Transfer No.

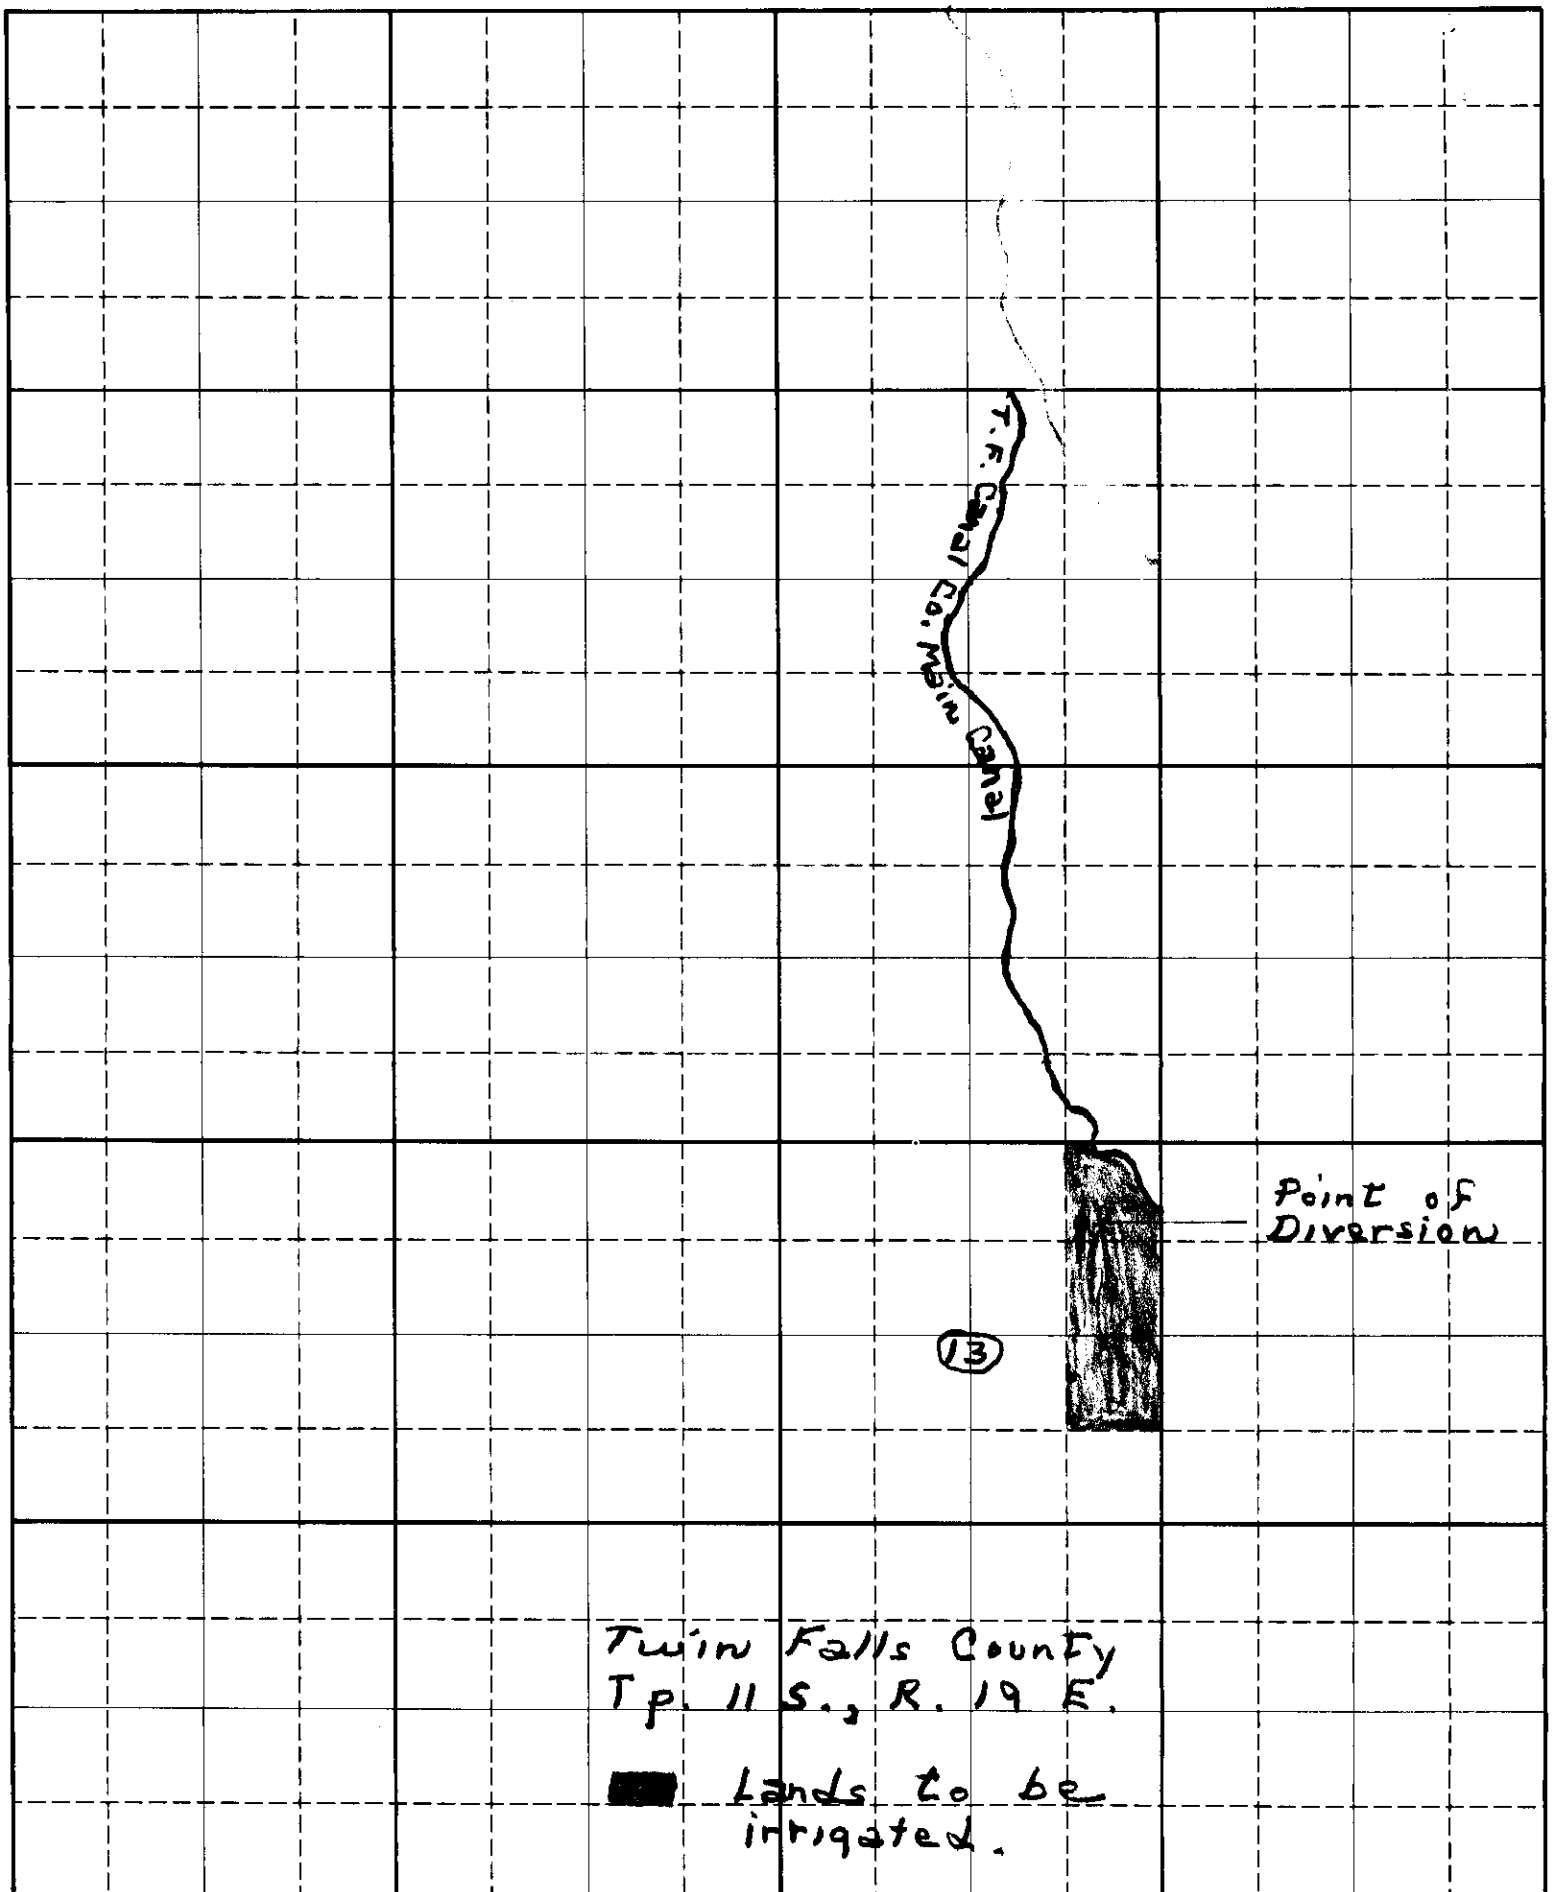

APPLICATION FOR TRANSFER OF WATER RIGHT
To Change the Point of Diversion and/or the Place of Use

1. Name of Right Holder UHLIG RANCHES, INC.
Post office address P. O. Box 22, Hansen, Idaho
2. Right obtained by:
a. Decree to _____ in Case of _____
(Name)
vs. _____, Dated _____ in _____
(Name of Court)
Court. County of _____.
- b. License No. G-28832 issued by the State of Idaho, Department of Reclamation.
3. Source of water Subterranean tributary to _____
(Name of stream or source)
4. Date of Priority June 29, 1960
5. Amount of water a. 1.5 c.f.s. and/or
b. _____ acre feet/annum
6. Water is used for irrigation from April 1 to October 31
(Month, Day) (Month, Day)
7. Original location of point of diversion is NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 13,
Township 11 South, Range 19 East, B.M., in Twin Falls County;
Additional points of diversion, if any _____

8. Lands presently irrigated or place of use: (See attached License and Certificate of Water Right).

[illegible]

Total number of acres presently irrigated_____

SCALE: 2 Inches Equal 1 Mile. Draw Plan in Ink.

9. If applicant was not the original holder of this right explain how it was acquired: _____

10. CHANGE IN POINT OF DIVERSION

- a. Quantity to be diverted at new point: _____ c.f.s. and/or _____ acre feet
- b. New point of diversion: _____ ¼ _____ ¼, Section _____, Township _____
_____, Range _____, B.M.
- c. Description of method of diversion and conveyance from new points of diversion: _____

- d. Is water to be conveyed to the lands previously irrigated? Yes _____ No _____
If not, the place of use should be changed below.
- e. Describe the reasons for applying for a change in the point of diversion: _____

- f. Do you intend to make the transfer permanent? _____
- g. Do you intend to abandon completely the old point of diversion? _____

- h. Indicate on the above plat the new point of diversion and lands to be irrigated.

11. CHANGE IN PLACE OF USE

- a. Describe the new lands on which you wish to use your right.

TWP.	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
11 S.	19 E.	13	27 27			40 15									40 15				107 57

Total number of acres to be irrigated 107
57

- b. Do you intend to make the transfer permanent? Yes
- c. Are you completely abandoning the lands previously irrigated by this right? If not, explain your plans:

No. Several other licensed water rights and water of the Twin Falls Canal Company is available to irrigate the lands from which this water right is being transferred.

- d. Describe any other water rights that you claim for the new ground upon which you wish to transfer this right: Only 80 shares of Twin Falls Canal Company water stock is available to irrigate the 107 acres, all appurtenant to the

SE $\frac{1}{4}$ NE $\frac{1}{4}$ and the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 13, Tp. 11 S., R. 19 E.B.M. .96 C.F.S. Supplemental To The above Land. See letter dated 12-8-69.

- e. Indicate on the above plat the new land to be irrigated and the point of diversion. in file. T.W.N.

I hereby assert that no one will be injured by such transfer and that the change will be made at my own risk. The information contained in this application is true to the best of my knowledge.

AFFIDAVIT OF PUBLICATION

STATE OF IDAHO, }
County of Twin Falls } ss.

I, Alvin Hill being first duly sworn on oath, say:

That I am Co-publisher of the Kimberly Advertiser, a newspaper of general circulation in Twin Falls County, Idaho, published weekly in Kimberly in said county and state; that a true copy of the annexed notice was published in the regular and entire issue of said newspaper, and

not in any supplement thereof, for two consecutive weeks, commencing with the issue dated December 25, 1969, and ending with the issue dated January 1, 1970.

45 2623

And I do further swear that said newspaper has been so published as a weekly newspaper in said city and county, continuously and uninterruptedly during a period of more than seventy-eight consecutive weeks prior to the first publication of said above mentioned legal advertisement.

Alvin Hill

Subscribed and sworn to before me this 2nd day of January, 1970
Reuben D. Mutsaers
Notary Public for the State of Idaho.

(My commission expires May 2, 1973.)

AFFIDAVIT OF PUBLICATION

NOTICE OF APPLICATION TO CHANGE WATER RIGHT

NO. 43-2497

Notice is hereby given that Uhlig Ranches, Inc., of Hansen, Idaho, who holds a water right by virtue of License #43-2497 for the diversion of 1.5 c.f.s. of the waters of subterranean source.

Priority June 29, 1960;

Point of diversion: NE $\frac{1}{4}$
NE $\frac{1}{4}$, Sec. 13, T. 11S, R. 19E
B.M.

Place of Use: N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 2; NW $\frac{1}{4}$, W $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 12; NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 11, T. 11S, R. 19E, B.M. has applied to the Department of Reclamation of the State of Idaho to change the place of use under the above described water right to the E $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13, T. 11S, R. 19E, B.M.

Any protests against this proposed change of water right must be filed with the Department of Reclamation, Statehouse-Annex 2, Boise, Idaho 83707, within 10 days of the last date of publication.

Published on December 25, 1969 and January 1, 1970.

APPLICATION FOR PERMIT To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 36815
Permit No. G- 28832
District No.

1. Name of Applicant: Uhlig Ranches, Inc.

Postoffice address: Route #1, Hansen County: Twin Falls State: Idaho

2. Quantity of water claimed:

(a) Rate of withdrawal in cubic feet per second one and one-half ($1\frac{1}{2}$) or Idaho
Miners' inches 75 or gallons per minute

(b) Annual withdrawal in acre feet per annum

3. Source of water supply: Subterranean water

4. Location of point of diversion or well is in the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 13
Twp. 11 S , Rge. 19 E , B.M., County of Twin Falls, Idaho

5. Water is to be used for: Irrigation purposes

6. If for municipal, industrial or recreational purposes, give:

(a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.

(b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.

7. Kind of works: Deep well 120' deep; 16" hole; 25 HP electric pump

8. Estimated cost of works: \$ 3,000.00

9. (a) Is reservoir to be used? No

(b) Capacity of reservoir:

10. The time required for the completion of such work and complete application of the water to the proposed use is five years.

11. If applicant is a corporation, give:

I. (a) Date and place of incorporation: January 1, 1959, in State of Idaho

(b) Amount of capital stock: \$ 250,000.00 (c) Amount paid in: \$ 393,330.00

(d) Names and addresses of directors: Edward L. Uhlig and Katherine M. Uhlig, Box 22, Hansen, Idaho;
A. L. Blandford, Box 363, Kimberly, Idaho

II. The financial resources of the applicant are (a) Cash on hand: \$ 100.00

(b) Treasury stock: (c) Bonds to be issued:

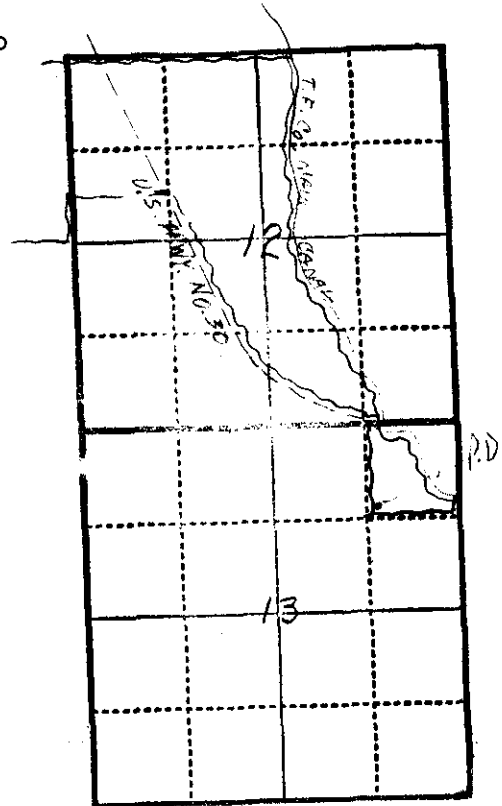

(d) Other resources: Land, equipment, crops exceeding \$500,000.00

12. The land to be irrigated is described in the following tabulation:

13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: as indicated under remarks below.

(a) 75" (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.

(b) (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

Re: License No. G-28832.

Gentlemen:

This is in reference to my letter of December 12th and my conversation of yesterday with Mr. Hamilton.

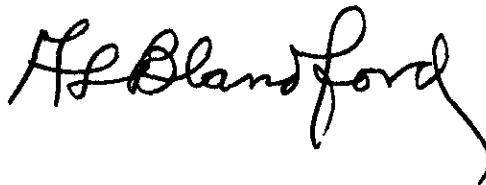

In lieu of transferring only a portion of the water right of 75 inches, represented by the above license, to the new lands, it is requested that 27 inches thereof be shown as appurtenant to new lands (that in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of 13-11-19) and that the balance of 48 inches be shown as supplemental to the 80 shares of Twin Falls Canal Company water for irrigation of the lands in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ of 13-11-19.

I am Secretary of Uhlig Ranches, Inc. and you have the permission of the corporation to issue the transfer order in the name of the prospective buyer, D. Ivan Moyes.

Yours very truly,

BLANDFORD AND BLANDFORD

**NOTICE OF APPLICATION
TO CHANGE WATER RIGHT
NO. 43-2497**

Notice is hereby given that Uhlig Ranches, Inc., of Hansen, Idaho, who holds a water right by virtue of License #43-2497 for the diversion of 1.5 c.f.s. of the waters of subterranean source.

Priority June 29, 1960;

Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 13, T. 11S, R. 19E B.M.

Place of Use: NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 2; NW $\frac{1}{4}$, W $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 12; NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 11, T. 11S, R. 19E B.M. has applied to the Department of Reclamation of the State of Idaho to change the place of use under the above described water right to the E $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13, T. 11S, R. 19E B.M.

Any protests against this proposed change of water right must be filed with the Department of Reclamation, Statehouse-Annex 2, Boise, Idaho 83707, within 10 days of the last date of publication.

Published on December 25, 1969 and January 1, 1970.

R. KEITH HIGGINSON
State Reclamation
Engineer

The publication dates of our paper were changed from the original copy because they are not Dec. 24 and 31. 45 2623

Since Christmas falls on the Thursday publication date we will go to press Tuesday noon both weeks to enable the local readers to have their paper prior to both Christmas and New Year. This is a policy followed by the majority of publishers. However, we must retain the regular Thursday dates according to law.

Hall. Filed by Mrs. Hall

December 18, 1969

Kimberly Advertiser
310 Main Street
Kimberly, Idaho 83341

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.

(Signature of the claimant)

Very truly yours,

Robert W. Hamilton, Supervisor
of Water Distribution

Re: License No. G-28832.

Gentlemen:

Uhlig Ranches, Inc. wants to sell that part of the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of 13-11-19 lying West of the main canal of the Twin Falls Canal Company, in Twin Falls County, to Ivan D. Moyes. The land included consists of 27 acres, and the well and point of diversion for the above license is located thereon.

As you can see from the enclosed, the 1.5 c.f.s. water right is appurtenant to other lands than those being sold. We wish to transfer the water to the land being sold to Mr. Moyes and also to 80 acres of land he already owns. However, since the buyer already has 80 shares of Twin Falls Canal Company water appurtenant to his 80 acres, I presume we can transfer only 30 inches to the 80 acres and only 27 inches to the land being sold. Is this correct?

*i share of stock
in Co. equals
5/8" of water. RWB*

There are 20 shares of Twin Falls Canal Company water appurtenant to the 27 acres being sold, but the corporation has transferred that to other lands it owns.

If the enclosed application must be signed by Mr. Moyes (the buyer) because he owns the 80 acres to which part of the water right is being transferred, please return the same and I will have him sign it.

Yours very truly,

Attention: Mr. Ralph W. Thomas

Re: Uhlig permits.

Dear Mr. Thomas:

After refiguring the amount of water appurtenant to each of the subdivisions owned by Edward L. Uhlig and Uhlig Ranches, Inc., I find that my figures now agree with yours.. Therefore, it won't be necessary for me to apply for a transfer of any water.

We are in trouble only with respect to the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of 12-11-19. Your figures and mine show 34.2 inches of subterranean water appurtenant to that 40-acre subdivision. In addition, ~~there~~ is appurtenant thereto 20 shares of Twin Falls Canal Co. water (12.5 inches). Eventually I will apply for a transfer of the Twin Falls Canal Co. water to other lands.

Thank you for your assistance.

Yours very truly,

Boise, Idaho

Attention: Mr. Ralph W. Thomas

Dear Mr. Thomas:

In reply to your letter of October 8th, my figures are apparently wrong because I did not prorate the water under License Nos. G-28100, G-28392 and G-28832 on the basis of 80% to new land and 20% as supplemental water. Otherwise, our figures agree in every respect.

Referring to the enclosed list, which it is requested you return to me, I notice that you have 1.94 c.f.s. as the amount of water appropriated for License No. G-28100. The copy of the water license that I have, however, shows 2.25 c.f.s. for this permit. This adjustment was made in accordance with your letter of July 17th.

Please let me know if the 2.25 c.f.s. is the correct amount. I want to be sure of my figures before I refigure all of the amounts for each subdivision.

Yours very truly,

Enclosure

October 8, 1964

Re: Permit No. G-28832
Uhlig Ranch

A. L. Blandford
Attorney at Law
Kimberly, Idaho

Dear Sir:

Enclosed is Form 20 you requested by letter, also pencil distribution of water under seven licenses to divert subterranean water, one of which had land list changed by transfer. As noted at bottom, total water amounts to 12.02 c.f.s., or 601 inches and my distribution adds up to 599.5 inches. The discrepancy would be largely omitted if I had used one more point on the inches under the last three licenses. The acreage under the transfer was computed as full 40-acres except for NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 2, where 15 acres was used, the area shown on the last licenses.

Under last three licenses for the same land, 20% of the water was allowed to part of the area which is shown above the 80% of the water to the balance of the land.

My list enclosed seems to agree approximately with a former letter to you which showed 0.9 inch per acre, per acre except less than 0.6" to some land. I don't find over 40" to any subdivision. Possibly there are other rights which I did not find.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

Department of Reclamation

Attention: Mr. Ralph W. Thomas, Deputy
State Reclamation Engineer

Dear Mr. Thomas:

After completing my survey of all of the lands and water rights owned by Edward L. Uhlig and Uhlig Ranches, Inc., I find that we have too much water appurtenant to the lands hereinafter described.

Some part of each of Permit Nos. 25937, 26815, 26816, 28100, 28392 and 28832 is appurtenant to each of the following 40-acre subdivisions, resulting in the total number of miner's inches of water shown after each:

SE $\frac{1}{4}$ NW $\frac{1}{4}$ (44.20"), NE $\frac{1}{4}$ NE $\frac{1}{4}$ (48.12"),
SW $\frac{1}{4}$ NE $\frac{1}{4}$ (44.20"), SE $\frac{1}{4}$ NE $\frac{1}{4}$ (48.12"), and
NE $\frac{1}{4}$ SW $\frac{1}{4}$ (48.12"), all in Section 11,
Township 11 South, Range 19 E.B.M.

NW $\frac{1}{4}$ NW $\frac{1}{4}$ (42.08"), NE $\frac{1}{4}$ NW $\frac{1}{4}$ (48.12"), and
SE $\frac{1}{4}$ NW $\frac{1}{4}$ (47.55"), all in Section 12,
Township 11 South, Range 19 E.B.M.

I find that I can correct this overappropriation of water by transferring the water of only one license (G-26815) from each of the subdivisions to other lands. Please send me the necessary forms so that I can obtain an order transferring the water of the above permit to a new place of use.

Thank you.

August 23, 1962

Re: Permit Numbers
G-26100 - G-26392 - G-26832
Unlig Ranches

Mr. A. L. Blandford,
Lawyer,
Kimberly, Idaho.

Dear Mr. Blandford:

We received your letter of August 22nd.

On Page 2 first paragraph, you state that the water license only shows 307 acres irrigated of a total of 420 acres. That is hardly correct as the license shows the number of acres in each 40-acre subdivision which are being irrigated. This brings up the last part of my letter of July 17 on Page 1. Taking into account the Transfer of Water Right under License, there are 256 acres of land now irrigated which have no water right, and 427 acres which are licensed, making a total of 683 acres irrigated at the time of the examination June 27, 1962.

These three licenses can be written to make 80% or a total of 4.6 CFS of water appurtenant to the new lands and 20% or a total of 1.15 CFS appurtenant to the lands presently under license. The total subterranean water right would be about 0.9 miners inch per acre except the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 2, and SW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 11 would have slightly less than 0.6 miners inch per acre.

This should be adequate for the present until all rights are transferred to cover all of the land at some time in the future, or the District Judge decides the question.

The fees, as shown in our letter of July 17th, total \$47.00 for certificates under the three permits.

Very truly yours,

GEO. N. CARTER

Attention: Mr. Ralph W. Thomas.

Re: Permits No. G-28100, G-28392,
and G-28832.

Dear Mr. Thomas:

I did not realize that the water under the four licenses was appurtenant only to 427 acres irrigated at the time of inspection by your Department. Much more of the same land (a total of about 540 acres of that described in the four licenses) is now under irrigation.

Mr. Uhlig and Uhlig Ranches have a unique situation here with most of the water being diverted through long pipelines and laterals to form one large system of irrigation. It has been my intention, in that respect, to make all of the water appurtenant to all of the lands owned by Mr. Uhlig and the corporation, and to have the same distributed as equally and evenly as possible on such lands. It appears, however, that I have not been successful because some of the lands are not yet irrigated or were purchased after the permits were filed and the licenses issued.

The result will be, if the licenses are issued now, that some of the lands will have no water right at all appurtenant thereto. Therefore, I am wondering if we cannot wait for a year or two before issuing the three licenses until Mr. Uhlig has all of the lands under irrigation. Then your Department can make another inspection so that the water rights represented by the licenses can be shown to be appurtenant to all of the lands I have described. If this can be done, I presume it will not be necessary to make any further publications or proof, as the only question on the depositions of the holder and witnesses which would not conform to the actual facts existing at this time or the time when the later inspection was made would be No. 10.

I realize, of course, that your Department cannot issue a license for a water right if beneficial use has not been made. This case, however, reflects the non-flexibility of the statutory method of appropriation... the water right does not become appurtenant to other lands applied to beneficial use after the license is issued until a transfer is obtained. Here we have the 4.8 c.f.s appurtenant to only 307 acres, though there is now actually 420 acres irrigated with the same water. Also, the license describes the 307 acres only in a general manner as being located in the 420 acre tract, thereby evidently prohibiting any other water right from becoming appurtenant to the remaining 113 acres unless a transfer is recorded, as we do not have an exact description of the 113 acres that have no water right.

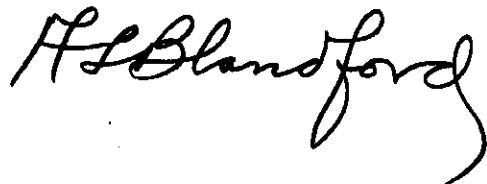

The above three permits were applied for on August 11, 1959, January 18, 1960, and June 29, 1960, and we consequently have five years from each date within which to have the licenses issued (or at least within which the proof that has already been submitted would be due). Do you see any objection to my suggestion that we wait until Mr. Uhlig has the lands described in the permits all under irrigation?

Thank you for your suggestions.

Yours very truly,

BLANDFORD AND BLANDFORD

Re: Permits No. G-28100; G-28392;
G-28832 - Uhlig Ranch

A. L. Blandford
Attorney at Law
Kimberly, Idaho

Dear Mr. Blandford:

We have your letter of August 13th in regard to the licensed rights and permits to be licensed on the Uhlig Ranch.

You refer to the total number of acres in the lands described and have not referred to the actual licenses issued. The three licenses mentioned in your second paragraph total 4.8 cubic feet per second to irrigate only 307 acres of the 420 acres you mention, or 0.78 inch appurtenant to each acre. The fourth license for 89 inches covers the lands which total 215 acres, 120 acres now irrigated.

You also disregard the fact that the license allows a certain amount of water to irrigate certain lands, each acre of which receives an equal amount of water. You cannot use the overall acreage as some was not irrigated and some is not being irrigated at the present time.

Permit No. G-28100 was amended to show the same lands as Permits G-28392; G-28832. These three permits total 5.75 c.f.s. to irrigate 683 acres shown on the report, or 0.42 miner's inches appurtenant to each of the 683 acres.

We cannot issue license under these three permits for all the land, as then part of the land would have $0.78 + 0.42$ inches per acre, part only 0.42 inches per acre and for the land under Transfer No. 936, $0.74 + 0.42$ inches for land presently irrigated or including the dry land under the transfer $0.40 + 0.42$ inches per acre.

Page Two, Continued

A. L. Blandford

Aug. 15, 1962

There is not too much water involved for all of the land, it is just a matter of where the water is apportioned by license and by transfer of water right, plus later permit rights and how the licenses should be written.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Attention: Mr. Ralph W. Thomas

Re: Permits No. G-28100, G-28392,
and G-28832.

Dear Mr. Thomas:

Thanks for your letter of August 10th and the explanation contained therein. However, my figures do not agree with yours, so I thought I would summarize my records for you. Please keep in mind that the following lists of lands are those pursuant to amendments which I filed and which your office recorded on November 19, 1958, prior to the time licenses were issued on the four permits.

Water licenses for G-25937, G-26815 and G-26816 were issued for a total of 240 inches (4.8 c.f.s.) to irrigate 420 acres as follows: $N\frac{1}{2}$ NW $\frac{1}{4}$, $N\frac{1}{2}$ S $\frac{1}{2}$ NW $\frac{1}{4}$, 15 acres in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, about 5 acres in $N\frac{1}{2}$ SW $\frac{1}{4}$ NE $\frac{1}{4}$, all in 12-11-19; NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$ in 11-11-19. All of these lands are under cultivation.

Water license for G-26269 was issued for 89 inches (1.78 c.f.s.) to irrigate the following 220 acres: SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ in Sec. 11; NE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, and 20 acres in NE $\frac{1}{4}$ SE $\frac{1}{4}$ in Sec. 2. According to your last letter, 125 acres of this land is presently cultivated.

Permit Nos. G-28392 and G-28832 are for a total of 175 inches (3.5 c.f.s.) to irrigate the 640 acres described above, plus 131 acres located in the $S\frac{1}{2}$ of Sec. 12 and the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 13. All of the 131 acres are also presently under cultivation.

Permit No. G-28100 is for 112.5 inches if we amend the point of diversion to include the additional 0.31 c.f.s. (a total of 2.25 c.f.s.) to irrigate 140 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$ and part of NE $\frac{1}{4}$ SE $\frac{1}{4}$ in Sec. 2. Your letter states that only 45 acres of this land is now cultivated.

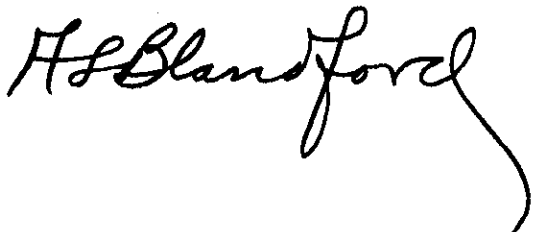

In addition to the above subterranean water rights, there are 12.5 inches (20 shares) of Twin Falls Canal Company water appurtenant to the N $\frac{1}{2}$ SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 12 and 52.5 inches (84 shares) appurtenant to the 131 acres located in the S $\frac{1}{2}$ of Sec. 12 and NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 13.

The above figures indicate, therefore, that there are 681.5 inches of Water (13.63 c.f.s.), both surface and subterranean, available on 676 acres of land actually and presently irrigated. This leaves us with 5.5 inches more than what we have land for, but I am sure that the Department of Reclamation's own inspection shows the land of this applicant to be full of gullys and very rough, which would necessitate the use of more than one inch per acre as authorized by Section 42-202 of the Idaho Code. Also, the applicant has 175 more acres to reclaim in Sec. 2 and in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 11, with no prospect of getting water from wells which might be located west of U. S. Highway 30.

As matters now stand, the only complication I can see is that concerning Permit No. G-28100. The water from this well and from that under G-26269 totals 201.5 inches with only 125 acres of land irrigated. I suggest that Permit No. G-28100 be amended to change the point of diversion so that the additional 0.31 c.f.s. of water can be included and that the land list thereunder be amended to include the same lands described in G-28392 and G-28832 (all 771 acres). Does this appear feasible to you, Mr. Thomas? I will also include in the amendment a statement that additional water of 5.5 or 6.5 inches, over and above the normal flow of one inch per acre, is needed for adequate irrigation, which is certainly the case.

Yours very truly,

BLANDFORD AND BLANDFORD

by 

ALB:

August 10, 1962

Re: Permits No. G-28100; G-28392; G-28832

A. L. Hlandford
Attorney at Law
Kimberly, Idaho

Dear Mr. Hlandford:

Mr. Uhlig has four licensed rights for water from subterranean source, three of which cover the same 307 acres in Sections 10, 11, 12 with 4.8 c.f.s. or 0.78 inches per acre, plus one for 1.78 c.f.s. where the place of use was changed by Transfer No. 936 to approximately 200 acres of land for 0.44 inches per acre. As Transfer 936 includes 80 acres in SW $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 11, that land is now licensed for over an inch per acre.

The present three permits, wells producing 287.5 inches, to irrigate about 680 acres would average 0.42 inches per acre which would leave the new land short of water and the land under present license rights over one inch per acre. Reducing the area under these permits to 296 acres would average 0.96 inch per acre.

I did not find Transfer No. 936 until I checked the license record this morning and that further complicates the question. There are 40 acres of the 296 acres mentioned above in the NE $\frac{1}{4}$, Sec. 2 which would have over one inch per acre, being 0.44 inch plus 0.96 inch or 1.4 inches per acre.

You know the statutes have a limit of one miner's inch per acre or one cubic foot per second for 50 acres of irrigated land.

This is a common occurrence when a number of permits are involved and requires some study to keep the amount of water within limits. These permits

Page Two

A/ L. Blandford

Aug. 10, 1962

cannot include 15 acres in NW $\frac{1}{4}$ SE $\frac{1}{4}$, or the land in SW $\frac{1}{4}$, Sec. 2, which were dry at time of examination.

We will follow any proposal you may make, as long as it keeps the water within limits as of now. You will probably Transfer Point of Use at a later date of some of this water to cover the land now dry. The transfer could specify the amount transferred to keep an average amount of water over all of the unit.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

State of Idaho
Department of Reclamation
Boise, Idaho

Attention: Mr. Ralph W. Thomas,
Deputy State Reclamation Engr.

Dear Mr. Thomas:

Since receiving your letter of July 17th, I have been considering the matters presented therein with reference to Permits G-28100, G-28392 and G-28832. I understand the problem of the additional 0.31 c.f.s. set forth in the first paragraph and the proposal to amend the point of diversion mentioned in the second paragraph of your letter.

However, I am confused as to the suggested amendment of the land list set forth in the third paragraph, particularly your statement that the land list must be limited to land not irrigated under Licenses G-25937, G-26269, G-26815 and G-26816. Is this because the lands included in such licenses are owned by Edward L. Uhlig while the points of diversion under the permits are on lands owned by Uhlig Ranches, Inc.? If Uhlig Ranches, Inc. cannot divert water to Edward L. Uhlig's lands, then I understand your third paragraph, as we have 287.5 miners inches available to irrigate only 271.7 acres owned by the corporation.

Neither Mr. Uhlig nor the corporation own the 20 acres located in the E $\frac{1}{2}$ SE $\frac{1}{4}$ of 10-11-19, as he sold the same to a third party and is presently only leasing the same. This is the reason why I filed the application and obtained the order transferring the water right off of the 20 acres under Permit No. G-26269.

The corporation does own the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of 2-11-19 and the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of 11-11-19 which are not presently, but eventually will be, irrigated from the four licensed wells and the three pending wells.

If the reason for your statement that the land list cannot include the lands irrigated under the four licensed water rights is because of the dual ownership, is there any reason why the three permits cannot be amended to name both Mr. Uhlig and the corporation as applicants?

If the dual ownership of the lands is not the reason for your statement, then I can think of no other. Permits G-25937, G-26815 and G-26816, subsequently licensed, were for a total of 240 inches to irrigate 420 acres, while the license for Permit No. 26269 was for 89 inches to irrigate other lands totaling 220 acres.

The amount of water appropriated and licensed under all seven permits would total 616.5 inches which, together with the 65 inches under 104 shares of Twin Falls Canal Company, would make 681.5 inches of water available. The number of acres described in the applications for all seven permits is 771.

In view of the above, please let me know if it is necessary to amend the land list, or can we simply amend the point of diversion under G-28100 to include the extra 0.31 c.f.s. of water.

Yours very truly,

BLANDFORD AND BLANDFORD

by 

ALB:

P.S. - I certainly appreciate your suggestions and willingness to help acquire the additional water.

July 17, 1962

Re: Permits G-28300; G-28392;
G-28832 - Uhlig Ranches, Inc.

A. L. Blandford
Attorney at Law
Kimberly, Idaho

Dear Mr. Blandford:

We have received the field examiner's reports on the works under permits noted above. The reports show that the three wells shown on the permits produce 5.75 c.f.s., however the wells under G-28392 and G-28832 produce 0.11 c.f.s. over the amount claimed on the applications. As the permits are, we can issue the three licenses for a total of 5.44 c.f.s.; G-28300 for 1.94 c.f.s., G-28832 for 1.5 c.f.s. and G-28392 for 2.0 c.f.s.

Provided the point of diversion under G-28300 is amended from SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 12, to SE $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 12 and NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 13, that license can be issued for 2.25 c.f.s. which would cover the 0.11 of extra water from the two other wells.

The land list must be limited to land not irrigated under the four licensed, subterranean water rights issued in August 1959 - G-25937; G-26869; G-26815; G-26816 which totaled 6.58 c.f.s. to irrigate 407 acres of land in the same ranch; unless these licensed rights transfer the place of use under Sec. 12-222 and these permits are amended to include the 20 acres in E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 10, T. 11 S., R. 19 E.; or we can show on the certificates under lands in former licensed water rights, except the 20 acres in Section 10 which are not included in these permits.

Page Two

A. L. Blandford

July 17, 1962

In any action, the statutory fees will total \$15.00 for three Certificates of Completion of "canals, plus \$32.00 for one Certificate and License., (others free as the same land is involved) plus \$1.00 for recording each amendment to these three permits. The amendments could include the points of diversion under 0-25100 and amendment to land list under each permit to include the SW¹/₄NE¹/₄, NE¹/₄SE¹/₄, Sec. 10, T. 11 S., R. 19 E., B. M.

A supply of forms is enclosed.

Very truly yours,

GEO. W. CARTER

LEGAL NOTICE

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

* * * *

NOTICE IS HEREBY GIVEN That at 2:00 o'clock p.m. on the 20th day of February, 1961, at Kimberly, County of Twin Falls, State of Idaho, before A. L. Blandford, Notary Public, proof will be submitted of the application to beneficial use and the completion of works for the diversion of 5 cubic feet per second of underground water from a well in accordance with the terms and conditions of Permit No. G-28100, 2 cubic feet per second of underground water from a well in accordance with the terms and conditions of Permit No. G-28392, and 1.5 cubic feet per second of underground water from a well in accordance with the terms and conditions of Permit No. G-28832, which permits were heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and post office address of the corporation holding said permits is Uhlig Ranches, Inc., Hansen, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 8.5 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is the total of 8.5 cubic feet per second as described above.

4. The points of diversion of said water, consisting of three wells in Twin Falls County, Idaho, and the dates of priority which said user is prepared to establish are as follows:

Permit No. G-28100: SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 12, Tp. 11 South, Range 19 E.B.M.; August 11, 1959.

Permit No. G-28392: SW $\frac{1}{4}$ Sec. 11

Range 19 E.B.M.; January 18, 1960.

Permit No. G-28832: NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 12, Tp. 11 South, Range 19 E.B.M.; June 29, 1960.

5. The places where said water is used, all located in Twin Falls County, Idaho, are as follows:

NE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, and part of NE $\frac{1}{4}$ SE $\frac{1}{4}$, in Section 2; NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, in Section 11; part of NW $\frac{1}{4}$ NE $\frac{1}{4}$, part of SW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NW $\frac{1}{4}$, part of NW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$.

in Section 13; all in Township 11 South, Range 19 E.B.M.

LEGAL NOTICE

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE * * * *

NOTICE IS HEREBY GIVEN That at 2:00 o'clock p.m. on the 20th day of February, 1961, at Kimberly, County of Twin Falls, State of Idaho, before A. L. Blandford, Notary Public, proof will be submitted of the application to beneficial use and the completion of works for the diversion of 5 cubic feet per second of underground water from a well in accordance with the terms and conditions of Permit No. G-28100, 2 cubic feet per second of underground water from a well in accordance with the terms and conditions of Permit No. G-28392, and 1.5 cubic feet per second of underground water from a well in accordance with the terms and conditions of Permit No. G-28832, which permits were heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and post office address of the corporation holding said permits is Uhlig Ranches, Inc., Hansen, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 8.5 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is the total of 8.5 cubic feet per second as described above.

4. The points of diversion of said water, consisting of three wells in Twin Falls County, Idaho, and the dates of priority which said user is prepared to establish are as follows:

Permit No. G-28100: SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 12, Tp. 11 South, Range 19 E.B.M.; August 11, 1959.

Permit No. G-28392: SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 12, Tp. 11 South, Range 19 E.B.M.; January 18, 1960.

Permit No. G-28832: NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 13, Tp. 11 South, Range 19 E.B.M.; June 29, 1960.

5. The places where said water is used, all located in Twin Falls County, Idaho, are as follows:

NE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, and part of NE $\frac{1}{4}$ SE $\frac{1}{4}$, in Section 2; NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, in Section 11; part of NW $\frac{1}{4}$ NE $\frac{1}{4}$, part of SW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NW $\frac{1}{4}$, part of SW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, part of NE $\frac{1}{4}$ SW $\frac{1}{4}$, part of SE $\frac{1}{4}$ SW $\frac{1}{4}$, part of NW $\frac{1}{4}$ SE $\frac{1}{4}$, part of SW $\frac{1}{4}$ SE $\frac{1}{4}$.

from 12, part of NE $\frac{1}{4}$ NE $\frac{1}{4}$ in Section 13; all in Township 11 South, Range 19 E.B.M.

DEPARTMENT OF RECLAMATION
BOISE, IDAHO

RECEIVED
APR 24 1960
Dept. of Reclamation

Permit No. G-28832

Proof of Application of Water to Beneficial Use

and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Edward L. Uhlig; farmer; Box 22, Hansen, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Uhlig Ranches, Inc.; Hansen, Idaho; president; authorized by resolution to conduct this business.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-28832; dated June ³⁰ 29, 1960, with date of priority of June 29, 1960.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Deep well located in NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 13, Tp. 11 South, Range 19

E.B.M., Twin Falls County, Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Deep well 125' deep; 27' of 16" casing; 50' to water; 20 H.P. electric pump producing at least 60 miner's inches of water; measured through a six inch orifice. Works also include several pipelines.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation of cultivated lands in NE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, and part of NE $\frac{1}{4}$ SE $\frac{1}{4}$, in Sec. 2; NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, in Sec. 11; part of NW $\frac{1}{4}$ NE $\frac{1}{4}$, part of SW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NW $\frac{1}{4}$, part of SW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, part of NE $\frac{1}{4}$ SW $\frac{1}{4}$, part of SE $\frac{1}{4}$ SW $\frac{1}{4}$, part of NW $\frac{1}{4}$ SE $\frac{1}{4}$, part of SW $\frac{1}{4}$ SE $\frac{1}{4}$, part of SE $\frac{1}{4}$ SE $\frac{1}{4}$, in Sec. 12; part of NE $\frac{1}{4}$ NE $\frac{1}{4}$ in Sec. 13; all in Tp. 11 South, Range 19 E.B.M.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Boley, Henry & Weech, Murtaugh, Idaho.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. One miner's inch per acre.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All of said water (at least 60 miner's inches) used to irrigate all of the above described lands during the crop season of 1960.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. 104 shares of Twin Falls Canal Co. water and 539 miner's inches from six other deep wells under Permit No. G-25937, G-26269, G-26815, G-26816, G-28100, and G-28392 used during and after 1954 to irrigate the above described 770.7 acres.

(Sign)

Edward L. Uhlir

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Kimberly, County of Twin Falls

State of Idaho, on this 20 th day of February, A. D. 1961.

APR 24 1961

Department of Reclamation

Permit No. G-28832

Proof of Application of Water to Beneficial Use
Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. W.W. Parish; an adult; farmer; residence and post office address at Twin Falls, Idaho

Ques. 2. Are you acquainted with Edward L. Uhlig, President of Uhlig Ranches, Inc., the holder of Permit No. G-28832? How long have you known him and where does he reside?

Ans. Yes, I have known him for more than ten years. He resides approximately five miles east and two miles south of Hansen, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-28832, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Deep well 125' deep; 27' of 16" casing; 50' to water; 20 H.P. electric pump producing at least 60 miner's inches of water; measured through a six inch orifice. Works also include several pipelines

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Complete system sufficient for 13 second feet of water, and I have seen this much water conveyed therein.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 60 miner's inches. Have seen the water pumped through a six inch orifice and have also irrigated with the water produced.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

For irrigation of cultivated lands in NE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$,
Ans. and part of NE $\frac{1}{4}$ SE $\frac{1}{4}$, in Sec. 2; NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$,
NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, in Sec. 11; part of NW $\frac{1}{4}$ NE $\frac{1}{4}$, part of SW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$,
NW $\frac{1}{4}$ NW $\frac{1}{4}$, part of SW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, part of NE $\frac{1}{4}$ SW $\frac{1}{4}$, part of SE $\frac{1}{4}$ SW $\frac{1}{4}$,
part of NW $\frac{1}{4}$ SE $\frac{1}{4}$, part of SW $\frac{1}{4}$ SE $\frac{1}{4}$, part of SE $\frac{1}{4}$ SE $\frac{1}{4}$, in Sec. 12; part of
NE $\frac{1}{4}$ NE $\frac{1}{4}$ in Sec. 13; all in Tp. 11 South, Range 19 E.B.M.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is not level, with gulleys in it. One inch per acre of
water required.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No interest in the same, other than the fact I have leased a
portion of the lands during the past few years.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. All of said water (at least 60 miner's inches) used to irrigate
all of the above described lands during the crop season of 1960.

NOTICE OF PROOF OF COMPLETION OF WORKS

and

APPLICATION OF WATER TO BENEFICIAL USE

* * * * *

NOTICE IS HEREBY GIVEN That at 2:00 o'clock p.m. on the 20th day of February, 1961, at Kimberly, County of Twin Falls, State of Idaho, before A.L. Blandford, Notary Public, proof will be submitted of the application to beneficial use and the completion of works for the diversion of 5 cubic feet per second of underground water from a well in accordance with the terms and conditions of Permit No. G-28100, 2 cubic feet per second of underground water from a well in accordance with the terms and conditions of Permit No. G-28392, and 1.5 cubic feet per second of underground water from a well in accordance with the terms and conditions of Permit No. G-28832, which permits were heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and post office address of the corporation holding said permits is Uhlig Ranches, Inc., Hansen, Idaho.
2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 8.5 cubic feet per second.
3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is the total of 8.5 cubic feet per second as described above.
4. The points of diversion of said water, consisting of three wells in Twin Falls County, Idaho, and the dates of priority which said user is prepared to establish are as follows:

Permit No. G-28100: SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 12, Tp. 11 South, Range 19 E.B.M.; August 11, 1959.

Permit No. G-28392: SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 12, Tp. 11 South, Range 19 E.B.M.; January 18, 1960.

28832

Permit No. G-28832: NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 13, Tp.
11 South, Range 19 E.B.M.; June 29, 1960.

5. The places where said water is used, all located in Twin
Falls County, Idaho, are as follows:

NE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, and part of NE $\frac{1}{4}$
SE $\frac{1}{4}$, in Section 2; NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$,
SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, in Section 11;
part of NW $\frac{1}{4}$ NE $\frac{1}{4}$, part of SW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$,
NW $\frac{1}{4}$ NW $\frac{1}{4}$, part of SW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, part of
NE $\frac{1}{4}$ SW $\frac{1}{4}$, part of SE $\frac{1}{4}$ SW $\frac{1}{4}$, part of NW $\frac{1}{4}$ SE $\frac{1}{4}$,
part of SW $\frac{1}{4}$ SE $\frac{1}{4}$, part of SE $\frac{1}{4}$ SE $\frac{1}{4}$, in Section
12; part of NE $\frac{1}{4}$ NE $\frac{1}{4}$ in Section 13; all in
Township 11 South, Range 19 E.B.M.

Gentlemen:

Enclosed is the application of Uhlig
Ranches, Inc., to appropriate certain sub-
terranean waters.

Also enclosed is my check in the amount
of \$5.25 in payment of the filing fee of the
same.

Please forward all correspondence concern-
ing this permit to our offices in Kimberly,
Idaho.

Yours very truly,

BLANDFORD and BLANDFORD
