Gentlemen:

In processing permit G-29269, we find that the lands under the permit have previously been licensed to capacity under a transfer of the following licenses: 19798, 17112, and 21143.

Since by law, the maximum rate of diversion is specified, we can not license these lands for a greater amount. If any of the wells involved in the above mentioned licenses are producing less than the amounts for which they are licensed, you might wish to transfer a portion of those rights to this well.

By Law, the well in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 31, T. 11 S, R. 20 E, B.M. can not be operated without a right for such well.

If you have any questions, please contact this office.

Dear Sir:

Re: Permit No. #31521
John Savage

The widow of John Savage has delivered to me your letter of December 30 giving her deceased husband forty (40) days to show cause why the above captioned Permit should not be cancelled. Mr. Savage passed away the latter part of September. Prior to his death he handled all of their business affairs, consequently his wife was not familiar with anything pertaining to business that involved herself or her husband's estate. She is quite elderly and the loss of her husband naturally was a great shock to her. We are presently in the process of probating her husband's estate and we also represent her. It is hoped that in view of these circumstances you will grant an extension of time within which to make final proof of completion of works and will not cancel this permit.

In the event you will not cancel this permit and in order to facilitate matters, I have had Mrs. Savage sign the enclosed Notice authorizing you to publish the proper notice for proof on this permit. Please find enclosed herewith said notice to publish and also the notice of proof of completion of works, etc., filled out in duplicate. Please send me the necessary forms for the holder and witnesses.

Very truly yours,

STEPHAN AND HARVEY

Re: Permit No. G - 29269

John Savage
Murtaugh, Idaho

Dear Mr. Savage:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29269 are due not later than Jan 9, 1966

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,
