State of Idaho

License and Certificate of Water Right

Water License No. G-27199

Amount 6.4 c.f.s.

Water District No.

Priority January 17, 1958

THIS IS TO CERTIFY that ALFRED C. PETTYGROVE - Assignee - R. L. CRANER
of Hansen, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated January 17, 1958; that Permit No. G-27199
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
6.4 second feet, was issued thereunder on July 24, 1964, showing that said works
were completed on the 22nd day of January, 1963; and that on the 22nd
day of January, 1963,

R. L. CRANER

of Burley, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean flow, for the purpose of irrigation & domestic
, under Use Permit No. G-27199 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
12 of Licenses at page 7891, on the 24 day of July, 1964;

The right hereby confirmed dates from January 17, 1958;

The Point of Diversion is located

in the SE 1/4 SE 1/4 Sec. 36, Tp. 10 S, R. 21 E., B. M. Cassia County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 6.4 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
10 S.	21 E.	36	N 1/2 N 1/2	160	160
			SE 1/4 NE 1/4	40	29

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

45- 2563

Application No. G- 35124
Permit No. G- 27199
District No.

Robert A. Pettygrove
Rt. # 2,
Hansen, Idaho

1. Name of Applicant: ALFRED C. PETTYGROVE
Postoffice address: Rt. # 2, Hansen County: Twin Falls State: Idaho
2. Quantity of water claimed: 6.4 cubic feet per second
 - (a) Rate of withdrawal in cubic feet per second. 6.4 or Idaho
Miners' inches or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean
4. Location of point of diversion or well is in the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 36
Twp. 10 S. , Rge. 21 E. , B.M., County of Cassia
5. Water is to be used for: Irrigation and domestic
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Wells, Pumps and ditches
8. Estimated cost of works: \$ 30,000
9. (a) Is reservoir to be used? No
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: Permit No. 24141
for same land is relinquished.
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

/s/ Alfred C. Pettygrove
Applicant.

By

/s/ Robert A. Pettygrove
Agent.

Date of first receipt at Department of Reclamation: 3:30 P. M. January 17, 1958

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is G-27199

Recorded in Book 96 Page 27199 Approved January 27, 1958

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ to be filed on or before

Work to begin on or before and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before July 27, 1960

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before January 27, 1963

Witness my hand this 27th day of January, 1958

/s/ MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, ROBERT E. SMYLLIE, Governor of the State of Idaho, and JAS. H. YOUNG, Secretary of State of the State of Idaho, have caused this instrument to be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 27th day of January, 1958.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-27199 ✓

Comes now R. L. CRANER, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-27199, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

$E\frac{1}{2}NE\frac{1}{4}$, $NW\frac{1}{4}NE\frac{1}{4}$, $E\frac{1}{2}SE\frac{1}{4}$, Sec. 35; $S\frac{1}{2}$, Sec. 36, T. 10 S., R. 21 E., B. M., making a total of 520 acres

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Burley, Idaho, this 9th day of November, 1960.

s/ R. L. CRANER

Date of receipt at office of Department of Reclamation: November 10, 1960

APPROVAL OF STATE RECLAMATION ENGINEER

I, GEO. N. CARTER, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-27199. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

s/ GEO. N. CARTER
State Reclamation Engineer

Recorded: November 14, 1960

APPLICATION FOR AMENDMENT
LAND LIST
Permit No. G-27199

Comes now R. L. CRANER, and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-27199, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

$S\frac{1}{2}$, Section 36, Township 10 South, Range 21 East, Boise Meridian, making a total of 302 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Burley, Idaho, this 14th day of December, 1962.

s/ R. L. CRANER

Date of receipt at office of Department of Reclamation: December 17, 1962

APPROVAL OF STATE RECLAMATION ENGINEER

I, RALPH W. THOMAS, Deputy State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-27199. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

s/ RALPH W. THOMAS, Deputy
State Reclamation Engineer

Recorded: December 19, 1962

APPLICATION FOR AMENDMENT ✓
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-27199

Comes now R. L. CRANER and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-27199.

That the points of diversion is described in said permit as being located: $SE\frac{1}{4}SE\frac{1}{4}$ and $SE\frac{1}{4}SW\frac{1}{4}$, Sec. 36, Twp. 10 South, Rge. 21 E. B. M.

That he now requests that one of the points of diversion be changed to a point located $NE\frac{1}{4}SE\frac{1}{4}$, Sec. 36, Twp. 10 South, Rge. 21 E. B. M. (from $SE\frac{1}{4}SW\frac{1}{4}$, Sec. 36, Twp. 10 S., Rge. 21 E., B. M.)

That the reason for desiring to make such change is as follows: Water being diverted from both sources for irrigation purposes:

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Burley, Idaho, this 20 day of December, 1962.

s/ R. L. CRANER

Date of receipt at Department of Reclamation: December 24, 1962

APPROVAL OF STATE RECLAMATION ENGINEER

I, RALPH W. THOMAS, Deputy State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-27199. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Attn: William A. Parsons

Dear Mr. Parsons:

Mr. Craner made proofs of completion of works and beneficial use of water under above noted permits for lands in Sec. 36, T. 10 S., R. 21 E. Later Permit No. G-27199 was amended to include E $\frac{1}{2}$ E $\frac{1}{2}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 35, T. 10 S., R. 21 E.

The works were examined June 18, 1963. The two wells in SE $\frac{1}{4}$ SE $\frac{1}{4}$, said Sec. 36, produced 11.29 c.f.s. and 568 acres were being irrigated in Section 36.

Proof of beneficial use of water from the two wells was made February 19, 1964, showing 150 acres irrigated in above described lands in said Section 35.

The field inspector will examine the land in Sec. 35, as soon as possible and make his report.

Upon receipt of the report, the amount of water will be equally divided on acreage basis on all lands or about 0.8 miners inch per acre. The priority of water right for lands in Sec. 35, will probably be February 9, 1959.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

Attn: William A. Parsons

Dear Mr. Parsons:

Returned herewith is Form 36 under Permit No. G-27197.
Also enclosed Forms 10 and amendment forms.

Proof of beneficial use of the water under Permit No. G-27197 is shown on permit as due January 27, 1963. State Statutes provide that such proofs can be made at a later date than shown on the permit, however the priority shall be advanced the same length of time as the proof is late.

Form 36 enclosed shows that the proofs will be one year, twenty-two days late, which added to date of filing, shows priority of February 9, 1959, provided proof is made February 19, 1964. This date would apply only for land in Section 35, or additional land in Section 36.

Proof of Completion of Works has been completed and only proof of beneficial use of the water is necessary.

Kindly complete two Forms 10 and return to this office.
Form 10 should probably only show irrigation of land in Section 35.

27199

Page Two

William A. Parsons

Jan. 14, 1964

There is a fee of \$1.00 for recording any amendment to a permit. Enclose check for \$3.00 for amendment to point of diversion under Permit No. G-27197, plus two amendments to the land list, all being approved.

I do not believe it should be necessary to re-publish a legal notice in regard to irrigation of land in Section 36. The error in location of the well was evidently not intentional and was caused by lack of proper survey of the land.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

Attn: William A. Parsons

Dear Mr. Parsons:

Returned herewith are Forms 36 and 11 and Form to amend point of diversion in regard to Permit No. G-27197. Also enclosed are Forms 10.

The proof is only for beneficial use and as it is difficult to correct Form 36, we request you complete two forms 10. The permit claims 6.4 c.f.s. and that is the maximum that can be shown. There are two wells and the point of diversion should show two wells as pencilled on top Form 36. With proof of beneficial use due January 27, 1963, and being made January 22, 1964, the priority will be January 12, 1959, instead of January 17, 1958, the date the application was filed.

The amendment to the point of diversion should be clarified as shown in pencil. Presently, the permit record shows four points of diversion.

The amendments to the land list have been approved.

Kindly return Forms 10 and 11, and the amendment to the point of diversion, all for Permit No. G-27197 at your earliest convenience. Our information shows the notice must be published first in the December 27 issue to have four publications prior to January 22, 1964.

There is a fee of \$1.00 for recording each amendment or \$3.00 fee which should accompany the forms.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

Re: Permit Nos. G-27197 and G-27199

Attention: Mr. Ralph W. Thomas, Deputy State Reclamation
Engineer

Dear Mr. Thomas:

I am enclosing necessary forms to carry out the procedure outlined in your letter dated October 9, 1963, addressed to this office.

I am also enclosing Form 11 and Form 36 to show beneficial use of water on lands in Section 35, and also for the completion of work in the correction of the description wherein the point of diversion is located on Permit No. 27197 which I understand is in keeping with the opinion of the Attorney General.

Am I to understand correctly that the date of priority will be changed? If this is true, we would object to this for the reason that the Proof of Beneficial Use was made within the time as was the Completion of Works, save and except, that there was an inaccurate designation as to the exact point of diversion. At any rate I would appreciate having written clarification as to the date of priority so that I might advise my client accordingly.

Yours very truly,

PARSONS, SMITH & SNOW

RE: Permit Nos. G-27197, G-27199
R. L. Craner

Parsons, Smith & Snow
Attorneys at Law
Box 670
Burley, Idaho

Attention: William A. Parsons

Dear Mr. Parsons:

Enclosed is a supply of forms to amend the point of diversion and the land list as shown on permits.

The examiner's report shows 568 acres irrigated in Sec. 36, T. 10 S., R. 21 E., B.M., being 267 acres in the S $\frac{1}{2}$ and 301 acres in the N $\frac{1}{2}$, as taken from an aerial map from a recent flight. There are two wells in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36 which produce a total of 11.29 c.f.s., being 6.54 c.f.s. from No. 1 and 4.75 c.f.s. from No. 2. Both permits claim 6.4 c.f.s. so one permit must show two points of diversion in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36. That permit could be the one used for the land in Sec. 35.

Our record shows G-27197 to irrigate the W $\frac{1}{2}$ NE $\frac{1}{4}$,^{NW $\frac{1}{4}$} Sec. 36; E $\frac{1}{2}$ SE $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 35. G-27199 to irrigate the S $\frac{1}{2}$, Sec. 36. Both show one point of diversion in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, with other wells.

I suggest G-27197 for amendment to two wells in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36 to irrigate all of Sec. 36 plus land in Sec. 35 and G-27199 amended to all of Sec. 36.

The present fees would be \$32.00 for the water licenses and \$10.00 for two Certificates of Completion of Works plus \$1.00 each for the amendments.

We cannot issue the certificates for equal spread of water until the number of acres irrigated in Sec. 35 is determined, unless you designate how much water is to be allowed Sec. 36.

Very truly yours,

RALPH W. THOMAS
Deputy State Reclamation Engineer

Re: Permits G-27197 and G-27199 R. L. Craner

Dear Mr. Thomas:

Referring to your letter of August 13, 1963, it was my understanding in talking to the gentleman that made the field survey and examination that it would be necessary to amend the permits to reflect both wells being in the same quarter section, namely, the Southeast Quarter of the Southeast Quarter, Section 36. He was going to send me the necessary papers to accomplish this.

Mr. Craner does not irrigate land in Section 25 as all of his land is in 36 plus the land in Section 35 which he has during the year 1963 brought out of the brush and put under water and will subsequently when the crops are harvested show beneficial use of the water thereon. The report that shows any Section 25 is in error as Mr. Craner does not concern himself nor has he ever concerned himself with Section 25.

I think that it would be the best solution to the problem to give equal water right to all of the land, but it was my thought that this would be better accomplished after we had made proof of beneficial use of that desert land entry in Section 35.

Therefore, it is my suggestion that you send us the necessary forms to amend the point of diversion to show in the above named Section that you send necessary forms that we make the water right applicable to all of the land, and when we have filled these in then we will make payments for the licenses.

27199

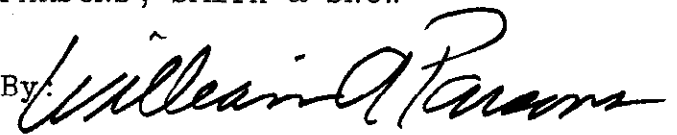

Page 2
Ralph W. Thoma
October 8, 1963

Please advise me on this and we will attempt to bring this
to a speedy conclusion.

Yours very truly,

PARSONS, SMITH & SNOW

Re: Permits G-27197; G-27199
R. L. Cramer

Mr. A. Parsons
Attorney at Law
Box 670, Burley, Ida.

Dear Mr. Parsons:

We now have the reports of field examination under both permits.

Both wells are apparently in S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 36, the north well is #1 and the South well is #2, on the reports. Well #1 produces 6.54 and No. 2 4.75 c.f.s.

In August, 1962, it was my understanding that NW $\frac{1}{4}$ NE $\frac{1}{4}$, and E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 35, would be irrigated under G-27197. The report of June, 1963, shows all of Section 36, plus S $\frac{1}{2}$ SE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 25, is being irrigated, making a total of 713 acres actually irrigated with 564.5 miners inches of water at about 0.79 inches per acre. The acreage in S $\frac{1}{2}$, Sec. 36, shown is smaller than the 1962 report as portions not irrigated were deleted from aerial map.

We don't know whether Mr. Cramer still desires to irrigate the land in Section 35, or substituted the land in Section 25 instead.

Possibly the report that land in Section 35 was to be irrigated was in error and it should have been Section 25 which is located north of Section 36.

Evidently both permits must amend the land list to give all the land an equal water right. Possibly it would be best to amend

27199

Page Two - Continued

both land lists to include all of the land. One Permit would show only one well and the other two wells, as Well No. 1 produces more than the amount of water claimed on either permit.

The fees would be \$2.00 for recording two land list amendments, \$10.00 for two certificates of completion of works and \$32.00 for license on 16 subdivisions, or a total of \$44.00. The total amount of water would be 11.29 cubic feet per second from the two wells. This is based on the June, 1963, report which shows irrigation of NE 1/4, S 1/4, Sec. 25; All, Sec. 36, T. 10 S., R. 21 E.

Mr. Cramer may still wish to include land in Section 35.

Kindly advise how this should be handled.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

Permit No. G-27199

Proof of Application of Water to Beneficial Use

and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. ✓ R. L. Craner, 1510 Burton Avenue, Burley, Idaho, potato shipper and farmer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. none

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-27199 January 17, 1958 1-27-58

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean - SE $\frac{1}{4}$ SE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 36, Township 10 South, Range 21, East Boise Meridian

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. deep well pumps pumping water from underground through laterals and ditches to row crops. Part of the water comes from a well which is 625 feet deep with 20 inch casing down 35 feet, the other well is 790 feet deep casing 20 inches down 114 feet.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. irrigation of row crops on the S $\frac{1}{2}$ of Section 36, Township 10 South, Range 21 East, Boise Meridian. The last crops grown were in the growing season 1962. The land is cultivated and in addition to the well there have been considerable sums expended for land leveling, ditches and the occupant's residence.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Clarence Bishop, Burley, Idaho

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. none

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. one inch per acre

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. assigned from Alfred C. Pettygrove on August 24, 1960

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water was used for the irrigation of crops during the 1962 farming season. The water was diverted to full capacity of the used when not needed. The water from both points of diversion were used as under the point of diversion in the NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of said Section this was used on other lands in said Section.

27199

Ques. 7. If for power or other purposes than irrigation, state how water has been used:

none

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation:

sandy loam number one quality and it is my belief that it
would take about one inch per acre for water for its profitable
cultivation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so,

in what way and to what extent: I am a tenant on the land to which the water
was applied. I did the irrigation on the land during the year 1962 while
crops were growing, namely potatoes.

Ques. 10. When did you first see this water used: 1960 to 1962

Other times you have seen such use: _____

(Signed)

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
Permit No. G-27199

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

and Completion of Works

DEPOSITION OF WITNESS

The deposition of two witnesses on this form, taken separately, required in each case

Ques. 1. State your name, age, residence, occupation and postoffice address:

Wallace Brown, 55 years, 1442 Normal Avenue, Burley, Idaho

Mailing Address: 1442 Normal Avenue, Burley, Idaho

Ques. 2. Are you acquainted with R. L. Craner, the holder of
Permit No. G-27199 ? How long have you known him and where does he reside:

I have known him for approximately 31 years and he resides at 1510
Burton Avenue, Burley, Idaho

Ques. 3. Have you read or heard said Permit No. G-27199 read, and are you familiar
with its provisions and conditions: Yes: X No:

Ques. 4. State source of water supply: Underground

State place of diversion: NE $\frac{1}{4}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 36, Tsp 10 South, Range 21,
East Boise Meridian

Describe works for conveying water to place of use: deep well with open ditches and
laterals with cement checks in the ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct
to place of use: 4.89 How much water have you seen being so

conveyed: I have seen water being pumped from the diversion in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ and
excess water used from the well in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of said Sec., Tsp, and Rge
described in my answer previously given.

Ques. 6. If for irrigation, show number of acres irrigated in each subdivision, giving
full legal description:

The water is mainly used in the S $\frac{1}{2}$ of Section 36, Tshp 10 South, Rge 21.

E.B.M. except that in said location I would estimate that in the SE $\frac{1}{4}$ there
are approximately 10 acres that are not being irrigated as well as in the
SE $\frac{1}{4}$ SE $\frac{1}{4}$ of said Sec., Tsp, and Rge where the house is located there are
approximately 20 acres that are not being irrigated otherwise the entire
half section is receiving water from these sources.

Ques. 7. If for power or other purposes than irrigation, state how water has been used:

none

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation:

I would say that the land is of a type commonly known as sandy loam and it is good quality, probably number one quality, and that it is my opinion that one inch per acre would be required to water this land profitably.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent: no

Ques. 10. When did you first see this water used: 1962 farming season, my personal inspection.

Other times you have seen such use: _____

NOTICE OF PRIORITY OF COMPLETION OF WORKS

Notice is hereby given that at 10:00 A.M. on the 22nd day of January, 1963, at 137 West 13th Street, Burley, County of Cassia, State of Idaho, before William A. Parsons, Notary Public, at 137 West 13th St., proof will be submitted of the completion of works for the diversion of 4.89 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-27109, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is L. L. Craner, 10 Burton Ave., Burley, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 4.89 cubic feet per second.

3. The use to which said water has been applied is Irrigation of Row Crops purposes, and the amount applied to beneficial use is 4.89 cubic feet per second.

4. The point of diversion of said water is SE $\frac{1}{4}$ BE $\frac{1}{4}$ and NE $\frac{1}{4}$ BE $\frac{1}{4}$, Sec. 36, Twp. 10 South, Range 21 E.E.M.

5. The place where said water is used is S $\frac{1}{2}$, Section 36, Twp. 10 South, Range 21 East Boise Meridian.

C. The date of priority which said user is prepared to establish is January 17, 1953.

Dear Mr. Parsons:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27199, in the name of R. L. Crader, as Notary on the 22 day of January, 1963, at 10:00 A.M. o'clock, at 137 West 13th St., Burley, Idaho.

As of this date we have mailed the Notice to the Herald Bulletin, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Re: Permit Nos. G-27197, G-27199 R. L. Craner

Dear Mr. Thomas:

Thank you for your letter of December 18, 1962, and in compliance therewith I am enclosing an executed application for amendment, Form 11, two copies of Form 36, together with our check in the sum of \$1.00 for the amendment.

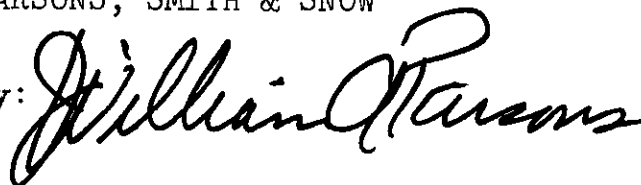

I am under the impression that as to G-27197 that when we pay the sum of \$17.00 and receive a Certificate of Water Right for 4.0 c.f.s. to irrigate 200 acres that we can later show beneficial use of the additional 120 acres to make a total water right of 6.4 c.f.s. when the land in Section 35 is put under cultivation as well as adjoining land in the NW $\frac{1}{4}$ of 36 which is not included in the 200 acres now being irrigated. This would establish a priority later due to the delay in the desert entry.

I think this should clear up the matter and I again appreciate your cooperation.

Yours very truly,

PARSONS, SMITH & SNOW

R. L. Craner

Parsons, Smith & Snow
Attorneys at Law
Box 670
Burley, Idaho

Attention: William A. Parsons

Dear Mr. Parsons:

We received the amendments to the land list under both permits which have been approved and the amendments will be returned to you after recording.

We can issue a Certificate of Completion of Works under Permit No. G-27197 for 6.4 c.f.s. from the well in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36 to irrigate the lands shown on the amendment for the fee of \$5.00, and the License and Certificate of Water Right for 4.0 c.f.s. to irrigate 200 acres in the W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 36, T. 10 S., R. 21 E., B. 4. for a fee of \$12.00, total \$17.00. Later proof of beneficial use of the water on the land in Sec. 35 can be made with a corresponding later priority.

Upon receipt of the Proof of Completion of Works and Beneficial Use of the water under Permit No. G-27199 we can issue the two certificates for a total fee of \$21.00, for 4.89 c.f.s. from wells in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, to irrigate the S $\frac{1}{2}$, Sec. 36, T. 10 S., R. 21 E., B. 4. subject to amendment to the point of diversion to show both wells, otherwise the quantity will be 4.75 c.f.s.

We are returning the one Form 36 and Form 11. Two Forms 36 are required. The point of diversion amendment may or may not be made, as you desire. Don't forget the \$1.00 fee for recording the amendment.

LAND LIST

Permit No. G-27199

RECEIVED
DEC 17 1962

Department of Reclamation

Comes now R. L. CRANER, and represents
to the STATE RECLAMATION ENGINEER of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the
State of Idaho, No. G-27199, and requests that the list of lands to be irrigated,
as described in said permit, be changed to read as follows:

S $\frac{1}{2}$ Section 36, Township 10 South, Range 21 East, Boise Meridian

_____, making a total of 302 acres.

That an additional amount of water is not asked for, and that the rights of others
will not be adversely affected by such change.

Signed at Burley, Idaho this 14th day of December, 1962

R. L. Craner

Date of receipt at office of Department of Reclamation December 17, 1962

APPROVAL OF STATE RECLAMATION ENGINEER

Ralph W. Thomas, Deputy
I, ~~George W. Thomas~~, State Reclamation Engineer of the State of Idaho, hereby approve
the above and foregoing application for amendment to Permit to appropriate the Public
Waters of the State of Idaho, No. G-27199. This approval constitutes a new permit
and is issued as an amendment to the original permit, to which it refers, and of which
it becomes a part, and said application is approved only insofar as the rights of others
will not be adversely affected thereby.

Re: Permit G-27197 and G-27199 R. L. Craner

Dear Mr. Thomas:

I am sorry that this Permit has become as confusing as it is, however, I am only going on the basis of our records and before mentioning the documents submitted herewith I would like to basically summarize our position so that the same might correspond with your records and that we might work this out in the best manner as you have so oftentimes suggested.

As to Permit G-27197 this was originally in the name of Robert A. Pettygrove and who with his wife assigned the same to Mr. Craner. Subsequent thereto one of the points of diversion was changed from the SE $\frac{1}{4}$ NE $\frac{1}{4}$ to NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 36, Township 10 South, Range 21, under date of January 4, 1961, recorded in Book 96 of Permits at page 27197. In due time proof was submitted by deposition of holder of permit and witnesses showing the point of diversion to be in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 36, Township 10 South, Range 21 East, Boise Meridian. Thereafter the log on this well was submitted by the well driller, Clarence Bishop, showing the location of the well in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 36, Township 10 South, Range 21. During the summer of 1962 your engineer, his name unavailable to me at this time, measured this well as well as the well hereafter mentioned and he found the well in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ to have a capacity of 6.54 c.f.s. or 327 inches. This is briefly the history as our records show them.

As to Permit G-27199, one of the points of diversion has been in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 36, Township 10 South, Range 21, East, Boise Meridian since the application, assignment to R. L. Craner and now that the same is ready for proof.

27199

The land list perhaps should be amended to more properly reflect that which you have so courteously suggested from time to time and, therefore, as to Permit G027197 an application for amendment of land list is herewith enclosed, together with \$1.00, and which would irrigate approximately 345 acres in both Sections 36 and 35, provided, however, that the land in Section 35 will not be put to a beneficial use until the summer of 1963, but it is my understanding supplemental proof could be submitted at that time on that land. As to G-27199 an application for amendment, together with \$1.00, is submitted to show the land in the S $\frac{1}{2}$ of Section 36, Township 10 South, Range 21 East, Boise Meridian, or 302 acres which as measured by your engineer produces 4.75 c.f.s. or 237 $\frac{1}{2}$ inches, which was so measured by your engineer in the summer of 1962.

In order that we make a proper orderly proof here, it was my thought that if we could go this way and now prove up on G-27199 as to the S $\frac{1}{2}$ of Section 36, Township 10 South, Range 21 East, Boise Meridian, and then when the land in Section 35 is finally put to beneficial use submit change of place of use to show the entire area being irrigated from water from both wells.

I trust this might be a solution to our continuing problem and I am, therefore, submitting amendments, Form 36, and Form 11 to make final proof on the Permit G-27199.

Just one further point occurs to me, that is, on the Form 36 we have shown 4.75 c.f.s. and if we use water from G-27197 in excess of 6.4 which is .14 c.f.s. perhaps the 4.75 should be changed to reflect this, and if you agree you may so change before sending to the paper.

Yours very truly,

PARSONS, SMITH & SNOW

Re: Permits No. G-27197; G-27199
R. L. Graner

Parsons, Smith and Snow
Attorneys at Law
Box 670, Burley, Idaho

Attn: William A. Parsons

Dear Mr. Parsons:

We received your letter of November 28th with check for \$1.00, fee for enclosed amendment to the land list under Permit No. G-27199, and Forms 36 and Form 11, for the same Permit.

Returned herewith are the Forms 36 and 11, with corrections on Form 36. Two Forms 36 are required, one form for the paper and one in our file to check the published notice.

I believe that the last paragraph in my letter of November 13th is the best solution to this combination of permits.

Permit No. G-27199 must have an amendment to the point of diversion as it does not show the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36. This well was measured as producing 6.54 cubic feet per second. Permit No. G-27197 can be allowed 0.44 cubic feet per second from that well, plus the well in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, 4.75 cubic feet per second, to irrigate 302 acres in the S $\frac{1}{2}$, Sec. 36. Permit No. G-27199 can be allowed 6.4 cubic feet per second, the amount on the permit, for the land in the NW $\frac{1}{4}$, Sec. 36, and in Sec. 35, a total of 345 acres according to the amendment to the land list. This seems to be the best distribution of the water. The land under Permit No. G-27199 would have a little more water per acre for 345 acres, but it appears that more of that land may be irrigated in the future. I thought Mr. Smith had taken sufficient notes to outline this solution.

Your letter mentioned an extension of time under Permit No.

27199

Nov. 29, 1962

G-27199 for irrigation of the land in Section 35, as a Desert Entry. Kindly read our letter of November 13th and April 27, 1962. You would obtain a better priority to make a supplemental proof of beneficial use of the water next summer after the land in Section 35 was irrigated beneficially under the priority of January 17, 1958. The proof of use would be about a half year late and the priority about the middle of 1958 instead of November 10, 1960, which could be allowed otherwise. Kindly note that the priority is the date shown on the back of the permit as date of receipt of application instead of the date of approval of the permit.

Two other diversions of the water are possible. Permit No. G-27197 could be covered by the well in NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36 and No. G-27199 by balance of water from both wells. This would not be proper if all of the S $\frac{1}{2}$ of Sec. 36 could not be irrigated from the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, or the water from each well could be used under both permits, being approximately 302/647 of each well to Permit No. G-27197 and balance to Permit No. G-27199. This would not change the amendment necessary to point of diversion under Permit No. G-27199, except to show both wells instead of only the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36.

I hope this is not too confusing. Both permits have the same priority and the water from the two wells can be shown on each permit as desired up to a limit of the amount claimed under each permit and not to exceed 0.02 cubic feet per second per acre.

Kindly return two Forms 36 and one Form 11 with the amendment to the point of diversion, all for Permit No. G-27199. The date for making the proof should be advanced.

We are sending you a supply of various Forms under separate cover. Additional forms will be sent on request.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

R. L. Craner

Parsons, Smith & Snow
Attorneys at Law
Burley, Idaho

Attn: William A. Parsons

Dear Mr. Parsons:

Your letter of November 8th in regard to extension of time for completion of beneficial use of the water on E $\frac{1}{2}$ SE $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 35, T. 10 S., R. 21 E., has been received. You refer to our telephone conversation of November 6th during which I said such an extension of time could be allowed. We can allow an extension of time to May 14, 1967, however the priority under that portion of Permit No. G-27199 would have to be November 10, 1960, the date the amendment to the land list, which included the land under the Desert Entry, was received in this office. See Mr. Carl E. Tappan's letter dated April 27, 1962.

It would seem best to make proofs under G-27199 now and also after beneficial use of the water in Section 35, has been completed.

Possibly Permit No. G-27197 could be allowed the well in SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, for 4.75 c.f.s. and NE $\frac{1}{4}$ SE $\frac{1}{4}$, 0.4 c.f.s., to irrigate 302 acres in S $\frac{1}{2}$, Section 36. Permit No. G-27199 could be allowed the well in NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, 6.4 c.f.s., to irrigate Fr. N $\frac{1}{2}$, Sec. 36, plus the land in Section 35. That would require some amendments. Or both permits could be amended to all the land from both wells, which would require supplemental proofs on both permits. After final license has been issued for the land in Section 35, you can change the place of use, if desired.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permits No. G-27197; G-27199 R. L. Craner

Dear Mr. Thomas:

Pursuant to our telephone conversation of November 6, 1962, on behalf of Mr. R. L. Craner request is hereby made for an extension of time to place lands in Section 35, Township 10 South, Range 21 East, Boise Meridian to a beneficial use for the reason that on May 4, 1962, the desert land entry application Serial No. Idaho 011897 for lands described as the E $\frac{1}{2}$ E $\frac{1}{2}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 35, Township 10 South, Range 21 East, Boise Meridian, was allowed as a desert land entry, a copy of such notice of allowance was sent to your office.

We submit that the foregoing is sufficient justification for allowance of an extension for beneficial use since the same was allowed too late to put crops on for the 1962 year but that the matter has now been in the process of being cleared of the brush and with the coming of spring the same will be planted into agricultural crops.

Please advise us as to the charges for issuing the extension, if any, and we will now proceed with the publication and submission of final proof on the application entitled G-27199.

Yours very truly,

PARSONS, SMITH & SNOW

STATE OF IDAHO

DEPARTMENT OF RECLAMATION

Boise, Idaho

Re: Permit No. G- 27199

November 1, 1962

R. L. Craner
Burley, Idaho

Dear Mr. Craner:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 27199 are due not later than **January 27, 1963.**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

State Reclamation Engineer

P. O. Box 670
Burley, Idaho

SEE LETTER IN G-27199

Dear Mr. Parsons:

Permit No. G-27197 - R. L. Craner's deposition shows the well in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, was used to irrigate the S $\frac{1}{2}$, Section 36, and that a subsequent well would be used to irrigate the N $\frac{1}{2}$.

Permit No. G-27199, shows points of diversion in SE $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 36, to irrigate the S $\frac{1}{2}$, Section 36, E $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 35, all being in T. 10 S., R. 21 E.

The report on G-27197 shows the well in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, produced 6.54 c.f.s. and the well in SE $\frac{1}{4}$ SE $\frac{1}{4}$ produced 4.75 c.f.s.

We can issue the Certificate of Water Right under Permit No. G-27197 for 6.04 c.f.s. from a well in NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, to irrigate 302 acres in S $\frac{1}{2}$, Section 36, Twp. 10 S., Rge. 21 E., upon payment of the statutory fee of \$21.00

Upon receipt of the proofs and amended land list we can issue the Certificate of Water Right under Permit No. G27199 for 4.0 c.f.s. from a well in SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, for irrigation of 200 acres in W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 36, T. 10 S., R. 21 E., upon payment of the statutory fees of \$17.00 plus \$1.00 fee for recording the amendment.

27199

Page Two - continued

Wm. A. Parsons

Oct. 8, 1962

If land in Section 35, is involved, the above would not fit the conditions and another examination of the land irrigated would be necessary.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permits No. G-27197; G-27199
R. L. Craner

S. T. Lowe & Kalen R. Lowe
Attorneys at Law
Burley, Idaho

Gentlemen:

We have the field examiner's report on Permit No. G-27197, two wells, NE $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, produce 11,229 c.f.s. of water which is used to irrigate W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, S $\frac{1}{2}$, Sec. 36, T. 10 S., R. 21 E., plus land in Section 35.

Permit No. G-27197 shows the land list as S $\frac{1}{2}$, Section 36, by amendment approved May 9, 1962.

Permit No. G-27199 shows the land list as E $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 35; S $\frac{1}{2}$, Sec. 36, by amendment approved November 10, 1960.

Both permits are for 6.4 c.f.s. with the points of diversion as noted for location of two wells. It would seem best that both permits be amended to cover all of the land irrigated from the two wells, which would give an equal distribution of water. The lands in Section 35, were not examined under Permit No. G-27197, as they were not shown on the permit, and in fact, they may not be fully irrigated at this time. The area in Section 36 is shown as 502 acres.

We suggest that some solution to the land list be determined in order that all of the land have a similar water right.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

R. L. Craner

S. T. Lowe & Kels E. Lowe
Attorneys at Law
Burley, Idaho

Attn: William A. Parsons

Dear Mr. Parsons:

Your letter of December 23 had a typographical error in point of diversion but was correct below. Permit No. 27197 shows 4 points of diversion, being in the SE $\frac{1}{4}$ of each 160 acre subdivision of the Section 36. Permit No. 27199 has two points of diversion, being SE $\frac{1}{4}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 36.

A change of point of diversion for Permit No. 27197 from SE $\frac{1}{4}$ NE $\frac{1}{4}$ to NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36 would probably not interfere with other wells we have of record.

Very truly yours,

GEO. W. CARTER
State Reclamation Engineer

Re: Permit No. G-27197 and G-27199 - R. L. Craner

Dear Mr. Thomas:

Thank you for your letter of December 12, 1960, in which you pointed out certain problems on the above application. In order that I might do this correctly, I am proposing that on Permit No. G-27197 that one of the 4 points of diversion be relocated.

27199 { It is my understanding now the points of diversion are located in the Southeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$), Southeast Quarter of the Southwest Quarter (SE $\frac{1}{4}$ SW $\frac{1}{4}$), Southwest Quarter of the Northeast Quarter (SW $\frac{1}{4}$ NE $\frac{1}{4}$) and Southeast Quarter of the Northwest Quarter (SE $\frac{1}{4}$ NW $\frac{1}{4}$), all in Section 36, Township 10 South, Range 21, East of the Boise Meridian. I would propose to submit, if you concur, an application which would change the point of diversion located in the Southeast Quarter of the Northeast Quarter (SE $\frac{1}{4}$ NE $\frac{1}{4}$) to the Northeast Quarter of the Southeast Quarter (NE $\frac{1}{4}$ SE $\frac{1}{4}$), all being in section 36, Township 10 South, Range 21, East of the Boise Meridian, and the other three points of diversion would remain unchanged, as designated on the permit.

27197 { This is somewhat different than the original application for amendment but if this would be acceptable to so submit an application for amendment, please advise and I will fill out the appropriate papers and forward to you the necessary fee.

Re: G-27197 and G-27199

Dear Mr. Carter:

Please find Application for Amendment on Permit No. 27199, executed by Mr. Craner, the Assignee under said permit.

In viewing both of the above numbered permits, I observe under G-27199 that the permit is for the South Half of Section Thirty Six (36) and that under G-27197 the permit is for the North Half of Section Thirty Six (36). Mr. Craner is currently drilling a well on the Southeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section Thirty Six (36), Township Ten (10) South, Range Twenty One (21), East of the Boise Meridian, and after amendment submitted herewith is approved, he will commence drilling on the Northeast Quarter of the Southeast Quarter (NE $\frac{1}{4}$ SE $\frac{1}{4}$), Section Thirty Six (36), Township Ten (10) South, Range Twenty One (21), East of the Boise Meridian, however, he does not contemplate drilling any wells on the North Half of Section Thirty Six (36), Township Ten (10) South, Range Twenty One (21), East of the Boise Meridian, and in order that the water right, if perfected, be made appurtenant to all of Section Thirty Six (36), we would like the paper work in your office so changed as to reflect this.

Would you please advise me on the procedure to be followed in making this change, if possible.

27199

Mr. George M. Carter
December 19, 1960

Re: Permits No. G-27197, G-27199
R. L. Craner

S. T. Lowe & Kales E. Lowe
Attorneys at Law
Box 107, Burley, Idaho

Attn: William A. Parsons

Dear Mr. Parsons:

We received your letter of December 19 with application for amendment to the point of diversion under Permit No. G-27199.

The amendment is returned herewith for clarification.

You stated that a well is being drilled in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36. Both permit records show that 40-acre subdivision as a point of diversion. Neither permit record shows the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36.

The submitted amendment of Permit G-27199 shows the point of diversion as described in the permit as being located SE $\frac{1}{4}$ SW $\frac{1}{4}$, whereas the permit shows SE $\frac{1}{4}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 36. Is it intended that the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36 be retained in the record of this permit? Kindly correct as necessary and return with the recording fee.

You requested the paper work in this office be changed so the water right, if perfected, be made appurtenant to all of Section 36. Both permits have been amended to include the same extra land, namely, the E $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 35, T. 10 S., R. 21 E. Those amendments will probably give the land in Section 35 a full miner's inch per acre and the land in Section 36 would have considerable less water. This could be changed by constructing ditches so the well or wells under each permit would irrigate only a proportionate portion of the land in Section 35. The paper work in this office would depend upon many factors not known such as amount of water developed and the lands irrigated.

27199

Page Two - Continued

S. T. Lowe & Kales E. Lowe

Dec. 21, 1960

The water right will be in two Water Licenses with water distributed evenly over the land described in each license.

Re: Permits Nos. G-27197 - Robert A. Pettygrove
G-27199 - Alfred C. Pettygrove

Mr. Robert A. Pettygrove
Rt. # 2,
Hansen, Idaho

Dear Mr. Pettygrove:

We enclose Permits Nos. G-27197 and G-27199, in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose departmental receipt No. G-3110 which was issued covering payment in the amount of \$13.00, for the filing fees of the above mentioned permits.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

**NOTICE OF PROOF OF
COMPLETION OF WORKS
and
APPLICATION OF WATER TO
BENEFICIAL USE**

Notice is hereby given that at 10:00 A.M., on the 22nd day of January, 1963, at 137 West 13th Street, Burley, County of Cassia, State of Idaho, before William A. Parsons, Notary Public, at 137 West 13th St., proof will be submitted of the completion of works for the diversion of 4.89 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-27199, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and post office address of the person or corporation holding said permit is R. L. Craner, 1510 Burton Ave., Burley, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion and the amount of water which said works are capable of conveying to the place of use is 4.89 cubic feet per second.

3. The use to which said water has been applied is Irrigation of row crops purposes, and the amount applied to beneficial use is 4.89 cubic feet per second.

4. The point of diversion of said water is SE $\frac{1}{4}$ SE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, Twp. 10 South, Range 21 East, 2nd Meridian.

5. The place where said water is used is Sec. 36, Twp. 10 South, Range 21 East, Boise Meridian.

6. The date of priority which said user is prepared to establish is January 17, 1958.

George N. Carter

State Reclamation Engineer
