STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that James &/or Karen Mullen (Name of Claimant)

1. The first step is to identify the problem. In this case, the problem is that the system is not working properly. The user has reported that the system is slow and that there are errors when trying to access certain features.

2. The next step is to gather information about the problem. This includes asking the user for more details about the symptoms and checking the system logs for any error messages.

3. Once the information has been gathered, the next step is to analyze the data. This involves looking for patterns in the data that might indicate the cause of the problem.

4. The final step is to implement a solution. This could involve updating the software, changing the configuration, or adding more resources to the system.

[illegible]

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the foregoing claim to a water right, together with all attached information, and that the matters and facts therein are true to the best of the affiant's knowledge.
