Akiye I. Hendo
Heyburn, Idaho

Dear Mr. Hendo:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30139. The proofs are to be made at ~~at 10:00 a.m. on the 2nd day of September~~ on the 2nd day of September, 19 66, before Vida Bremer Heyburn, Idaho Notary Public.

As of this date, we have mailed the Notice to the Herald Bulletin, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION

Very truly yours,

M. Russell Bosch

Re: Permit No. G - 30139

Akiye I. Hondo
Heyburn, Idaho

Dear Mr. Hondo:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30139 are due not later than **Sept. 1, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

R. Keith Higginson, Deputy
STATE RECLAMATION ENGINEER

Dear Mr. Hondo:

Returned herewith is your application for permit
with attached check.

You corrected your address. You did nothing about
the point of diversion. You have one answer under No. 4 of
the application and the map shows another location.

Both places must agree.

Kindly correct and return your application with the
filing fee of \$5.25 for 2.0 cubic feet per second.

RE: Application for Permit

Akiye I. Hondo
Heyburn, Idaho

Dear Mr. Hondo:

Returned herewith is your application for permit which we received without the filing fee. The Post Office address is shown as Heyburn in one place and Burley in another. Kindly correct.

We have shown Section 2 below your sketch with north toward the top of the map and show the well as indicated on your sketch. That is the SE $\frac{1}{4}$ NW $\frac{1}{4}$ whereas your answer to 4 on the application is NW $\frac{1}{4}$ SW $\frac{1}{4}$. Your land description under 12 of the application checks the map.

You claim 90 to 100 inches of water. That has been changed to 100 inches or 2.0 cubic feet per second.

Kindly check the changes, correct the point of diversion, enclose the filing fee of \$5.25 and return to this office.
