Dear Mr. Whiteley:

We have received the licensing fees on the above referenced permit. However, as indicated in our fee letter of January 25, 1963, you are irrigating lands not ~~covered~~ by the permit. Therefore, before we license your permit, you will be required to file an application for amendment in order to obtain the full 185 acres covered by your permit.

The proposed amendment is enclosed. If you agree with the findings please sign the amendment and return it with a \$5.00 application fee. Upon completion of the processing of your amendment, we shall issue the license promptly.

Contact us if you have any questions on the matter.

Very truly yours,

Donald W. McElldowney

Re: Permit No. G-30536

W. B. Whiteley
Oakley, Idaho

Dear Mr. Whiteley:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-30536 shows the well is (3.2) capable of conveying 160 miner's inches, or 3.2 c.f.s. of water for the irrigation of 200 acres.

Upon receipt of the statutory fees, totaling \$ 17.00 , which consists of a Completion of Works fee of \$ 5.00 and License and Certificate of Water Right fee of \$ 12.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of May 14, 1962 to the use of 3.2 second feet of subterranean water with the point of diversion in the NE 1/4, Sec. 5, T. 14 S., R. 22 E., B.M. for irrigation of 200 acres in the SE 1/4, Sec. 32, T. 13 S., R. 22 E., B.M.; NE 1/4, Sec. 5, T. 14 S., R. 22 E., B.M.

Since your permit does not include the NW 1/4, Sec. 5 it will be necessary to amend the Land List on the permit if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above.

If you do not want the extra Land included the statutory fees will total \$15.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Very truly yours,

Re: Permit No. G-30536

W. B. Whiteley
Oakley, Idaho

Dear Mr. Whiteley:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-30536 shows the well is (~~274~~) capable of conveying 160 miner's inches, or 3.2 c.f.s. of water for the irrigation of 200 acres.

Upon receipt of the statutory fees, totaling \$ 17.00 , which consists of a Completion of Works fee of \$ 5.00 and License and Certificate of Water Right fee of \$ 12.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right, confirming the right, with priority of May 14, 1962 to the use of 3.2 second feet of subterranean water with the point of diversion in the NE 1/4, Sec. 5, T. 14 S., R. 22 E., B.M. for irrigation of 200 acres in the SW 1/4, Sec. 32, T. 13 S., R. 22 E., B.M.; NE 1/4, S. 5, T. 14 S., R. 22 E., B.M.

Since your permit does not include the NW 1/4, Sec. 5 it will be necessary to amend the land list on the permit if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above.

If you do not want the extra land included the statutory fees will total \$15.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

under the provisions
of the law set forth
on this page.

(42-233a and 42-233b)

This law was
revoked March
25, 1963

42-233a. NOTICE OF APPLICATION.--Within a period of ten days after the filing of any application for permit with the state reclamation engineer, as hereinafter provided, the state reclamation engineer shall cause a notice of such application stating the name of the applicant, the location of the well or wells, the amount of the flow of water proposed to be used, and the description of the premises upon which the water is proposed to be used. Such notice shall also state that all persons having an interest in the critical ground water area desist to oppose the issuance of a permit pursuant to such application, must within a period of thirty days from the first publication of such notice file in the office of the state reclamation engineer a protest to such application. A copy of the notice shall be furnished to the applicant, who shall cause the same to be published in a newspaper published in the county where the well described in said application is proposed to be located; or if no newspaper is published in such county, then in a newspaper of general circulation in such county. Publication of such notice shall be made two times, once each week for two consecutive weeks, and proof of such publication shall be furnished by the applicant to the state reclamation engineer. "Critical ground water area" means any ground water basin, or designated part thereof, not having sufficient ground water to provide a reasonably safe supply for irrigation of cultivated lands in the basin at the then current rates of withdrawal, as may be determined, from time to time, by the State Reclamation Engineer.

In the event the application for permit is made with respect to an area that has not been designated as a critical ground water area the state reclamation engineer shall forthwith issue a permit in accordance with the provisions of Section 42-234 without requiring compliance with the provisions of the preceding paragraph of this section or the provisions of Section 42-233b.

42-233b. PROTEST AND HEARING.--All persons desiring to be heard in protest of the granting of a permit pursuant to an application made under this act must file with the state reclamation engineer within thirty days after the first publication of the notice of such application as hereinabove provided, a protest against such application; provided, that for good cause shown the state reclamation engineer may permit protests to be filed any time prior to the completion of the hearing on such application. After the lapse of thirty days following the first publication as hereinabove provided, the state reclamation engineer shall, if any protests against the application have been filed, fix a time and place for the hearing of such application. The time for holding such hearing shall not be more than fifty days from the first publication of said notice. Notice of the hearing shall be given by registered mail to the applicant and to all protestants.

The hearing shall be conducted before the state reclamation engineer under reasonable rules and regulations of procedure promulgated by him. Technical rules of pleading and evidence need not be applied. The state reclamation engineer may adjourn said hearing from time to time and place to place within the reasonable exercise of his discretion. All parties to the hearing as well as the state reclamation engineer shall have the right to subpoena witnesses, who shall testify under oath at such hearing. The state reclamation engineer shall have authority to administer oath to such witnesses as appear before him to give testimony. A full and complete record of all proceedings had before the state reclamation engineer on any hearing had and all testimony shall be taken down by a reporter appointed by the state reclamation engineer and all parties to the hearing shall be entitled to be heard in person or by attorney.

If no person protests an application within the period of thirty days following the first publication of notice thereof as hereinabove provided, and if the state reclamation engineer has determined from investigation that there probably is ground water subject to appropriation at the location of the proposed well, the state reclamation engineer may issue a permit pursuant to such application forthwith and for an amount of water not to exceed the amount of water determined to be there subject to appropriation; but if the state reclamation engineer, from the investigation made by him on said application as herein provided or from other information that has come officially to his attention has reason to believe that said application is not made in good faith, is made for delay, or that there is no water subject to appropriation at the location of the proposed well in said application described, then the state reclamation engineer shall issue a citation to the applicant to appear and show cause, if any there be, why such application should not be denied for any of those reasons. The hearing on said citation shall be fixed, noticed and conducted in the same manner as hearings on protest of application as in this section hereinabove provided.

If, at the conclusion of any hearing held pursuant to this section the state reclamation engineer finds that there is ground water available for appropriation at the location of the proposed well described in the application, and that said application is made in good faith and not for delay, then the state reclamation engineer shall issue a permit pursuant to such application; otherwise, the application shall be denied; provided, however, that if ground water at such location is available in a lesser amount than that applied for, the state reclamation engineer may issue a permit for the use of such water to the extent that such water is available for appropriation.

Boise, Idaho.

Dear Mr. McDowell:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30536, in the name of W. B. Whiteley. Final Proof is to be made before you, as Notary on the 9th day of November, 19 62, at 11:30 o'clock A.M., at 329 Idaho Bldg., Boise, Idaho.

As of this date we have mailed the Notice to the Herald Burley, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,
