State of Idaho

WATER LICENSE

Water License No. G-33226/45-2728 Priority September 19, 1966 Amount 0.80 c.f.s.

THIS IS TO CERTIFY, that LEO R. BELL
of Albion, Idaho, made application for a permit to appropriate the public waters of
the State of Idaho, dated September 19, 1966; that Permit G-33226/45-2728 was issued pursuant
to said application; that the proposed works were completed on or about April 22, 1967,
with a storage/or carrying capacity of 0.80 c.f.s., said works consisting of
well, pump, and motor; and that on December 22, 1967,
proof was made to the satisfaction of the State Reclamation Engineer, of the beneficial use of 266
acre feet per season, with a maximum rate of diversion of 0.80 cubic feet per second of the waters
of ground-water, tributary of _____,
for the purpose of Irrigation from April 1 to October 31;
and for _____ from _____ to _____; and for
_____ from _____ to _____; and that the use
of said waters has been made in accordance with the laws of Idaho, and is hereby confirmed by the State Recla-
mation Engineer and entered in the records of the Idaho Department of Reclamation: the point of diversion is
located in NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 9, T. 12 S, R. 25 E, B.M., and
other additional points _____, in the County of
Cassia; and that the amount of water to which such right is
entitled and which is hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially
used for said purposes and shall not exceed 266 acre feet per year.

Description and location of place of use:

TWP.	RANGE	SEC.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				TOTALS
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Ques. 1 State your name, age, residence, occupation and postoffice address:

Wendell J. Butler - Albion Idaho
Postmaster & Farmer

Ques. 2 Are you acquainted with Leo R. Bell, Albion, Idaho, the holder of Permit No. G33226? How long have you known him and where does he reside?

Known for thirty yrs. Resides at Albion Idaho

Ques. 3. Have you read or heard said Permit No. G33226 read, and are you familiar with its provisions and conditions: Yes yes No.

Ques. 4. State source of water supply: Drilled well

Give location of place of diversion, showing subdivision, section, township and range

NW 1/4 NE 1/4, Sec. 9, T. 12S, R. 25E.B.M.

Describe works for conveying water to place of use: 900 ft. of 8 in. steel pipe
and 940 ft. of aluminum pipe. Pump, 210 ft. 6 in. column, 8 in. discharge

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use: 7.5 second feet How much water have you seen being so conveyed? 70 Miners inches

Ques. 6 If for irrigation, show number of acres irrigated in each subdivision, giving full legal description:

NE 1/4 NE 1/4, 40 acres irrigated, NW 1/4 NE 1/4, 35 acres irrigated.

Above land in Sec. 9, T. 12S, R. 25E.B.M.

33226

Ques. 7. If for other than irrigation purposes, show full legal description of place of use, and state purpose for which water is used.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Chatburn loam soil suitable for all crops. Requires from one inch to one and one half inches per acre for crop production.

Ques. 9. Have you any ownership interest in the works, water or lands above mentioned? If so, in what way and to what extent? no

Ques. 10. When did you first see this water used? June 1967
Other times you have seen such use: July 1967

(Signed): Wendell G. Bailey

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in _____

Re: Permit No. G-33226

Leo R. Bell
Albion, Idaho

Dear Mr. Bell:

This acknowledges receipt of the notice of intent to make proof of completion of works and application of water to beneficial use for permit G-33226.

We have mailed the notice to the World of Idaho
to be published once a week for four consecutive weeks prior to December 22,
1967, which is the hearing date when the permit holder _____
Leo R. Bell

and two disinterested witnesses must appear before Dorothy E. Clark
_____, notary public, to complete the enclosed
depositions. The witnesses must be familiar with the works and permit.

After the hearing, the depositions and an affidavit of publication must be submitted to this office. The affidavit may be obtained from the newspaper when the advertising bill is paid by Lee R. Bell
_____. Be sure all the forms have the notary's seal and are signed.

Please feel free to contact us if we may be of any assistance.

Very truly yours,

Donald W. McElDowney

OCT 16 1967

APPLICATION FOR AMENDMENT

Permit No. G33226

Comes now Leo R Bell, Albion Idaho
and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G33226, and requests that the permit be changed as follows:

1. Place of use or land to be irrigated:

N 1/2 NE 1/4 Section 9 T. 12 S R 25 E B.M.

2. Point of diversion: NW 1/4 NE 1/4, Sec. 9, T. 12 S, R. 25 E B.M.

Other points of diversion _____

3. Period and nature of use:

For Irrigation purposes from _____ to _____ (both dates incl.)
For _____ purposes from _____ to _____ (both dates incl.)
For _____ purposes from _____ to _____ (both dates incl.)

4. Other: _____

That no one will be injured by such change, and that such change will be made at permit holder's own risk.

Signed at Albion this 16th day of October, 19 67

Leo R Bell

Re: Permit G-33226

Leo R. Bell
Albion, Idaho 83311

Dear Mr. Bell:

We are in receipt of your notice of publication forms 36 and 11 on the above referenced permit.

It is noted that on Form 36 you have changed the point of diversion to the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 9, T. 12 S, R. 25 E, B.M.; however, presently your permit shows that the only legal point of diversion is in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 9. Therefore, if you wish to advertise a well in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, you will be required to amend your permit prior to advertising. Form for amendment is enclosed for which there is a \$5.00 application fee.

Please complete the amendment returning it with the \$5.00 application fee promptly. Contact us if we can be of further assistance.

Very truly yours,

Donald W. McEldowney
Water Rights Clerk

Gentlemen:

Regarding letter from your Dept.
on Proof of Works Application to Beneficial
use of water on my property.

I held two permits from your Dept.
One for Dec. 18 - Number - 33217
One for Dec. 9 - Number - 33226

Well on Dec. 9 is completed & I have
used water on crops this summer. I
filed completion of work - also log on well
& copy of pump & test of well with your
Dept. Jan. 1st of March of this year.

Will your Dept. please forward copy of
form 36 on this well to me for
approval & signature?

I have not done anything as yet
with well on Dec. 18.

Sincerely yours

Leo Bell

Signed by: Leo Bell
License No. 381 Date: Feb 24/67

33226

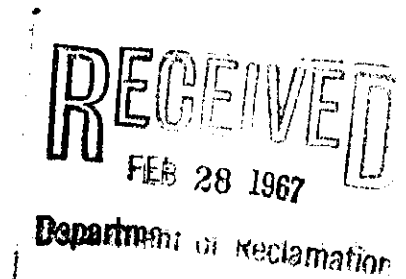

Just 226' of this well drilled by
Claude Denton. Log on same filed
with Dept. of Rec. Aug 23, 1966.

Well drilled from 226' to 700' by
myself.

Leo Bell,
Albion, Idaho

Test on well included. Maximum
test pump discharge of 663 G.P.M. from
250'. Only 250' of test pump installed for
test as I felt any water below this
pumping level would be too expensive
to lift. I feel well would pump
more from deeper lift because of good
water strata in last 140' of drilling

Re: Permit No. G-33226

Leo R. Bell
Albion, Idaho 83311

Dear Mr. Bell:

Returned find permit G-33226 with your 25¢ for the additional land and water requested. Your permit can be expanded as you request; however, due to the number of new wells in your area it would probably not be wise to do so as the priority of the permit would be advanced to the date of the amendment.

If you wish to use water from your well on the additional land, you could file for another permit on the same well. This procedure would let you maintain the earlier priority of G-33226 and would give you a later priority on your later permit.

Forms are enclosed for filing a new permit application.

Very truly yours,

Donald J. Watts
Engineer

Dear Mr. Higginson,

I am writing you concerning a well I am drilling in N 1/4
NE 1/4 Section 9 TWP 12 S, Range 25 EBM, under permit no.
33226.

I tested this well Jan. 18 and had 45-50 inches from 250
feet. I intend to go deeper with the well which will run the
cost of the well and pump much higher. As this well call for
much more investment of time and money, I would like to include
twenty acres more of land + own as irrigable land from this well
to help justify additional expense. Also + would like to ask
for an additional 25 miners inches of water on said permit.
Land is W 1/2 NE 1/4 SW 1/4 Section 16. This land has 20 inches
of "owell Creek 1880 water which we get for a few days about one
year in five.

I would like to include this land to give me 100 miners in-
ches of water on permit to help justify additional expense of
deepening well and gamble involved in same.

Inclosed is permit and fee to cover additional filing.

Thank you for your assistance.

Sincerely,

Leo R. Bell

RE: Permit G-33217 and G-33226

Leo R. Bell
Box 86
Albion, Idaho

Dear Mr. Bell:

Enclosed are your permits for appropriation of water from wells in the Albion Basin. Your attention is invited to the terms and conditions of the permit on the last page of the form. You will note particularly that we have allowed only one year to complete each well and put them into operation. We feel that this short period is necessary to avoid excessive depletion of the ground water resource and to assure that the recent permit, totaling to 26 c.f.s. in all, were not filed for speculative purposes.

If you have any questions on this I will be glad to discuss it with you.

Very truly yours,

R. KEITH HIGGINSON
State Reclamation Engineer

Leo R. Bell
Albion, Idaho

Dear Mr. Bell:

We are in receipt of your letter of August 9 and the Application to Appropriate Groundwater which accompanied the letter.

We have recently been involved in reviewing the problems in the Albion Basin and the extent of the present groundwater development. Because of your request, and others received, a meeting will be held by the State Department of Reclamation at 2:00 P.M., Friday, August 19, 1966 in the Grange Hall at Albion. The Albion Basin was included in the Raft River Critical Groundwater Basin and the groundwater was withdrawn from appropriation by the State Reclamation Engineer on July 23, 1963.

The purpose of this meeting is to discuss with the residents of the area, and other interested water users, the possibility of restoring the basin to appropriation. The prompt attendance of all interested parties would be appreciated.

Because of this withdrawal we cannot at the present time process your application, but we will hold it in abeyance until after the meeting.

Very truly yours,

Jack A. Barnett
Assistant State Reclamation Engineer

DEPARTMENT OF RECREATION

Dear Sir:

Our area has recently been declared a drought area by the Federal Gov't, and offering to property owners to help relieve drouth problems by developing and conserving water.

Some time ago--in ^{Jan.} April, 1965--I wrote to your dep't requesting a permit to develop a test hole drilled on my land in 1962. Due to my ignorance of the law and misinformation of driller, I drilled this hole before obtaining a permit from your Dep't. My intentions were not to do something illegal.

I am informed drilling is restricted in this area at this time. Is there any possibility of this restriction being lifted?

Could I offer a few facts regarding the area I am speaking about. Not to be critical of your Dep't in any way, but hoping it will give you our side of the picture.

Our valley covers roughly 35 square miles. In this large area, only two irrigation wells are being pumped. One other is being drilled at this time. To the best of my knowledge, these wells have in no way affected any springs in the valley. Two shallow house wells are within 100 yards of a deep irrigation well that has been pumped for several years. The well has not affected these house wells in any way, indicating the well water comes from a deep source, not affecting springs and surface flow.

I would appreciate your consideration of my application and thank you kindly for any help your Dep't can offer me.

In years such as this, even a small amount of pump water can mean very much to a crop. The driller thought this test hole could be developed into a well that would pump from 25-to-45 inches of water. I have log on test hole if your dep't would like to see it.

Thank you for your help.

Sincerely,

Leo Bell
