Mr. A. H. Nielson
Attorney at Law
Burley, Idaho

Dear Mr. Nielson:

Application for Permit
J. L. Robinson

I am returning to you the application for permit recently submitted for J. L. Robinson, together with Mr. Robinson's check for \$35.00.

It is being returned due to the fact that the proposed application of water is in the Galley-Menyon Critical Ground-Water Area. If Mr. Robinson insists that it be received by this office, we will, of course, do so, but as you know we are not currently approving any such applications. I also wish to advise you and Mr. Robinson that we view the appropriation of additional water by deepening of the east well on his property in Sec. 7, T. 12 S., R. 22 E., B. M., as an unlicensed appropriation of water within this critical ground-water area.

We will take whatever steps appear appropriate to prevent use of the two wells to irrigate more land than the license on Permit G-27195 provided, that is, the SW $\frac{1}{4}$, Sec. 6, NE $\frac{1}{4}$, Sec. 7, T. 12 S., R. 22 E., B. M.

Very truly yours,

RE: Permit No. G-27195

James T. Robinson
416 W 18th Street
Burley, Idaho

Dear Mr. Robinson:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. **G-27195** shows the well ~~is~~ ^{are} capable of conveying **201** miner's inches, or **4.02** c.f.s. of water for the irrigation of **320** acres.

Upon receipt of the statutory fees, totaling \$ **21.00**, we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of **January 14, 1958**, to the use of **4.02** second feet of subterranean water with the point of diversion in the **SE~~X~~NE~~X~~, Sec. 7** for irrigation of **320** acres in the **SE~~X~~, Sec. 6, NE~~X~~, Sec. 7, T. 12 S., R. 22 E., B.M.** Both wells are in the **SE~~X~~NE~~X~~, Sec. 7**.

Since your permit shows two wells, one in the **SW~~X~~NE~~X~~, Sec. 6** and one in the **SE~~X~~NE~~X~~, Sec. 7** it will be necessary to amend the points of diversion before the certificates of water right can be issued. An amendment form is enclosed. There is a fee of \$1.00 for recording an amendment which you should include, making a total of \$22.00.

Dear Mr. Robinson:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Herald-Bulletin, all submitted in proof of completion of works and beneficial use on Permit No C-27195.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Permit No. 927195

Proof of Application of Water to Beneficial Use and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is James T. Robinson, I reside at 416 W. 18th St., Burley, Idaho

I am by occupation a farmer and rancher my Post Office address is the same as my residence.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. I am acting only in behalf of myself, I am not the agent for anyone.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-27195, dated the 17th day of January 1958, the date of priority which I expect to establish is ~~6-7-1962~~ 1-14-58

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. The well that supplies water is located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 7, Township 12 South, Range 22, E.B.M. and all water is produced from this one well.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The works of diversion consists of the well, pump and ditches from the well and are capable of conveying from the well 400 miner's inches of water, all of the ditches and the pump and well are on the lands of the applicant, ditches have been made to convey the water to the entire 320 acres of land, the well was drilled to a depth of 780 feet, 16 inch casing in the well, the casing is to a depth of 225 feet, the balance of the well is uncased, the water stands at 375 feet, the discharge of the pump is 200 during the greater part of 1962, it was never officially measured, but the applicant has been farming all his life and is well acquainted with the measurement of water *

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for irrigation and has been used on the entire SE $\frac{1}{4}$ of Section 6 and the entire NE $\frac{1}{4}$ of Section 7, all in Township 12 South, Range 22, E.B.M. in

Cassia County, Idaho, the land was entirely barren prior to the time the well was drilled, there was not any meadow land the following improvements have been placed on the premises as a direct result of the use of the well, $\frac{1}{2}$ mile concrete ditch, well, and electrically driven pump, shop building, and the land was all cleared and leveled and all farmed during the year 1962, \$28,200.00 has been spent in placing the improvements on the land**

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. LaMar Barrus, Burley, Idaho

* There is not any sprinklers used in the operation, and during part of the year the well supplied 250 inches of water.

**which does not include the well and the pump, the well cost \$7,800.00 and the pump \$15,000.00 making an overall total of \$51,000.00. PLUS \$3,000.00 in sumps and pipelines on the property, Total \$54,000.00

27195

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. irrigation only.....

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 5/8 of an inch per acre is adequate water.....

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. The original permit was issued to Raymond Fay Baily and this applicant purchased the said Baily's right to the property, applicant now has a patent to said property.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. During the year 1962 the entire 320 acres described herein was irrigated, the well producing at times 250 inches of water and at other times 200 inches of water, which was adequate to grow crops of potatoes on the entire 320 acres.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. During the year 1962 the entire 320 acres of land was irrigated from the well above mentioned there were not any other water used except waste water that came down from places higher up.

Mr. A. H. Nielson,
Attorney at Law,
Burley, Idaho.

Dear Mr. Nielson:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 0-27195, in the name of James T. Robinson. Final Proof is to be made before you, as Notary on the 12th day of April, 19 63, at 10:00 o'clock A.M., at Potts Building, Burley, Idaho.

As of this date we have mailed the Notice to the Herald Bulletin Burley, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. G- 27195 to appropriate the Public Waters of the State of Idaho, have not been complied with as to Completion of Works and Beneficial Use Proofs which were due January 17, 1963.

YOU ARE HEREBY notified in compliance with Sec. 42-234, Idaho Code that said Permit No. G- 27195 is hereby held for cancellation.

YOU ARE HEREBY required to show cause before the State Reclamation Engineer on or before sixty days from date of this notice why said Permit should not be cancelled.

SAID PERMIT NO. G- 27195 claims the use of 6.4 cubic feet per second of the Subterranean Waters of 2 wells with point of diversion located SW 1/4 Sec. 6, SE 1/4 Sec. 7, T. 12 S., R. 22 E., B.M. and was approved January 17, 1958.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of my office at Boise, Idaho, the 21st day of February, 1963.

Dear Mr. Robinson:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 27195 are due not later than **January 17, 1963.**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

State Reclamation Engineer

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-27195

RECEIVED
FEB 8 1960
Department of Reclamation

Comes now Raymond Fay Bailey and
represent to the State Reclamation Engineer of the State of Idaho:

That he is (are) the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-27195.

That the point of diversion is described in said permit as being located;
SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 7., SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec 6., Twp. 12 S., Rge. 22 E.B.M.

That he now requests that the point of diversion be changed to a point
located SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 6., and SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 7., Twp. 12 S., Rge. 22 E.B.M.

That the reason for desiring to make such change is as follows:

We believe it is a better location for the well and will be cheaper to connect
to the power line.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Dear sir

In regards to land use permit no. G-27195 issued to Raymond Fay Bailly of Hansen Ida.

I am applying for a 1 yr. extension on permit.
Reasons for extension are as follows.

The MC Farland bros. who we planned doing the work are unable to get at the job because they are still on a well they are drilling for Mr Potachek west of the balanced rock.

Second we were bargaining with Mr Tilby who was to drill a well for work that we were to do with land leveling equipment that we own. This deal fell through as we could not get together on a deal. This left us out on a limb at the last couple months too late to get started in time.

We have now a fellow who says he can get on this job by the first of Dec barring no hard luck on a well that he is finishing. I am sending you a letter that he has given to verify his promise to me.

We would like an extension of 1 yr. because we will drill a 20 in hole also I believe that due to winter weather and hardship trying to work winter months makes it slow going. In the spring it gets too muddy to get in and out with a water truck.

Please find check inclosed to cover cost if extension is granted.

Sincerely Yours

R. A. Bailly

Dear Mr. Baily:

Enclosed is the check for \$15.00 you sent to this office requesting an extension of one year for completion of work.

Conditions of Permit G-27195 show you to have until July 17, 1960 to do one fifth of the work, and until January 17, 1963 to complete work and make beneficial use of the water.

You may have intended to write to the Bureau of Land Management as our records show that the permit was issued in connection with a Desert Land Entry.
