Floyd J. Pickett
Holder

ORDER: Amending Permits, Relieving Proof of Completion of Works and Application of Water to Beneficial Use, Voiding Certificate of Completion of Works and License and Certificate of Water Right and otherwise adjusting inadvertencies in actions thereon

WHEREAS, The holder of Permit No. G-22805 inadvertently offered Proof of Completion of Works and Application of Water to Beneficial Use thereon on the 24th day of August, 1956, and later requested that said proofs be withdrawn because of misunderstandings as to what said permit contemplated and involved and believing that proof was being made on another permit standing in his name, viz., No. G-26329, and

WHEREAS, Certificate of Completion of Works and License and Certificate of Water Right were issued on Permit No. G-26329 when the intention was to have said proofs, Certificate of Completion of Works and License and Certificate of Water Right apply to Permit No. G-22805;

NOW, THEREFORE, It is hereby ordered that the said Certificate of Completion of Works and the License and Certificate of Water Right relating to Permit No. G-26329 given under the hand, seal and signature of the State Reclamation Engineer on the 2nd day of January, 1958, are hereby revoked and held for naught, and the proofs of Completion of Works and Application of Water to Beneficial Use heretofore made on Permit No. G-22805 be accepted and approved and Certificate of Completion of Works and License and Certificate of Water Right be issued in accordance with the report of the Field Engineer dated the 13th day of June, 1959, but restricted to the amount of water and the land described in said permit;

IT IS FURTHERMORE ORDERED that amendments to Permit No. G-26329 necessary to cause it to conform to the present irrigation system be approved and recorded, that the time within which to offer the required statutory proofs on said permit be extended to May 1, 1960, and permit holder offer new proofs on or before that date.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the State Department of Reclamation at Boise, Idaho, this 25th day of September, 1959.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-26329

Comes now FLOYD J. PICKETT and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-26329.

That the point of diversion is described in said permit as being located SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 35, T. 11 S., R. 22 E., B.M.

That he now requests that the point of diversion be changed to a point located SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 35, T. 11 S., R. 22 E., B.M. That the reason for desiring to make such change is as follows: More feasible well site. That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Oakley, Idaho, this 26 day of October, 1959

Dear Mr. Pickett:

Our conversation regarding your proposed transfer of license 45-2523 was in error. The license was previously transferred to 480 acres, but this was not shown on the new transfer. So the land list is correct as shown. The new transfer has been corrected to reflect the earlier transfer.

As filed, each new transfer showed only one diversion point. Based on my discussions with you and with Greg Ruddell, both transfers now show all three diversion points.

We are preparing to advertise these transfers. Before they can be sent to our main office for final approval, we need documentation of your right to make the transfers. This can be a recent tax notice or other document showing that you own the land from which you propose to transfer the water. If there is a document that details the land switch with Mr. Baker, this may be satisfactory.

If you have questions regarding this matter, please feel free to contact this office.

Dear Mr. McDowell:

We have received the report on the field examination of works under the above noted permit.

This well is a replacement of the well under License No. G-26329 which was licensed for 3.2 c.f.s.

The same pump and motor is on this well which was measured as producing 3.07 c.f.s.

As a license has been issued for 3.2 c.f.s. for irrigation of the same land there will not be any license issued under this permit.

Kindly obtain a relinquishment of this permit, or if preferred License No. G-26329 may be relinquished and the certificates issued under G-29647 upon receipt of the \$5.00 fee for the Certificate of Completion of Works.

If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The main ditch is ¾ mi. east from the well and ½ mi. north. The works will carry 200 Miner's inches of water and convey this from the pt. of diversion to place through a private ditch. Well drilled to a depth of 875', cased 256', with 18" casing. First water was at 347', then more at 351' and remained constant at 326'. The actual water level when pumping draws down to around 350'. This has installed a turbine type horsepower pump and motor. Pump will discharge 180" and this was measured by Tommy Thompson of the Layne-Bowler Pump Co. and was confirmed and agreed to by the Idaho Dept. of Recl. when you examined this system in the summer of 1959. All gravel.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, state each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation to produce agricultural crops in T11S-R22E., Section 35, NE¼NE¼, 40 acres; SE¼NE¼, 40 acres; NE¼SE¼, 40 acres; SE¼SE¼, 15 acres; NE¼SW¼, 25 acres; NW¼SW¼, 40 acres; SW¼SW¼, 40 acres; SE¼SW¼, 25 acres. No natural meadow and all improvements are a direct result of this use. An investment has been made here of \$22,000.00.

26329

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. This is not enough to fully irrigate all of the land here. I can use more water.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Original.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I started work on this immediately after the permit was issued and then, as the record will show through some confusion proof was not properly submitted originally. Then a correction was made on the 25th of Sept., 1959 by Geo. N. Carter setting this up for acceptance when the proper proof was submitted and amendments have been made to correct the record.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There is no other water on this land at all. This is the only water used on it and I might say in explanation of Ques. 5 that the amount issued here in the publication was 3.2 but I believe Mr. Elmer Humphrey of the Dept. of Recl. will recall that the discharge of the pump at the time it was examined was 180 Miner's inches, and that is the amount I have put to beneficial use.

Permit No. G-26329

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Hal G. Pickett; age, 33; residence, Boise, Idaho; occupation, dentist; postoffice address, 6213 Butte View Drive, Boise, Idaho.

Ques. 2. Are you acquainted with Floyd J. Pickett, the holder of Permit No. G-26329? How long have you known him and where does he reside?

Ans. I have known him all my life. He lives 1 1/2 mi. west and 3 3/4 mi. north of Oakley, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-26329, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water is from a drilled well in SW 1/4, Sec. 35, T11S R22E. There is an 875' drilled well, cased 256' with 16" casing. Water draws down to 350' and there is a 200 horsepower pump installed. Gravity ditches are used to convey the water to the place of use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 180".

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I estimate this pump will deliver 180" of water. This is an estimate but I have watched the development of water and land over a period of years.

826329

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. ~~Water will irrigate the following lands: T. 11S. R. 22E., Sec. 35, NE 1/4 NE 1/4, 40 acres; SE 1/4 NE 1/4, 40 acres; NE 1/4 SE 1/4, 40 acres; SE 1/4 SE 1/4, 15 acres; NE 1/4 SW 1/4, 25 acres; NW 1/4 SW 1/4, 40 acres; SW 1/4 SW 1/4, 40 acres. There is no natural meadow and the improvements are made as a result of said use.~~

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. ~~Irrigation only.~~

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. ~~This land is a sandy loam. He needs at least as much water as he has to profitably cultivate the land and could use more.~~

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. ~~No.~~

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. ~~I have watched the development of the land and water ever since the permit was made in 1956.~~

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. John McMurray; age, 56; residence, Boise, Idaho; occupation, insurance; postoffice address, 1207 Happy Drive, Boise, Idaho.

Ques. 2. Are you acquainted with Floyd J. Pickett, the holder of Permit No. G-26329? How long have you known him and where does he reside?

Ans. I have known him all his life and know he resides $1\frac{1}{2}$ mi. west and $3\frac{3}{4}$ miles north of Oakley, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-26329, and are you familiar with its provisions and conditions?

Ans. Yest.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water is a drilled well in SW $\frac{1}{4}$ Sec. 35, T11S-R22E. Works consist of well drilled to 875', cased 256' with 16" casing, drawdown to 350'. 200 Horsepower pump and gravity ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate works will safely convey 180" of water, and have seen this much so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. The pump will deliver 180" of water. This was measured by the Layne-Bowler Pump Co.

B26329

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. ~~Water is used for irrigation of 40 acres in NE 1/4 NE 1/4; 40 acres in SE 1/4 NE 1/4; 40 acres in NE 1/4 SE 1/4, 15 acres in SE 1/4 SE 1/4, 25 acres in NE 1/4 SW 1/4, 40 acres in NW 1/4 SW 1/4, 40 acres in SW 1/4 SW 1/4, 25 acres in SE 1/4 SW 1/4. All cultivated land. Improvements were made as a direct result of said use.~~ Sec 35, T11S-R22E, B.M.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. ~~None~~

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. ~~Soil is a sandy loam. I feel that it would require about 1 Miner's inch to the acre to profitably cultivate it although the water has been put to real good use.~~

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. ~~None~~

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. ~~I have seen this land in sagebrush before this well was drilled, when the well was drilled and several times since then and know the entire operation.~~

Order of State Reclamation Engineer in regard to both permits

Your file on Mr. Pickett.

The Certificate of Completion of Works and water License for Permit No. G-26329 issued January 2, 1958 have been removed from your file, marked cancelled and placed in our file. The legal notice for G-26329 should be completed and returned to this office. After the new depositions of holder and two witnesses are received, the Certificate of Completion of Works and water License can be issued as the engineer's report is in the file.

Upon receipt of the amended land list for Permit No. G-22805 has been received, the Certificate of Completion of works and water License can be issued.

S26329

Page Two - Continued - Harley H. McDowell

The fees for Permit G-26329 total \$21.00 for 3 subdivisions and the Certificate of Completion of Works. Departmental receipt G-3077 was issued for \$13.00, leaving \$8.00 fee to pay after the depositions have been received. We can find no record for fees paid in connection with Certificate of Completion of Works and Water License for Permit No. G-22805. The fees total \$13.00 for 4 subdivisions and the Certificate of Completion of Works which should be paid when you submit the amendment to the land list.

Kindly contact this office if you have any question in regard to the above procedure to unravel the mix-up of Permits G-22805 and G-26329.

May 18, 1959

Mr. Harley McDowell
Idaho Land and Map Service
619 Idaho Building
Boise, Idaho

With reference to our telephone conversation of May 16, I am enclosing our file on Beneficial Use Permits No. G-22805 and G-26329. Apparently, both permits were filed under my name while I was under the impression that only G-22805 was in my name.

When Mr. J. C. Marr of the Department of Reclamation inspected and measured the water of well under Permit G-22805 he posted the data, in error to Permit G-26329. As far as I know no inspection or measurement has been made of well under permit G-26329. Dad accompanied Mr. Marr for the inspection. When asked by Mr. Marr if he wanted the other well measured, G-26329, he was told that we were in the process of making a transaction in which we would acquire more land that would affect the diversion of the water so we did not want it inspected until the transaction had been completed. This information was applied to Permit G-22805 instead of G-26329.

I should have noticed the error but since I thought only one permit was under my name I did not check the permit numbers as close as I should have checked them. Instead, I went ahead and made application for amendment to correct the description of the point of diversion.

The certificate of completion of works, the license certificate of water right and the amendment, as I see it, would all be correct if they applied to Permit No. G-22805 not G-26329.

The Publication is in error; the water should be 3.11 cfs, place where water is used is the NW $\frac{1}{4}$, well is located on the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ all in Section 35 Township 11 South, Range 22 East B.M.

We request that you go ahead and straighten out this mess. Your attention is directed to the date of July 21, 1959 for completion of works on Permit No. G-22805.

Re: Permit No. G-26329

Mr. Floyd J. Pickett

Dear Mr. Pickett:

Our field engineer's report on the completion of works and application of water to beneficial use under the terms of Permit No. G-26329 shows that your well is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 35 and is capable of conveying 155.5 miner's inches (3.11 c.f.s.) of water for irrigation of 160 acres in the NW $\frac{1}{4}$ of Section 35, all in Township 11 South, Range 22 East, B.M. The record of the permit shows the point of diversion to be in the SW $\frac{1}{4}$ W $\frac{1}{4}$ of Section 35 and the land listed as only the E $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 35. Therefore, it is necessary that the permit be amended. Enclosed are forms "Application for Amendment" for this purpose which we ask that you complete and return.

Upon receipt of the amendments, mentioned above, and the total statutory fee of \$13.00, we will issue the Certificate of Completion of Works (five dollars) and the License and Certificate of Water Right (eight dollars--based at the rate of two dollars for each 40-acre subdivision) which will confirm your right under Permit No. G-26329, with a priority of May 1, 1956, to the use of 3.11 second feet of subterranean water with the point of diversion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 35, for irrigation of 160 acres in the NW $\frac{1}{4}$ of Section 35, all in Township 11 South, Range 22 East, B.M.

Re: Permit No. G-26329

Mr. Floyd J. Pickett
Oakley, Idaho

Dear Mr. Pickett:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in The Burley Herald, all submitted in proof of completion of works and beneficial use on Permit No. G-26329.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Permit No. G-26329

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Floyd J. Pickett, Oakley Idaho, Farmer and livestock raiser.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting only for myself

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-26329, May 2nd, 1956, date of priority, May 1st, 1955.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Water is secured from a well located in the Southwest corner of the Southwest Quarter of the Northwest Quarter (SW $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 35, Township 11 South, Range 22, EBM.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. A well and a pump capable of pumping 200 miners inches, said 200 inches has been conveyed from said well to the place of use all on applicants property. There is a head ditch composed of concrete. The water has been measured and has been estimated by a number of farmers acquainted with the use of water. The well is 691 feet deep. The casing is 16 inches and is a to a depth of 280 feet. The depth to the water and to the pumping level is 345 feet.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. The water from the above described well is used on the East Half of the Northwest Quarter (E $\frac{1}{2}$ NW $\frac{1}{4}$), the West Half of the Southwest Quarter (W $\frac{1}{2}$ SW $\frac{1}{4}$) and the West Half of the Northwest Quarter (W $\frac{1}{2}$ NW $\frac{1}{4}$) of Section 35, Township 11 South, Range 22, East of the Boise Meridian, in Cassia County, Idaho. Prior to the use of said water, the land was arid and since said time the same has been cultivated and crops raised thereon during the years 1955 and 1956.

G-26329

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. -----

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Approximately ^{one} ~~100~~ inches to the acre.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

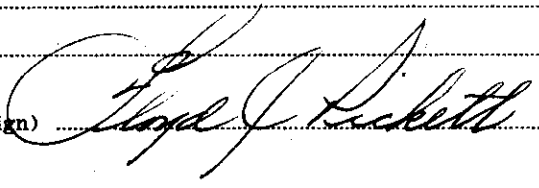

Ans. -----

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

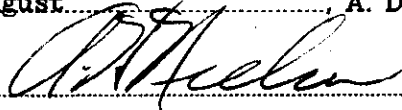

Ans. During the years 1955 and 1956, the above described real estate has been irrigated from the well and crops have been grown and are now growing on the above described land.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There are not any waters other than the well water described above.

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Rex Martin, 41 years of age, Oakley, Idaho, farmer and livestock raiser

Ques. 2. Are you acquainted with Floyd J. Pickett, the holder of Permit No. G-26329? How long have you known him and where does he reside?

Ans. I have known him for more than twenty years. He resides at Oakley, Cassia County, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-26329, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water is developed in a well located in the Southwest Corner of the Southwest Quarter of Section 35, Township 11 South, Range 22 East of the Boise Meridian, Cassia County, Idaho. There is a well capable of producing 200 inches and a concrete head ditch and other ditches which carry the water to all parts of the 240 acres of land.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 200 inches

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen 200 minors inches of water developed by the pump. I have been a farmer and livestock man all my life and am well acquainted with the measuring of water and have been at the pump some half dozen times.

B26329

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Irrigated. The said water is used on the Northwest Quarter and the West half
Ans. of the Southwest Quarter of Section 35, Township 11 South, Range 22, East of the Boise Meridian, in Cassia County, Idaho. All of said lands have been irrigated from the said well. The lands were arid prior to the use of the well and during the years 1955 and 1956, crops have been grown thereon.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. -----

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The 240 acres is land that can be irrigated and reclaimed and it would require around one inch to the acre to reclaim the same.

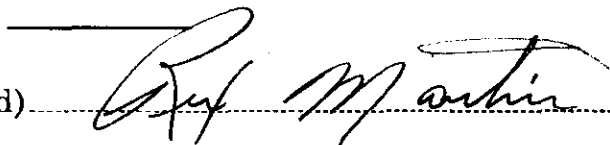

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest whatever in the works, water or land.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been on the property some half dozen times. I am well acquainted with Floyd Pickett and interested in this pumping operation to see new land brought under cultivation.

RE: Permits Nos. G-26329 and G-22805

Messrs. Nielson & Nielson
Box 367
Burley, Idaho

ATTENTION: Mr. A. H. Nielson

Dear Mr. Nielson:

We acknowledge receipt of your letter of June 18, 1956, in regard to filings of Floyd J. Pickett. We find that Floyd J. Pickett does have several permits but after carefully checking it appears that the ones now in question are the two captioned above.

Permit No. G-26329 was filed in our office May 1, 1956, for Floyd J. Pickett by Eugene Pickett as agent.

The land to be irrigated was listed as 160 acres in the E $\frac{1}{2}$ NW $\frac{1}{4}$ and W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 35, Township 11 South, Range 22 East, B.M. The maximum quantity allowed is one inch to the acre, or 3.2 cubic feet per second on 160 acres. However, we find nothing in our records that the notice of publication has been made as the completion of works and beneficial use proof is not actually due until May 2, 1958.

But we do find that Permit No. G-22805 in the name of Floyd J. Pickett of Oakley, Idaho, was published in the Burley Herald on May 10, 17, 24, and 31, 1956, with June 8, 1956, as the date for making proof of Completion of Works and Beneficial Use before you as Notary Public. The quantity of water claimed is 1.6 second feet or the maximum quantity granted for 80 acres which was the amount filed on in the W $\frac{1}{2}$ NW $\frac{1}{4}$ Section 35, Township 11 South, Range 22 East, B.M.

Permit No. G-22805 was issued in connection with a Desert Land Entry and was filed in this department May 23, 1952.

However, on Permit No. G-26329, no mention is made of a Desert Land Entry.

Please check your publication notice and get the Permit No. from it which will clarify our Permit in question. If the Permit is numbered G-22805 then the proofs should be completed and returned to this department. Since the proofs are late it will be necessary for you to furnish an affidavit to the effect that your office was open for business on June 8, 1956, and that there were no protests received at that time.

Messrs. Nielson & Nielson

The proofs will also have to state that the works were fully completed on the day set for the taking of the proofs or prior thereto.

Trusting this will clarify the matter to your satisfaction, we remain,

Mr. Mark R. Kulp
State Reclamation Engineer

Boise, Idaho

Dear Mr. Kulp:

On May 2, 1956, Mr. Eugene Pickett of Oakley, Idaho, was in your office regarding a well. At that time he signed Application for Permit No. G 26329 in the name of Floyd J. Pickett, by Eugene Pickett, agent.

8-26329-
Mr. Pickett said at the time that it was his understanding that he signed the application for 200 inches of water, said water to be used on the Northwest Quarter and the West Half of the Southwest Quarter of Section 35, Township 11 South, Range 22, E.B.M., in Cassia County, Idaho. At that time Mr. Pickett requested that proof be made of application of water to beneficial use. Notice was published in the Burley Herald to the effect that on the 8th day of June, before me as Notary Public, proof would be submitted. At that time it was noticed that the notice of proof was for 1.6 cubic feet per second of water and only the West Half of the Northwest Quarter of said Section 35 was described, consequently proof was not taken and the Picketts were to submit to me the facts about the matter.

8-26329-
From what the Picketts tell me, a well was drilled in the Southwest Quarter of the Northwest Quarter of said Section 35 in the early part of 1955. Two hundred inches of water was obtained from the well and said water was used to irrigate the entire Northwest Quarter of the land during 1955. The Picketts own the East Half of the Northwest Quarter and the West Half of the Southwest Quarter of Section 35 and Floyd W. Pickett has made application, which has been allowed, for desert entry upon the West Half of the Northwest Quarter of Section 35. Under the circumstances as we have outlined them for you, would it be possible to amend the application to include 200 inches of water and the 240 acres of land. The map in the application sets out the land to be irrigated to be the East Half of the Northwest Quarter and the West Half of the Southwest Quarter of Section 35.

It was our suggestion that we do not take proof at this time under the notice which has been published but that we wait until your office passed on the matter.

Very truly yours,
