water license.

The Department has failed to receive said amendment and, as a result, is unable to issue a water license. Therefore, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation for failure to complete the permit as required, and you are required to show cause before the Director of the Department of Water Administration on or before October 12, 1973, why said permit should not be cancelled.

Permit No. 45-7021 claims the use of <sup>2.0</sup>2.0 cubic feet per second of water from a ground water source and the permit was approved February 1, 1968.

Dear Mr. Skaggs:

A representative of this Department has made an examination of the works covered by your Permit No. 45-7021 and has found the following:

Quantity of water diverted: 1.55 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.55 cfs

The maximum quantity diverted shall not exceed 630.7 acre feet per year.

Beneficial use: Irrigation of 156 acres within the SW $\frac{1}{4}$  Sec. 27; and stockwater purposes within the SW $\frac{1}{4}$ SW $\frac{1}{4}$  Sec. 27, Twp. 10 S, Rge. 25 E, B.M.

Point of diversion: SW $\frac{1}{4}$ NW $\frac{1}{4}$  Sec. 27, Twp. 10 S, Rge. 25 E, B.M.

Priority date established: December 1, 1967

The point of diversion found by our field examiner differs from that listed under your permit, therefore, it will be necessary for you to amend the permit before a Water License can be issued. We are enclosing a partially completed application for amendment for your use. Please sign the application and return it to this office with a \$10.00 filing fee within 10 days of the date of this letter in order that we may issue a water license as set forth above.

If you do not concur with these findings or have any questions, please contact us within the 10 day period.

Sincerely,

Dear Mr. Skaggs:

This is to acknowledge receipt of your letter of May 20, 1970, regarding the installation of a measuring device for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative from this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than you should be contacted by the examiner, please advise.

P.O. Box 82  
Declo, Idaho 83323

Dear Mr. Skaggs:

We are in receipt of your affidavit submitted as proof of beneficial use for permit 45-7021. However, in reviewing that affidavit, it appears that you have failed to install the measuring device as required by the conditions of approval of your permit and by Section 42-701 of the Idaho Code.

We cannot accept your proof and issue a license unless you have installed a measuring device of a type approved by the Department. We will hold your affidavit until you can supply us with information as to the type of measuring device installed. You should be aware that failure to install the device and supply information as to the type of device installed may result in the loss of your permit. We will withhold action regarding your permit until June 15, 1970.

We are enclosing a list of the type of devices approved by the Department of Reclamation. If you have any questions, please contact us.

Dear Mr. Skaggs:

One of the conditions of the approval of your permit no. 45-7021 was that proof of application of the water to beneficial use be submitted to this office on or before March 1, 1970.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Re: Application For Permit, Lennie Sam Skaggs

Gentlemen:

Would you please place in the above mentioned matter under paragraph marked 5, instead of "all year" January 1 to December 31 each year, and for watering pasture from March 1 to November 1 each year.

Please accept our thanks for you assistance in regard to this application.

Very truly yours,

Dear Mr. Nielson:

We are in receipt of your firms check in the amount of \$25.00 and Mr. Skaggs application for permit. However, before we can officially receive the application for permit we must have additional information.

The existing statutes require that the information under Item 5 be complete, as to the use of water and the period of use each year. The first use listed is stock watering and it has been indicated for a period of all year. We require that this be defined as to a month and day in the spring to a month and day in the fall. Normally, for year round use we enter January 1 to December 31. Would you please direct the department to make this change on the application. We will be glad to do so.

Under watering a pasture, which we assume to be irrigation, you have listed "irrigation season". We will require a specific day and month in the spring to a specific day and month in the fall for the effective date of the irrigation part of this application. Please advise the department as to what to enter in these forms and we will be glad to assist you.

Very truly yours,

Donald W. McEldowney
