STATE OF IDAHO
DEPARTMENT OF RECLAMATION
CLAIM TO A WATER RIGHT
Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant Albert Anderson & Sons, Inc.
post office address Oakley, Idaho 83346
(2 pts.)

2. The point of diversion is in NE $\frac{1}{4}$ of NE $\frac{1}{4}$ Section 7 Township 13S
Range 22E B.M. located on ground water
(name of source)
tributary to _____ in Cassia County.

3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.

a. Date of priority claimed:

<u>3-8-1948</u>	amount: <u>2.04</u>	c.f.s. or	_____	acre feet
<u>4-7-1949</u>	amount: <u>2.00</u>	c.f.s. or	_____	acre feet
<u>3-15-1962</u>	amount: <u>1.52</u>	c.f.s. or	_____	acre feet
Total claimed <u>5.56</u> c.f.s. or _____ acre feet.				

b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:

use irrigation period of use from 3-5 to 11-15 (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive).

4. Description of diverting works:

a. Surface water diversion dam and/or headgate: material is composed of _____
_____ ; length is _____ feet; height is _____ feet;
width at bottom is _____ feet; width at top is _____ feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known _____

b. Underground water diverting works: is well flowing or pumped pumped ; depth of well is 262, 370, & 920 feet; diameter of well is 12, 12, & 22 inches; type of pump is turbine
capacity of pump is 2000 g.p.m.; name and address of well driller is Tower Co. on first two wells, then in 1963, Chesley Drilling Co., Burley, Idaho ;

45-4026

attach well logs if available; has there been any change in pump or motor since well was first completed yes; if so, give dates and explain see attachment 8-25-70 - Layne & Bowler

c. Conveying works: length of ditch to place of use is _____ feet; width of ditch at top is 6 feet; width of bottom of ditch is 2 feet; depth of water is 3 feet; grade of ditch per 1000 feet is _____ feet; material through which ditch passes is earth; maximum length of pipe line to first place of use is _____ feet; diameter of pipe line is _____ inches; type of pipe _____; grade of pipe per 1000 feet is _____. Please explain any changes or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible _____

d. If water is stored: name of reservoir _____; total capacity of reservoir is _____ acre feet; active capacity of reservoir is _____ acre feet; year construction commenced _____; year completed _____; date first used _____; period of storage is from _____ to _____; is reservoir drained each year _____; is reservoir on or off stream _____ explain _____

if feeder canal is used give maximum carrying capacity _____ c.f.s.; if reservoir is off stream, describe location of reservoir by 40-acre subdivisions _____

has there been any enlargement of the reservoir since it was first built _____, if so, give dates and describe _____

5. a. Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

TWP.	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼

Total number of acres to be irrigated 290

Explain any significant increase in area irrigated since first use, give dates and acreages if known _____

b. Do you get water through a ditch owned by several users? no If yes, give the name of the ditch _____
_____. The other users and their respective
interests in the ditch are (if known) _____

6. Where water is used for stock watering, give number of each kind of stock watered _____

7. Where water is used for domestic or municipal purposes give number of families served _____
name of town supplied _____

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use,
and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible,
giving dates and quantities _____

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation
in 1962, the well constructed in 1948 was abandoned & a new well was drilled
producing about 2000 GPM & an additional appropriation of 1.52 c.f.s. was made
& 35 new acres were added

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	<u>May 18, 1871</u>	amount:	<u>0.8 c.f.s.</u>	or	<u> </u>	acre feet
	<u>June 1, 1901</u>	amount:	<u>0.4 c.f.s.</u>	or	<u> </u>	acre feet
		Total claimed:	<u>1.2 c.f.s.</u>	or	<u> </u>	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

Dear Albert:

With regards to our telephone conversation of August 18 and 24, 1970 with reference to pump work and well testing that we had done some time back on your ranch known as Ray Anderson Place; located in the NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 7 Township 13 So., Range 22 EBM:

Well #1 was drilled and completed back in March 8, 1948. You installed a 60 horsepower F&M pump in this well. The well was checked out about three years later by the State of Idaho and was pumping, according to their measurement, 102 inches of water.

In April of 1949, you completed well #2 and also in this well you installed a 60 horsepower F&M pump. The State, at a later date, measured this well for a capacity of just under two (2) second feet of water or approximately 100 inches.

In 1962 we pulled this 60 horsepower unit from well #2 and you performed some well work on the well. Then on February 28, 1963 we conducted a well test with our test pump and twin GMC diesel test engines. At that time we were able to pump 2000 gallons per minute at 168 feet pumping level. We ran this test for three hours and 15 minutes and the well pumped very little sand or cuttings and was real clear. The well stabilized and no draw-down was noticed beyond the 168 foot level.

We then revamped the 60 horsepower unit up to 100 horsepower for a capacity of 2000 G.P.M. at 168 feet pumping level. This unit was installed and operated up to, as our records indicate, approximately 1964. This well then cut down on capacity and a new well or well #3 had been drilled. We tested this well and designed a 150 horsepower pump and installed same for a capacity of 1800 G.P.M. at 270 feet pumping level.

We then installed in well #2 a 60 horsepower pump for a capacity of 675 G.P.M. at 360 feet pumping level.

45-4026

These pumps operated up until 1969, at which time we pulled the 150 horsepower unit from well #3 and a drilling rig was moved in which drilled this well to a depth of 795 feet. Layne & Bowler retested this well and pumped a capacity of 1500 G.P.M. from 384 feet. At this time a 250 horsepower unit was designed to pump 2000 G.P.M. at 450 feet pumping level. This unit was installed and, as you know, is now in operation and doing this job.

Yours truly,

Dear Mr. Giles:

Our office acknowledges receipt of Assignment of the above referenced water rights. However, in reviewing the files I find that the water rights are Claims.

In Idaho, a claimed water right is considered real property and is acquired when the property to which it is appurtenant is purchased. Proof of owning the land is proof of owning the water right claim.

Therefore, I have put the Assignment into the files for future reference only and no other action will be taken. I have also enclosed copies of the Claims for your records.

If you have any questions please feel free to contact our office.

C Re: Claim to a Water Right No. 45-4026

O Albert Anderson & Sons, Inc.
Oakley, Idaho 83346

Gentlemen:

P The Department of Water Administration has completed the processing of your claim to a water right, and no further action is authorized under Section 42-225 of the Idaho Code. Your claim will remain in our files and will be available at any time for your or the courts use.

As you are aware, the filing of your claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

Y If, at a later date, you find that you have additional information or evidence that you would like to have included in your claim file, you may add that information at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of your claim. If you have any questions, or if we can be of further assistance, please feel free to call upon us.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
