Re: Permit No. G-29783
H. P. Matthews Estate

Ennis B. Matthews
Oakley,
Idaho

Dear Mr. Matthews:

The Department of Reclamation is ready to process Permit No. G-29783 for licensing. The permit, at this time, is still in the name of H. P. Matthews. It is our understanding that H. P. Matthews is deceased. Before we can issue the license, we must have varification as to the Executor of the Estate of H. P. Matthews.

Our records indicate that you have been signing all of the documents in this permit. Unless we can determine that you have the legal authority to do so, we may have many varied complications in perfecting this license.

Your assistance in clarifying this issue is appreciated.

Dear Mr. Matthews:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the ~~Burlington Herald-Bulletin~~ all submitted in proof of completion of works and beneficial use on Permit No. ~~G-29783~~.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

M. Russell Bosch

Re: Permit No. G - 29783

H. P. Matthews
Oakley, Idaho

Dear Mr. Matthews:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29783 are due not later than **June 9, 1966**

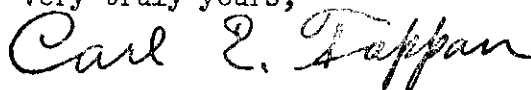

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER

Re: Permit No. G-29783

Mr. Ennis Matthews,
Oakley, Idaho.

Dear Ennis:

During our grand tour of the east side of Goose Creek Valley the first part of December, you showed me a well in the SE $\frac{1}{4}$, Section 10, that was recently drilled and you believed it belonged to Ed True. Our records show the well belonging to Richard Moon, and the point of diversion was amended to the present site, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 10, Twp. 13 S., Rge. 22 E.

You also showed me a well in Section 10 belonging to H. P. Matthews. Our records show a Permit No. G-29783 for 5.6 cfs or 280 inches, filed June 6, 1961. Completion of Works and Beneficial Use due June 9, 1966. The point of diversion is listed as SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 10, Twp. 13 S., Rge. 22 E. Check to be sure the point of diversion is in the correct subdivision. If it is not correct, be sure to amend the point of diversion before you advertise. I think we discussed this at the time.

Enclosed is the form for amendment. Submit \$1.00 fee with Application for Amendment.

Best wishes for the Holidays.

Dear Mr. Matthews:

Returned herewith is your check for \$4.00, amendments to point of diversion of Permits No. G-26347 and G-26348, and amendment to the land list Permit No. G-29783. The application to amend land list has not been approved, as the last verbal information was that the use of the well under Permit No. G-29783 had not been settled.

The amendments to the point of diversion could not be approved as the proof of completion of these two permits had been made previously.

Your check for \$4.00 was to pay the \$1.00 recording fee on each of these three amendments plus our amendment to Permit G-26349 in the name of Ernie B. Matthews, which can be approved upon receipt of the \$1.00 filing fee. It changes the point of diversion from SE1/4, Sec. 3, T. 14 S., R. 22 E. to that well plus well in SE1/4, Sec. 35, T. 13 S., R. 22 E.

Dear Mr. & Mrs. Matthews:

Your application for amendment to include the well under Permit No. G-29783, as part of water supply under Permits G-26347 and G-26348 were returned with suggestion that Permit No. G-29783 be relinquished and then the amendments could be approved.

Proof of Completion of Works and beneficial use of the water has been made on your permit showing the well in Section 3, T. 14 S., R. 22 E., B. M. as the source of water. It would not be proper to include a second source of water after the proofs have been made.

The Executor of H. P. Matthews Estate can assign Permit No. G-29783 to Maurice and Jean J. Matthews. Then the new holders can apply for an amendment to the place of use of the water and change point of diversion from the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 10 to NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 10, Twp. 13 S., Rge. 22 E., B. Dear Mr. Matthews:

Enclosed is form to relinquish a permit.

Your application to amend the land list under your permit to lands under Desert Land Entries by Maurice J. and Jean J. Matthews can be approved, however, to be effective in regard to the entries, the Bureau of Land Management would probably require that two copies of the permit, one certified, be filed for each entry and also assignment of the permit to the two holders of the entries, and an amendment to the point of diversion. The amendment to the point of diversion would automatically change the date of priority to the date the application for amendment is received in this office.

Maurice J. and Jean J. Matthews have applied for amendments to their permits to include the well you drilled under Permit No. G-29783. These amendments can be approved if you relinquish your permit.

Kindly advise this office in regard to the above at your earliest convenience.
