No 13072

STATE OF IDAHO,
COUNTY OF TWIN FALLS } ss.

I, Mason L. Clark, being first duly sworn upon

oath depose and say that I am Office Mgr of the TIMES-NEWS,
published daily, except Saturday, at Twin Falls, Idaho, and do solemnly swear that a copy
of the notice of advertisement, as per clipping attached, was published in the regular and
entire issue of said newspaper, and not in any supplement thereof, for two
consecutive Thursdays, commencing with the issue dated
Jan 11, 1968, and ending with the issue dated
Jan 18, 1968.

And I do further certify that said newspaper is a consolidation, effective February 16,
1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the
Twin Falls News, published theretofore daily except Monday, both of which newspapers
prior to consolidation had been published under said names in said city and county con-
tinuously and uninterruptedly during a period of more than twelve consecutive months, and
said TIMES-NEWS, since such consolidation, has been published as a daily newspaper ex-
cept Saturday, under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each
week has been designated as the day on which legal notice by law or by order of any
court of competent jurisdiction within the state of Idaho, to be published weekly, will be
published; and that at the head of the editorial column of said combined newspapers, and
in each issue thereof, Thursday is announced as the day on which said legal notices will
be published.

was to make proof of completion
of works and beneficial use May 3,
1967, on Permit No. G-30929 was in
error and the point of diversion was
given as SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 24, T. 11 S,
R. 19 E, B.M.; whereas, the actual
point of diversion is NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec.
24, T. 11 S, R. 19 E, B.M.

That any protests against the
approval of the depositions made May
3, 1967, must be filed in the Depart-
ment of Reclamation at Boise, Ida-
ho, within forty (40) days from the
date of this notice, and such protest
shall state the name and address of
the protestant and shall clearly set
forth his objection to the approval
of said proof of completion of works
and beneficial use of water.

Dated this 29th day of December,

Dear Mr. Seeley:

We are in receipt of your letter of September 5, 1969, concerning the above referenced permit. Please be advised that the Department found it necessary to make two field examinations on the land and systems involved under the above referenced.

The problem arises that there are other existing water rights on the property in question. The Department is now prepared to issue a license as indicated by the copy of the fee letter we have enclosed. It should not take more than an additional ten days after receipt of the fees for the license to be issued.

If you have any further questions on this matter, please contact the signer so that we may give you better service.

Dear Mr. Seeley:

Since my letter to you on July 19, 1967 the status of the above referenced permit is as follows:

Our field man examined the lands and measured the well originally advertised. This is not the well they wanted to cover on the permit, so we re-advertised and Mr. Murphy paid the advertisement. Now as soon as our man can get in the field and Mr. Murphy is irrigating he will re-measure the correct well and a license will then be issued.

Dear Mr. Murphy:

It appearing to the State Reclamation Engineer that the terms and conditions of Permit G-30929 to appropriate the public waters of the State of Idaho, have not been complied with as to failure to submit licensing fees of \$9.00,

you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the State Reclamation Engineer on or before December 4, 1967, why said permit should not be cancelled.

Permit G-30929 claims the use of 2.13 cubic feet per second of water. The point of diversion was to be located SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 24, T. 11 S, R. 19 E, B.M., Twin Falls Co and the permit was approved February 4, 1963.

Dear Mr. Murphy:

A representative of this department has made an examination of the works covered by your permit G-30929 and has found the following:

Quantity of water diverted: 0.13 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho Law: 0.13 c.f.s.

Purpose of use: irrigation of 35 acres in W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 24,
T. 11 S, R. 19 E, B.M.

The priority date established is: December 21, 1962.

A fee totaling \$ 9.00 must be received within 30 days from the date of this letter in order that we can issue you the Certificate of Completion of Works and the License and Certificate of Water Right as described above.

Dear Mr. Seeley:

The proofs submitted have been received and are in proper order. Before any further action can be taken a field examination must be completed by our office. As soon as the field engineer can check the diversion and the land to be irrigated we will then contact you regarding the issuance of the license. Since we receive proofs from all over the State and only have two men in the field we cannot indicate the date the examination will be made. The permit remains in good standing and we hope to get it completed during this irrigation season.

Dear Mr. Murphy:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the ~~Twin Falls Times-News~~ all submitted in proof of completion of works and beneficial use on Permit No. C-30929.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Jerome, Idaho

Dear Mr. Seeley:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30929 in the name of Bellie Murphy, Hazelton, Idaho. Final Proof is to be made before you, as Notary on the 3rd day of May, 19 67, at ~~xxxxx~~ 221 S. Lincoln Ave., Jerome, Idaho.

As of this date, we have mailed the Notice to the Times-News, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to ~~xxxxx~~ Mr. Murphy.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

MRB:nw

This Application
was APPROVED
under the provisions
of the law set forth
on this page.

(42-233a and 42-233b)

This law was
revoked March
25, 1963

42-233a. NOTICE OF APPLICATION.— Within a period of ten days after the filing of any application for permit with the state reclamation engineer, as here provided, the state reclamation engineer shall cause a notice of such application stating the name of the applicant, the location of the well or wells, the amount of the flow of water proposed to be used, and the description of the premises upon which the water is proposed to be used. Such notice shall also state that all persons having an interest in the critical ground water area desiring to oppose the issuance of a permit pursuant to such application, must within a period of thirty days from the first publication of such notice file in the office of the state reclamation engineer a protest to such application. A copy of the notice shall be furnished to the applicant, who shall cause the same to be published in a newspaper published in the county where the well described in said application is proposed to be located; or if no newspaper is published in such county, then in a newspaper of general circulation in such county. Publication of such notice shall be made two times, once each week for two consecutive weeks, and proof of such publication shall be furnished by the applicant to the state reclamation engineer. "Critical ground water area" means any ground water basin, or designated part thereof, not having sufficient ground water to provide a reasonably safe supply for irrigation of cultivated lands in the basin at the then current rates of withdrawal, as may be determined, from time to time, by the State Reclamation Engineer.

In the event the application for permit is made with respect to an area that has not been designated as a critical ground water area the State Reclamation Engineer shall forthwith issue a permit in accordance with the provisions of Section 42-234 without requiring compliance with the provisions of the preceding paragraph of this section or the provisions of Section 42-233b.

42-233b. PROTEST AND HEARING.— All persons desiring to be heard in protest of the granting of a permit pursuant to an application made under this act must file with the state reclamation engineer within thirty days after the first publication of the notice of such application as hereinabove provided, a protest against such application; provided, that for good cause shown the state reclamation engineer may permit protests to be filed any time prior to the completion of the hearing on such application. After the lapse of thirty days following the first publication as hereinabove provided, the state reclamation engineer shall, if any protests against the application have been filed, fix a time and place for the hearing of such application. The time for holding such hearing shall not be more than fifty days from the first publication of said notice. Notice of the hearing shall be given by registered mail to the applicant and to all protestants.

The hearing shall be conducted before the state reclamation engineer under reasonable rules and regulations of procedure promulgated by him. Technical rules of pleading and evidence need not be applied. The state reclamation engineer may adjourn said hearing from time to time and place to place within the reasonable exercise of his discretion. All parties to the hearing as well as the state reclamation engineer shall have the right to subpoena witnesses, who shall testify under oath at such hearing. The state reclamation engineer shall have authority to administer oath to such witnesses as appear before him to give testimony. A full and complete record of all proceedings had before the state reclamation engineer on any hearing had and all testimony shall be taken down by a reporter appointed by the state reclamation engineer and all parties to the hearing shall be entitled to be heard in person or by attorney.

If no person protests an application within the period of thirty days following the first publication of notice thereof as hereinabove provided, and if the state reclamation engineer has determined from investigation that there probably is ground water subject to appropriation at the location of the proposed well, the state reclamation engineer may issue a permit pursuant to such application forthwith and for an amount of water not to exceed the amount of water determined to be there subject to appropriation; but if the state reclamation engineer, from the investigation made by him on said application as herein provided or from other information that has been officially brought to his attention has reason to believe that said application is not made in good faith, is made for delay, or that there is no water subject to appropriation at the location of the proposed well in said application described, then the state reclamation engineer shall issue a citation to the applicant to appear and show cause, if any there be, why such application should not be denied for any of those reasons. The hearing on said citation shall be fixed, noticed and conducted in the same manner as hearings on protest of application as in this section hereinabove provided.

If, at the conclusion of any hearing held pursuant to this section the state reclamation engineer finds that there is ground water available for appropriation at the location of the proposed well described in the application, and that said application is made in good faith and not for delay, then the state reclamation engineer shall issue a permit pursuant to such application; otherwise, the application shall be denied; provided, however, that if ground water at such location is available in a lesser amount than that applied for, the state reclamation engineer may issue a permit for the use of such water to the extent that such water is available for appropriation.
