EXTENSION OF TIME

WHEREAS, Permit No. G-29715, in the name of Lowell H. Hulbirt, requires proofs of completion of works and beneficial use to be made on or before May 19, 1966; and,

WHEREAS, said Permit was issued May 19, 1961; and,

WHEREAS, said applicant was prevented from proceeding with construction due to the fact he thought he had reached an adequate supply of water; but when the well was tested in April (1966) it would only pump 40 inches of water and since he had invested approximately \$6500.00 in the well he would like to continue to drill deeper in an attempt to increase the amount of water;

NOW THEREFORE, An Extension of Time is allowed for Completion of Works and Beneficial Use Proofs on Permit No. G-29715 to May 19, 1967.

Signed at Boise, Idaho, this 27th day of April, 1966.

/s/ R. KEITH HIGGINSON,
Deputy State Reclamation Engineer

Recorded: April 27, 1966.

AMENDMENT TO POINT OF DIVERSION ✓

Comes now Lowell H. Hulbirt and represents to the State Reclamation Engineer of the State of Idaho: That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-29715. That the point of diversion is described in said Permit as being located: SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 31, T 11 S., R 22 E., B.M. That he now requests that the point of diversion be changed to a point located: SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 31, T 11 S., R 22 E., B.M. That the reason for desiring to make such change is as follows: Better irrigation system is possible from this point. That no one will be injured by such change and that such change will be made at permit holders own risk. Signed at Twin Falls, Idaho this 18th day of April, 1966.

/s/ LOWELL H. HULBIRT

Date of Receipt at Department of Reclamation: May 2, 1966.

APPROVAL OF STATE RECLAMATION ✓

I, R. Keith Higginson, Deputy State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-29715. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

/s/ R. KEITH HIGGINSON
Deputy State Reclamation
Engineer

Recorded in Book 104 of permits at page G-29715, May 5th, 1966.

AMENDMENT TO POINT OF DIVERSION ✓

Comes now Lowell E. Hulbirt and represents to the State Reclamation Engineer of the State of Idaho, That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-29715. That the point of diversion is described in said Permit as being located: SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 31, T 11 S., R 22 E., B.M. That he now requests that the point of diversion be changed to a point located: NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 31, T 11 S., R 22 E., B.M. That the reason for desiring to make such change is as follows: Well drilled at former location yielded insufficient water, then caved in and had to be abandoned. That no one will be injured by such change and such change will be made at Permit Holder's own risk.

Signed at Twin Falls, Idaho this 24th day of March, 1967.

/s/ LOWELL H. HULBIRT

Date of receipt at Department of Reclamation: March 27, 1967.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Jack A. Barnett, Deputy State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-29715. This approval constitutes a new permit and is issued as an amendment to the original permit to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Dear Mr. Hulbirt:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than April 15, 1968.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

Permit No. G-29715

Lowell H. Hulbirt of 1961 Falls Ave. E., Twin Falls,
(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder, of Permit to appropriate the Public Waters of the State of Idaho No. G-29715.

That under the terms and conditions of said permit, work thereunder was required to be completed by May 19, 19 67.

That he has heretofore performed the following work described under said permit: Drilled one well to a depth of 600 feet which would only pump 40 inches of water, and when attempting to drill this well deeper it caved in. Started over again at a different location and drilled to a depth of 980 feet, tested this well and found that it was good for 300 inches of water. Total cost of drilling, casing, and testing has been \$19,500 Costing \$ 19,500

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: Due to the first well caving in and the necessity of starting over again on another one, along with difficult drilling conditions and the depth of 980 feet which was needed on the second well, it was not possible to complete the work by May 19, 1967. This well was completed and tested on July 20, 1967. We now need time to install the pump which we have ordered from Layne & Bowler Pump Co. WHEREFORE, he asks that the State Reclamation Engineer extend the time for the completion of obligations under said permit to April 15, 1968.

Dear Mr. Hulbirt:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29715 are due not later than **May 19, 1967**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Dear Sir:

I would like to request an extension of time on water permit number G-29715 due to the facts related below.

This permit was assigned to me by G.T. Newcomb on November 29, 1965, and we have worked diligently since that time to develop the quantity of water claimed in the permit. Ted Haynes, drilling contractor, has been on the job steadily from October, 1965 until March, 1966 and has drilled a 600 foot hole as shown on the enclosed well log. We thought that we had reached an adequate supply of water, but when the well was tested in April it would only pump 40 inches of water.

Since we have invested approximately \$6500.00 in this well to date, we wish to continue to drill it deeper in an attempt to increase the amount of water which it will supply. In order to do this we need an extension of time beyond the present due date of May 19, 1966 for proof of completion of works and application of water to beneficial use. Ted Haynes has agreed to drill further for us, but is now working on another well which will take several months to complete.

For these reasons we respectfully request a one year extension of time on the above mentioned permit.

Yours very truly,

Lowell H. Hulbirt

Re: Permit Nos. G-29715
and G--30223

Mr. Lowell H. Hulbirt,
1961 Falls Avenue,
Twin Falls, Idaho.

Dear Mrs. Hulbirt:

In checking our records, Permit No. G-29715 shows the point of diversion as being located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 19, Twp. 11 S., Rge. 22 E. I am certain the well that was test pumped last week is located in a different subdivision. Beneficial Use Proofs are due May 19, 1966.

Permit No. G-30223 shows the point of diversion as being in the SW corner of the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 19, Twp. 11 S., Rge. 22 E. I'm sure the well used the past irrigation season to irrigate the E $\frac{1}{2}$, Sec. 19, is located near the North $\frac{1}{4}$ corner of Sec. 19. Beneficial Use Proofs are due October 6, 1966.

The same conditions exist on the above permits as stated in our letter dated December 28, 1965.

The necessary forms are enclosed and the fee is \$1.00 per each amendment to accompany the request for amendment.

Very truly yours,

LOY E. JOHNSON
Field Engineer

Dear Mr. ~~Hurlbirt~~:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29715 are due not later than **May 19, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Taffan
