Gentlemen:

On July 29, 1967, the Department of Reclamation conducted a field examination of the lands and system covered under the above referenced permit.

It is noted that there exists an error in the land list of this permit. It was found that you are irrigating the SW 1/4, Section 29, Township 9 South, Range 25 East, B.M. This subdivision is not presently covered by the permit. Therefore, prior to the licensing you are required to amend the permit to include this subdivision and advertise the amendment at your expense.

A form for amendment is enclosed along with an authorization form which authorizes the Department of Reclamation to publish the amendment at your expense. Please sign the amendment form and the authorization form and return both with your \$5.00 application fee.

Your prompt attention to this matter will be greatly appreciated.
