Dear Mr. Trummall:

Enclosed are your check in the amount of \$6.50, form for application for permit to appropriate subterranean water and forms preliminary to making proofs on Permit No. G-26662.

You can complete the application form similar to your Permit No. G-26662 and submit to this office with the fee which would be \$6.50 to divert 6.4 cubic feet per second.

You can complete the first three lines of the Forms 36 enclosed after seeing the Notary Public to be sure he will be in his office or at least that his office will be open and another Notary Public available. The time should be approximately six weeks after the time you return the completed forms to this office. The balance of the notice can be completed from information on your permit. In case of change in point of diversion or in the land irrigation, an amendment to the permit is necessary.

Be sure and complete Form 11 and then return both Forms 36 and Form 11 to this office.
