State of Idaho
License and Certificate of Water Right

Water License No. G-26715 Amount 4.4 c.f.s.
Water District No. Priority Jan. 23, 1957

THIS IS TO CERTIFY that BLAINE CURTIS
of Burley, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated January 23, 1957; that Permit No. G-26715
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
4.4 second feet, was issued thereunder on July 21, 1959, showing that said works
were completed on the 6 day of April, 1959; and that on the 6th
day of April, 1959,

BLAINE CURTIS
of Burley, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean flow, for the purpose of irrigation & Domestic
use, under Use Permit No. G-26715 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
11 of Licenses at page 6693, on the 21 day of July, 1959;
The right hereby confirmed dates from January 23, 1957;
The Point of Diversion is located

in the SW 1/4 SE 1/4, Sec. 1, Tp. 12 S., R. 22 E., B. M. Cassia County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 4.4 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

45-2539

Application No. G-34615
Permit No. G- 26715
District No.

1. Name of Applicant: BLAINE CURTIS
Postoffice address: 1958 Conant Ave., County: Cassia State: Idaho
Burley
2. Quantity of water claimed: 320 Miner's inches
 (a) Rate of withdrawal in cubic feet per second. 6.4 or Idaho
Miners' inches or gallons per minute.
 (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean flow from a drilled well
4. Location of point of diversion or well is in the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 1
Twp. 12 S. , Rge. 22 E. , B.M., County of Cassia
5. Water is to be used for: Irrigation and domestic
6. If for municipal, industrial or recreational purposes, give:
 (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Turbine Pump and ditches
8. Estimated cost of works: \$ 25,000.00
9. (a) Is reservoir to be used? No.
 (b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
 I. (a) Date and place of incorporation:
 (b) Amount of capital stock: \$ (c) Amount paid in: \$
 (d) Names and addresses of directors:
 II. The financial resources of the applicant are (a) Cash on hand: \$
 (b) Treasury stock: (c) Bonds to be issued:
 (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None.
 (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 (b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

By _____ Agent.

Corrected application received:

State Reclamation Engineer.

Representative James G. Martin
Statehouse
Boise, Idaho 83707

Dear Representative Martin:

We have checked our files concerning the permits covering the irrigation of the E $\frac{1}{2}$ of Section 1, T.12 S., R.22 E. A license has been issued under permit G-26715 in the name of Blaine Curtis covering the diversion of 4.4 second feet of water from a well located in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 1 for irrigation of the E $\frac{1}{2}$ of the section.

Our files also indicate that a well was drilled for Martin Brothers by J. Emmett Smith in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of the section. This well was drilled between November 28 and December 12, 1959. It is a six-inch diameter well 398 feet deep. We find no permit right covering a well at that location.

Very truly yours,

R. KEITH HIGGINSON
State Reclamation Engineer

Re: Permit No. G-26715

Mr. Blaine Curtis
1958 Conant Avenue
Burley, Idaho

Dear Mr. Curtis:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26715 shows the well is capable of conveying 220 miner's inches (4.4 c.f.s.) of water for irrigation of 320 acres.

Upon receipt of the statutory fee totaling \$21.00, we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$16.00 - based at the rate of \$2.00 for each 40-acre subdivision) confirming the right with priority of January 29, 1957 to the use of 4.4 second feet of subterranean water, with the point of diversion in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 1, T. 12 S., R. 22 E., to irrigation 320 acres in the E $\frac{1}{2}$, Sec. 1, T. 12 S., R. 22 E., B. M.

Very truly yours,

GEO. N. CARTER

Permit No. G-26715

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Blaine Curtis

2. Source of water supply: Subterranean flow from a well

3. Location of point of diversion: Is in the SW 1/4 of Section 1

T. 12 S. R. 22 E. B. M. County of Cassia

4. Describe works as they exist, giving dimensions and capacities of same: Well = 886' x 24" x 16" x 12"

h = 345' reported

250 hp. U.S. Motor # 1100259

Sayre & B. Venturine Turbine # 24748

Delivery thru 11" pipe to South into Cascade Basin. To ditches - to fields by gravity.

5. Water is used for: Irrigation and domestic

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Section 1, Township 12 South, Range 22 East, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks:

Blaine Curtis along

This examination was made on the 14 day of May, 1959

(Signed) E. N. Humphrey Examiner.

26715

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Permit No. 6-26715

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Blaine Curtis, Burley, Idaho, farming and cattle raising. 1958
Conant Avenue, Burley, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-26715, date Jan. 30, 1957, priority date, Jan. 30, 1957.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean well located in the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 1, Township
12 South, Range 22, E. B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

The diversion works consist of open ditches; the amount of water they are capable of conveying from point of diversion to place of use is 8 cubic feet per second. Works consist of subterranean well and ditches; well is 850 ft. deep; depth of the water is 345 ft; the pump is a Layne & Bowler Pump; the motor on the pump is a Fairbanks Morris motor with 250 hsp. capacity. The amount of water discharged from the pump varies according to the time that the well is tested. It tests higher in the spring than it does during the late summer. The maximum amount of water produced is approximately 5.8 cubic feet per second. The amount of this water was measured by the use of a weir.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Water is used for irrigation and is used to irrigate the E $\frac{1}{2}$ of Sec. 1, Township 12 South, Range 22, E. B. M. That all of the E $\frac{1}{2}$ can be irrigated and has been irrigated; that there are no portions of the said ground that is not subject to irrigation. That the ground has been reclaimed from desert ground; that the nature of the improvements that have been placed on the ground is that the ground has been cleared; has been leveled; a well drilled on the property; a pump installed and ditches constructed upon the land to disburse the water from the well. The land was used for cropping for the first time during the 1958 year; that an excellent crop of potatoes was produced on the ground.

26715

72

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. The minimum amount of water required for profitable cultivation is 6.4 cubic feet per second.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. There is no other water available to the property described in this deposition. That the water was used for the first time during the cropping season of 1958 during the spring of 1958 and was used almost entirely during the cropping season of 1958.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There is no other water available to the above described property other than that diverted from the well. There is no water whatsoever available to the above described ground except that produced from the well.

(Sign) Blaine Curtis

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed

and sworn to before me, at my office in Burley, County of Cassia

State of Idaho, on this 6th day of April, A. D. 1959.

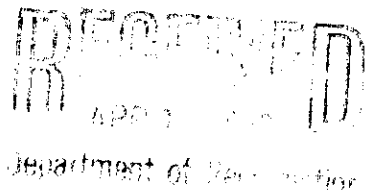

My commission expires May 12, 1962.

Harmon H. Hudson
Notary Public in and for Idaho,
Residing at Burley, Idaho.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G-26715

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Chesley M. Madsen, 48 years, Burley, Idaho, farming, Burley, Idaho.

Ques. 2. Are you acquainted with Blaine Curtis, the holder of Permit No. G-26715? How long have you known him and where does he reside?

Ans. I have known Blaine Curtis for approximately 8 years and he resides at Burley, Cassia County, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-26715, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. A subterranean well, place of diversions is SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 1, Township 12 South, Range 22, E.B.M. Works consist of open ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 7 cubic feet per second

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have observed the well produce approximately 285 miner's inches of water during the times that I have been on the property. I measured this by estimating and comparing with other wells in the immediate vicinity.

26715

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

The water is used for irrigation and can be used to irrigate all of the E $\frac{1}{2}$ of

Ans. Sec. 1, Township 12 S, Range 22, E.B.M. There is no portion of this ground that isn't susceptible to irrigation and has not been irrigated. That the ground was reclaimed from desert land and has been cultivated and crops grown upon the ground during the year 1958. Improvements consist of clearing the ground and leveling; a well drilled on the ground; a pump placed in the well and irrigation ditches constructed to carry water and a crop grown upon the ground.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. -----

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Amount of water required for profitable cultivation would be 6.4 cubic feet per second. Amount of water that has been applied is approximately 285 miners inches.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the works whatsoever.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been on the ground three or four times during the cropping season of 1958; that I have observed the application of water to beneficial use upon the above described premises.

(Signed) _____

Chesley M. Madson

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in _____ Burley _____, County of _____ Cassia _____, State of Idaho, on this _____ 6th day of _____ April _____, A. RECEIVED

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G-26715

Proof of Application of Water to Beneficial Use

Deposition of Witness *and Completion of Works*

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Hal R. Matthews, 40 years, Burley, Idaho, manager of drug store and farmer, Burley, Idaho

Ques. 2. Are you acquainted with Blaine Curtis, the holder of Permit No. G-26715? How long have you known him and where does he reside?

Ans. ☒ Yes, I have known him ten years and he resides at Burley, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-26715, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. A subterranean well, place of diversion is SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Sec. 1, Twnship 12 South, Range 22, E.B.M. Works consist of open ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?
7 cubic feet per second.

Ans. _____

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have observed the well produce approximately 285 miner's inches of water during the times that I have been on the property and I measured this by estimate and comparison with other wells in the immediate vicinity.

26715

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

The water is used for irrigation and can be used to irrigate all of the E $\frac{1}{2}$ of Ans. Section 1, Township 12 South, Range 22, E.B.M. There is no portion of this ground that isn't susceptible to irrigation and has not been irrigated. That the ground was reclaimed from desert land and has been cultivated and crops grown upon the ground during the year 1958. Improvements consist of the ground has been cleared, leveled; a well drilled on the ground, pump placed in the well and irrigation ditches constructed to carry water and a crop grown upon the ground.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. -----

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Amount of water required for profitable cultivation would be 6.4 cubic feet per second. Amount of water that has been applied is approximately 285 miners inches.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the works whatsoever.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been on the ground a number of times, and I have observed approximately 285 inches of water being applied to beneficial use. The period of time that I was on the ground was during the cropping season of 1958.

(Signed)

Hal R. Matthews

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Burley, County of Cassia, State of Idaho, on this 6th day of April, A. D. 1959.

Re: Permit No. G-26715

Mr. Blaine Curtis
1958 Conant Avenue
Burley, Idaho

Dear Mr. Curtis:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Burley Herald, all submitted in Proof of Completion of Works and Application of Water to Beneficial Use on Permit No. G-26715.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Norman H. Nielson
Attorney At Law
P. O. Box 367
Burley, Idaho

Dear Mr. Nielson:

This acknowledges the Notice of Proof of Completion of Works & Beneficial Use under Permit No. G-26715, in the name of Blaine Curtis. Final proof is to be made before you, as Notary, on the 6th day of April, 1959, at 10:00 A. M., at Burley, Idaho.

As of this date we have mailed the notice to the Burley Herald Bulletin, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date, and before you, as Notary as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

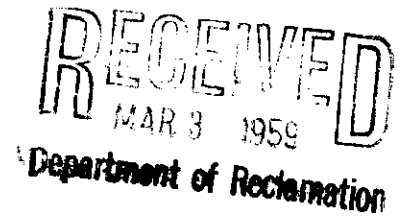

Very truly yours,

GEO. W. CARTER
