Dear Mr. Curtis:

Returned herewith is your check for \$58.00.

Your application for amendment to the land list under Permit No. G-29537 includes 2 40-acre tract which were not reported by the examiner and cannot be included in the Certificates of water right without another examination. It is doubtful if that examination can be made this year.

You may return a check for \$54.00 and the certificates will be written for the two permits or a check for \$31.00 and the certificates will be issued under Permit No. G-28490 and the amendment to the land list under Permit No. G-29537 will be recorded. In the latter case, the certificates under Permit No. G-29537 will wait for another examination to determine the number of acres actually irrigated under the permit.

Dear Mr. Curtis:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-28490 shows the well is (~~xxx~~) capable of conveying 156 miner's inches, or 2.2 c.f.s. of water for the irrigation of 480 acres.

Upon receipt of the statutory fees, totaling \$ 29.00 , which consists of a Completion of Works fee of \$ 5.00 and License and Certificate of Water Right fee of \$ 24.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of February 23, 1960 to the use of 3.12 second feet of subterranean water with the point of diversion in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 22 for irrigation and domestic use in the S $\frac{1}{2}$ NE $\frac{1}{4}$, S $\frac{1}{2}$, Sec. 22, T. 11 S., R. 22 E., B.M.
