Re: Permit G-29104 Eugene F. Price

Dear Mr. Higginson:

Mr. Eugene F. Price consulted us after his conversation with you relative to the above permit. The problem concerns your letter of July 20, 1967, wherein you proposed to license a quantity of water described as 2.92 c.f.s.

He indicates that you advised him on the telephone to not send in the \$13.00 as requested by that letter from the Department but that you would check into the measurement to see whether or not maybe an error occurred.

It is our understanding that Mr. Price in no way is jeopardizing his water right by not complying with the letter and that the next matter that will take place is that a letter or other information will be forthcoming from the Department of Reclamation relative to this situation.

In the event no change would be forthcoming Mr. Price desires to file a protest relative to the quantity of water.

We trust that we shall hear from you in the near future.

Yours very truly,

Mr. William A. Parsons,
Attorney at Law,
Box 670,
Burley, Idaho 83318

Dear Mr. Parsons:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-29104, in the name of Eugene F. Price. Final Proof is to be made before you, as Notary on the 4th day of August, 1965, at 10:00 o'clock A.M., at 137 West 13th, Burley, Idaho.

As of this date, we have mailed the Notice to the Herald Bulletin Burley, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN

Re: Permit #G-29104

Mr. Eugene F. Price
2331 W. 16th Street
Burley, Idaho

Dear Mr. Price:

This letter is a follow-up of our telephone conversation of December 22, 1964.

Your Permit is 3.36 c.f.s. to be applied upon 168 acres in the NE $\frac{1}{4}$, Sec. 2, T. 11 S., R. 21 E. It shows the point of diversion as being in the SE corner of SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 2, T. 11 S., R. 21 E.

This area was declared as a critical ground water area January 16, 1962. No new permits have been issued in this area. The outstanding permits at that time are allowed to be perfected. Therefore the amount of water withdrawn from the well is to be limited to the amount of your permit, 3.36 c.f.s., 168 miners inches, or 1512 gallons per minute.

Since talking to you on the phone and looking over your permit I would suggest you have your pump and motor designed to deliver the amount of your permit.

You mentioned the irrigation of other ground not in the permit. If you feel the 3.36 c.f.s. is enough ~~water~~ to irrigate the 168 acres plus the added land with the help of your waste water, you can amend the land list to include the additional ground, but we cannot change the amount of water over the 3.36 c.f.s.

We are enclosing forms to amend the land list. The amendment should be made before you make final proof of beneficial use of the water.

If you want the amendment, complete and sign the forms, attach the fee of \$1.00 for recording the amendment.

Very truly yours,

LOY H. JOHNSON
Field Engineer

Re: Permit G-29104

Mr. Eugene F. Price
2331 W. 16th St.
Burley, Idaho

Dear Mr. Price:

Received your letter of May 21, stating that you want to acquire 167 additional acres to be irrigated from your well under the above noted permit, and ask if you could do so.

This would give you 335 acres and if your pump can deliver 204 inches of water constantly, you would have 0.6 inches of water per acre.

If soil condition is good you could probably manage with that amount of water, and we are, therefore, enclosing forms for amending your land list to include the NW¹, Sec. 2, T. 11S.-R. 21 E. B. M. you are buying.

Complete and sign form, attach the fee of \$1 for recording amendment and return promptly to this office.

Very truly yours,

CARL E. TAPPAN, Assistant

Dear Sir:

I am writing you this letter to see if La Mar Barnes Box 184, Basalt Idaho sent in the log on my well that he dug for me on Section 2 Township 11 Rge. E.B.M. 21. NE 1/4 in the S.E. 40. And in the S E Corner. I had this well tested & pumped Nov 9th 1961 Blk Layne Bowler Co. of Twin Falls Idaho.

I was in your office Aug. 13, 1962 checking on this matter and at that time you had not heard from La Mar Barnes on the Well Log so I wrote him a letter Aug 25 1962 and asked him

to send in the log on the
Well. and I have never
hear from him. So will
you please let me know
whether he sent in the log
or what to do about this
matter

Dear Mr Carter:

I am writing you for information regarding My Water Well permit #B-29104 in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 2, Township 11 South, Range 21 East, S.M.

I am allowed 168 inches of water out of My Well for my 168 acres.

What I want to know if, I buy the 167 acres West of My place on the NW $\frac{1}{4}$ of Section 2 Could I use this Well for the Water for that 167 acres without drilling a new Well for it?

I had My Well tested it pumped 204 inches of water without any draw down with 8" column with 300 H.P. Diesel Engine. 400 ft lift the Well is 510 ft deep. This $\frac{1}{4}$ section joins My place on the West. And all I would have to do is make a gravity ditch to it for water.

I would appreciate this information.
