Mr. H. V. Creason,
Attorney at Law,
Box 335,
Rupert, Idaho.

Dear Mr. Creason:

We enclose Permit No. **0-30772** in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. **0-7506** which was issued covering payment in the amount of **\$5.25** for the filing fee of the above mentioned permit. ~~Enclosed also is a copy of the permit.~~

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Dear Mr. Creason:

Returned herewith is the application for permit with attached
check for \$5.75 filing fee.

The quantity of water claimed, 3.2 c.f.s., does not agree with
the 80 acres of land proposed to be irrigated. Not over one
miner's inch per acre can be allowed without full justification
for need of additional water.

Kindly correct and return to this office with the proper filing
fee.
