Twin Falls, ID 83301

Dear Mr. Sande:

One of the conditions of approval of your water Permit No. 45-7019 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-30071

Department of Water Administration

Dear Mr. Higgenson:

Inclosed please find a copy of the situation I found when applying for power so to put in an irrigation pump and prove usage before Dec. 1, 1974 which the extension from your office called for. While my application is in they tell me there is absolutely no chance for power in time to meet your requirements. My application will be in their hands awaiting their ability to give service. Because of shortages and other problems they have a list of over a thousand waiting service who will be served before I can hope to get power. If power is available I will put in the pump any time possible. My farmer, Mr. Ed. Uhlig tells me he has been having trouble getting pumps. Several he has had on order for quite some time will be late in coming.

In view of the many Crisis at this time I wish to ask your office to extend the permit . I have saved the money for the pump and whenever the power and pump are available I will make installations. I cannot afford to lose first rights after having a large well investment and having gone to so much trouble to find water none other had ever been able to locate.

Please let me hear from you as soon as possible as I make a contract for some kind of farming as Mr. Uhlig awaits the decision so to know how to plan for this year's farming.

Thank you kindly,

Sincerely yours,

Frances Sande

MEMORANDUM OF UNDERSTANDING

THE UNDERSIGNED, Frances Grude, Applicant to the Idaho Power Company for a line extension for electric service for irrigation pumping has been informed of the following:

That due to existing shortage of both labor and material and the unusual number of irrigation pumping applications already received, Idaho Power Company cannot commit itself to construct the requested line extension in time to provide service for the 1974 irrigation season.

THEREFORE, Applicant expressly understands and agrees that, due to the above conditions, Applicant's application and request for a line extension for electric service for irrigation pumping cannot, under foreseeable conditions, be constructed in time to provide electric service for the 1974 irrigation season. Applicant further understands that his application is made and accepted by the Idaho Power Company only for the purpose of obtaining the required construction at a future time when line construction crews and materials are available.
