Dear Mr. McEldowney

I received your notice of water measurement of our newest well yesterday, and last night I went out on the town to celebrate. Every time we get a new well I tell my sons I am going out and get drunk. I have made the statement so many times they do not believe me any more. If any well should be celebrated thusly, this better than 500 inch one should. Some drank wine, some brandy, but all I did was take a sniff, and issued up a prayer of thankfulness. I really think the others would have enjoyed seeing me drunk more than I would have enjoyed being drunk any way. To say the least, we were all so very happy and grateful for our good fortune. We do not forget that water is Idaho gold.

I do not believe I have ever written a check that I was so happy to write as this one which I enclose for \$51.00.

Sincerely yours

Dear Mr. Tappan

We are looking forward to a visit from your department very soon. Some of the answers on this form 16 - 2M are not very clear because we do not know the answer ourselves.

We expect to get the exact measurement of the flow of water from this well when you arrive to measure it. It has been tested twice but still we do not know.

Hoping to see you soon

Re: Application for Permit

Mr. Lawrence S. Blei
Murtaugh, Idaho

Dear Mr. Blei:

Returned herewith is your application for permit to divert 4.0 c.f.s. of subterranean water with attached check for \$5.75.

Your application conflicts with application by Mrs. Blei in regard to 40 acres in SW $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 4. You have reduced the amount of water accordingly. There is also 21 inches of water from License No. 20547 for 54 acres of land in NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 4. It would seem best for one application to irrigate all the lands in Section 4 in the two applications with two points of diversion. There are 400 acres in the two applications. One application for 379 inches could be approved, 33 inches supplemental and 346 inches for new land.

This application could be approved for 184 inches, 15 inches supplemental for 39 acres and 169 inches for new land, provided the 40 acres in SW $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ were removed. Or if Mrs. Blei removed the 40 acres, this application could be for 219 inches, 33 inches supplemental and 186 inches for new land.

The conflict in lands to be irrigated should be removed.

GEO. N. CARTER
