RE: Permit No. 20769

Mr. Denny R. Hogue
Box 990
Twin Falls, Idaho

Dear Mr. Hogue:

The report of our field engineer on examination for beneficial use on your Permit No. 20769 shows that your well in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 26, Township 11 South, Range 19 East, B.M. will deliver 36 inches of water which has been used to irrigate the SE $\frac{1}{4}$ and E $\frac{1}{2}$ E $\frac{1}{2}$ SW $\frac{1}{4}$ of said Section.

A License can, therefore, be issued for 36 inches or .72 second foot of water from that well.

There will be no additional license fee as this is the same land included in Permit No. 20334.

Very truly yours,

RE: Permits Nos. 20334
20769

Mr. Denney R. Hogue
Long Valley Farms Co.
P. O. Box 990
Twin Falls, Idaho

Dear Mr. Hogue:

I can find no record of an inspection having been made on your wells nor a license having been issued, though you made your proofs quite a while ago.

Unless we can find an Engineer's report it will be necessary to make an inspection before license can be issued. I will do it during irrigation season and will get in touch with you at the time.

If you drill another well close to the old one and make it the same size and depth, normally there is no trouble arises. Presumably you are in the same body of water and taking the same amount of water as formerly.

When you make a change it should not do any other water right an injury otherwise the injured party would be the one in position to question your right.

Very truly yours,

RE: Permits Nos. 20334 and 20769

Mr. Denney R. Hogue
Box 990
Twin Falls, Idaho

Dear Mr. Hogue:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Twin Falls Times News, all submitted in proof of beneficial use under the above numbered permits.

Before final action is taken in the matter, the law requires that an examination be made by an engineer from this department.

We cannot say just when this examination will be made as this department has but one field engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

We return your receipted bill for this publication which you will doubtless wish to keep in your own files.

Very truly yours,

Mr. Denney R. Hogue

Dear Mr. Hogue;

Reference is made to your letter of December 4, 1951, with enclosures in regard to the above numbered permits.

Your proof of completion of works on Permit No. 20769 is all right and certificate of completion of works will be issued and sent you within a few days.

On Permit No. 20334 which was assigned to you by V. L. McInturf, proof of completion of works was made and certificate of completion of works sent you on July 13, 1949; so all that remains is to make proof of beneficial use on the three wells covered by these two permits.

Since the water from these wells has all been used on the same land, proof can be made under both permits at the same time and this will save you the expense of two publication notices.

We have made a notice combining these two and enclose a copy herewith. If this meets with your approval, please advise me to that effect by return mail and notice will be sent at once to the Twin Falls Times News for publication.

Meanwhile we return Permit No. 20334 which was enclosed in your letter.

Dear Sir:

Under the terms of your permit No. 20769 you are required to complete your diversion works and make proof of beneficial use on or before December 6, 1951.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public or Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is December 6, 1951, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.
