**RE: NOTIFICATION OF WATER SUPPLY BANK LEASE EXPIRATION FOR WATER
RIGHT NO(S). 45-2254A, 45-2382 AND 45-2520.**

Dear Lessor:

Idaho Department of Water Resources ("department") records show that a portion of the above referenced water right(s) is leased to the Water Supply Bank ("bank") through December 31, 2012. This letter is notice that the right(s) will be considered released from the bank unless you advise the department within thirty (30) days of the date of this letter that you want to extend the period of the lease. Notice should be submitted in writing or through the attached Lease Term Extension and Release Form.

If you would like the right(s) to remain leased to the bank, please specify the date to which you want the lease extended. All leases expire as of December 31, unless otherwise specified in the lease agreement.

A water right is not protected from forfeiture unless it is accepted into the Bank or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. The five-year period of nonuse related to forfeiture of a water right shall begin to accrue upon release of the right from the bank or shall continue to accrue if a period of nonuse occurred prior to the lease date of the right to the bank. If a written request is not received with thirty days the right(s) will be released from the bank as of December 31, 2012.

If you have questions regarding this matter, feel free to contact me at (208) 287-4907.

RE: APPLICATION TO LEASE AND RENT WATER RIGHT NO(S). 45-2254A, 45-2382
AND 45-2520 TO THE WATER SUPPLY BANK

Dear Applicant:

The Department of Water Resources ("Department") has completed its review of your applications to lease and rent the above-mentioned water right numbers to the Water Supply Bank ("Bank"). The offered water rights are accepted into the Bank in accordance with the attached Water Supply Bank Lease Acceptances. If you do not agree with the conditions of the Lease Acceptance and would like to withdraw your water right from the Bank, you must contact the Department within thirty (30) days of receipt of this notification. The rights will automatically be released from the bank on **November 15, 2012**.

I have enclosed Water Supply Bank Rental Agreement for your review and signatures. Upon signature and return of the original agreements, together with the rental fees described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

The rental fees were calculated based on the current rental rate of \$14.00 per acre-foot times the diversion volume. The total fees due are \$3,847.20.

Please send a check made payable to the Idaho Department of Water Resources, together with the signed rental agreement, to my attention within 14 days so I can complete the processing.

Please review the conditions of acceptance listed on the acceptances and contact me if you have any questions at (208) 287-4907.

Sincerely,

Monica Van Bussum

WATER RIGHT NO(S).45-2254A, 45-2382 AND 45-2520.**

Dear Lessor:

Idaho Department of Water Resources ("department") records show that all or a portion of the above referenced water right(s) is leased to the Water Supply Bank ("bank") through December 31, 2011. This letter is notice that the right(s) will be considered released from the bank unless you advise the department within thirty (30) days of the date of this letter that you want to extend the period of the lease. Notice should be submitted in writing or through the attached Lease Term Extension and Release Form.

If you would like the right(s) to remain leased to the bank, please specify the date to which you want the lease extended. All leases expire as of December 31, unless otherwise specified in the lease agreement. Since you last applied to place the water rights in the Water Supply Bank, a new fee was instituted. The fee is \$250 per water right for an extension, capped at \$500 for overlapping water rights.

A water right is not protected from forfeiture unless it is accepted into the Bank or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. The five-year period of nonuse related to forfeiture of a water right shall begin to accrue upon release of the right from the bank or shall continue to accrue if a period of nonuse occurred prior to the lease date of the right to the bank. Gentlemen:

Our office acknowledges receipt of Assignment of the above referenced water rights. However, in reviewing the files I find that the water rights are Licenses.

In Idaho, a licensed water right is considered real property and is acquired when the property to which it is appurtenant to is purchased. Proof of owning the land is proof of owning the water right license.

Therefore, I have put the Assignment into the files for future reference only and no other action will be taken. I have also enclosed copies of the Licenses for your records.

If you have any questions please feel free to contact our office.

Sincerely,

SUPPLEMENTAL AGREEMENT

WHEREAS on April 9, 1985, FIRST SECURITY BANK OF IDAHO, N.A., ("First Security") and LAMBERT PRODUCE, INC., ("Lambert") entered into a Real Estate Purchase and Sale Agreement ("Agreement"); and

WHEREAS certain terms of the transaction and agreement between First Security and Lambert should be added and/or clarified; and

WHEREAS First Security desires to assign to Lambert all of its right to obtain easements from Vanco, Inc., ("Vanco") for pipelines or ditches to transport irrigation water; and

WHEREAS First Security desires to quitclaim to Lambert all of its rights in certain additional water rights; and

WHEREAS First Security has advised Lambert of Vanco's right to approximately 3.91 c.f.s of water from First Security and Jackson W. Allred ("Allred"); and

WHEREAS Allred has applied to the Idaho Department of Water Resources to transfer License 45-2352 to Vanco and First Security has applied to the Idaho Department of Water Resources to transfer a portion of License 45-2254 to Vanco; and

WHEREAS to facilitate the transfer of the aforementioned water rights, the place of use for certain water rights has been or will need to be reduced or transferred by First Security and/or Allred; therefore

Based upon the consideration received by First Security and Lambert in the original Agreement and also independently based upon the consideration recited herein the parties agree as follows:

1. First Security hereby assigns to Lambert all of its

right and interest in obtaining easements for transportation of irrigation water from Vanco; and

2. First Security quitclaims all of its right, title and interest in and to water rights 45-4000, 45-4001, 45-4002, 45-4005, 45-4006, 45-4007, 45-4008 and 45-4014; and

3. First Security assigns and Lambert accepts any obligation or responsibility that First Security owes to Vanco to complete the transfer of approximately 3.91 c.f.s. of water to Vanco:

ASSIGNMENT OF WATER RIGHTS

RECEIVED

The undersigned (hereinafter "Grantor"), for good and valuable consideration, receipt of which is hereby acknowledged, does hereby sell, assign, transfer, grant, convey and warrant to FIRST SECURITY BANK OF IDAHO, N.A. (hereinafter "Grantee"), all right, title and interest in the licenses, decrees, adjudications, claims, permits, written agreements and stock in water companies, listed in Exhibit J attached hereto and incorporated by reference, along with any and all interest the Grantor may have, acquire, claim or otherwise hold over any other unspecified public waters of the State of Idaho (hereinafter "Water Rights") which have been or are now used and applied to beneficial purposes upon the real property described in Exhibits A and C attached hereto and incorporated by reference.

Grantor warrants that it has performed all acts and made all filings necessary to maintain in full force and effect all of the Exhibit J Water Rights, and that there are no written or oral agreements which adversely affect or change the aforementioned Water Rights.

Grantor further covenants and warrants that a notice of claim has been or will be filed prior to June 30, 1983, pursuant to Idaho Code Section 42-243 by Grantor for the benefit of Grantee for all unspecified public waters of the State of Idaho which have been or are now used and applied to beneficial purposes upon the real property described in Exhibits A and C attached hereto and by this reference incorporated herein.

IN WITNESS WHEREOF, the Grantor has caused its corporate name to be hereunto subscribed by its President and its corporate seal to be affixed by its Assistant Secretary effective January 31, 1983.

June 17, 1968

Mack Martin

Burley, Idaho 83318

Dear Mr. Martin:

Mr. Loy Johnson and Mr. Dale Ralston of our office had the opportunity of visiting the 4 wells on your property on June 11, 1968. We are pleased to find what we feel is a very satisfactory meter arrangement on each of the wells. We would appreciate your either supplying us with, or allowing us to have made, keys for the locks on the meters so that we might have ready access to them.

For your information I thought I might just list the discharges of the wells. The furthest north well in the SW¹/₄SW¹/₄, Sec. 17 was producing 2656 gpm. We have one small question on that well. There appears to be a discharge pipe between the meter and the motor that would allow for discharge of the water by bypassing the meter. Perhaps you could clarify the use of this line.

The next well south in the NW¹/₄NW¹/₄, Sec. 20 was producing 1986 gpm. The well furthest south located in the SW¹/₄NW¹/₄, Sec. 20 was producing 2886 gpm. It is interesting to note that these 3 wells, which are the originals, combined on June 11th were producing 16.7 c.f.s. The water rights issued on them allow the production of 16.37 c.f.s. Therefore it would appear that the discharge has not decreased as you had felt that perhaps it had.

The other well located in the SW¹/₄SE¹/₄, Sec. 20 was producing 1627 gpm. This brings the total discharge from the 4 wells to 20.34 c.f.s.. This would appear to indicate that 3.97 c.f.s. will need to be covered by a transfer of water right onto the well. The transfer proposed by Matthews Brothers is for 4.55 c.f.s. We have men in the field this week helping to complete some of the necessary field work so that that transfer can be processed.

Very truly yours,

Jack A. Barnett

Burley, Idaho
Attn: A. H. Nielson

Dear Mr. Nielson:

Following our meeting at the Ponderosa on October 12th, I am enclosing herein a copy of a map prepared to illustrate the water rights associated with the Anderson & Martin Farms. As we discussed in our meeting there is a transfer application pending to allow for the diversion of water covered under three licenses from 4 wells instead of 3 wells, as the rights are now on file.

On the enclosed map I have indicated the location of the well under License G-26288 and have indicated the lands to be irrigated from that well, according to the license, in red. The well under License G-29723 has also been located on the plat and the area to be irrigated noted in green. The well covered by Permit G-26287 is also noted on the plat and colored in orange. The fourth blue dot indicates the well that was drilled without apparent water right within the Critical Ground Water Area. You will also note on the plat that there are areas lightly shaded in grey. These areas indicate lands that we have observed being irrigated in the past from these wells. We are unable to find a right on file that would allow for the irrigation of these lands from these wells.

It is our intention to proceed with the granting of the transfer application. This transfer application would make all the wells appurtenant to all of the land that has been licensed under the permits. As a condition of that approval we would require meters to be placed on the 4 wells to insure that records will be kept and measurements can be made that will allow us to verify that the diversion of the water from the 4 wells does not exceed the amount authorized in the licensing of the 3 original wells. At the same time we anticipate issuing an order to prevent the irrigation of the lands shaded in grey from these wells. Before we proceed with the issuing of these approvals and orders we wanted to double check and make sure we have not overlooked something in the rights of these lands or the use of the water that the

26288

Page 2 - A. H. Nielson

applicants are entitled to use.

In a way of a summary, we find that License G-26288 has been licensed for 5.9 c.f.s. from a well located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 17, T.12 S., R. 23 E., to irrigate 480 acres in Section 17. License G-29723 has been licensed for 4.8 c.f.s. to be pumped from a well located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 20, T. 12 S., R. 23 E., to irrigate 540 acres in Section 4, License No. G-26287 has been licensed for 5.67 c.f.s. to be pumped from a well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 20, T. 12 S., R. 23 E., to irrigate 285 acres of land in Sec. 20.

We will withhold any action on this matter for ten days to allow you an opportunity to reply if there is something that appears to be incorrect in our understanding of the water rights associated with the property. If we have not heard from you by November 3rd, we will proceed with this matter as outlined. The applicant has received a copy of this letter and a copy of the map so that he might be also advised of our intentions.

Very truly yours,

JACK A. BARNETT, Deputy
State Reclamation Engineer

Dear Mr. Martin:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-26288 shows that the well is capable of conveying 296 miner's inches (5.92 c.f.s.) of water for irrigation of 480 acres.

Upon receipt of the statutory fees, totaling \$29.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (twenty-four dollars—based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of March 28, 1956, to the use of 5.92 second feet of subterranean water with the point of diversion in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 17, for irrigation of 480 acres in the E $\frac{1}{2}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 17, Township 12 South, Range 23 E., B.M.

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. ANDERSON BROS., a co-partnership composed of Albert Anderson, Vanness Anderson Ray Anderson and Mac C. Martin, farming, Oakley and Burley, Cassia County, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-26288, date of permit is April 2nd, 1956, date priority is ^{March 28,} April 2nd, 1956

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. A subterranean well which is located in the Southwest Quarter of the Southwest Quarter of Section 17, Township 12 South, Range 23, East Boise Meridian.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The diversion works consist of ditches and the amount that they are capable of conveying is 12 second feet of water. That is the main ditches, then they taper down to ditches which carry the water to the crops. Depth of well is 554 feet, the casing is a twenty inch casing down to 264 feet and an 18 inch casing to 400 feet and below that is solid rock. The depth of the water is 352 ft. There is installed in the well a Layne-Bowler Pump and the pump will discharge 350 inches of water. The amount of water has been measured by the use of a weir.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation and is used to irrigate all of section 17, Twp. 12

South, Rge. 23, East Boise Meridian. All of this area can be irrigated and is being irrigated by the water taken from this well. The land has been reclaimed from desert land. A well has been drilled. Approximate cost of \$8000.00. A pump has been placed in the well costing \$18,500.00. Ten Thousand Dollars of leveling has been done on the property. There has been fence to the cost of \$4000.00.

S26288

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. The minimum amount of water required is 640 inches.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water was diverted from the well for the first time during the month of August, 1956 upon the land and the water has been pumped continuously from the well since April of 1957 to date of the signing of this deposition.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There has been no other water used on the land described herein.

Permit No. G-26288

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. R. Tom Church, 53 years of age, residence, Burley, Idaho, farmer and distributor of beer, P. O. Address, Burley, Idaho.

Ques. 2. Are you acquainted with ANDERSON BROS. & MAC MARTIN, the holder of Permit No. G-26288? How long have you known him and where does he reside?

Ans. I have known the Anderson Bros. & Mac Martin approximately 25 years.

Ques. 3. Have you read or heard read said Permit No. G-26288, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The source of water supply is a subterranean well located in the Southwest Quarter of the Southwest Quarter of Section 17, Township 12 South, Range 23, E. B. M. The diversion points carrying water from the subterranean well are open ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

The diversion works are capable of carrying 12 second feet of water from the well, and these ditches are reduced in size to carry water to the rows which actually irrigate the crops.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have observed the subterranean well produce 7 second feet of water and I measured this by the use of a weir.

B26288

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Water is used for irrigation and it is used to irrigate Section 17, Township 12 South, Range 23, East Boise Meridian, Cassia County, Idaho. The entire section can be irrigated and is being irrigated at the present time. The land was reclaimed from desert land entry and a subterranean well has been drilled on the property; a pump has been installed, the land has been leveled and a fence has been constructed around the property.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land has been reclaimed from desert land entry and the amount of water required for profitable cultivation would be the sum of 12 second feet of water.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest whatsoever in the water.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been on the land a number of times and during all of this spring and summer, that is of the year of 1957, I have observed the water from the well being put to beneficial use during those times that I was on the property.

(Signed)

J. P. Jones Church

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Burley, County of Cassia, State of Idaho, on this 12th day of July, A. Permit No. G-26288

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. T. E. Higgins, age of 43 years, Burley, Idaho, gas man, Burley, Idaho

Ques. 2. Are you acquainted with ANDERSON BROS., a co-partnership, the holder of Permit No. G-26288? How long have you known him and where does he reside?

Ans. Yes, I have known the Anderson Bros. and Mac Martin for a period of almost 30 years.

Ques. 3. Have you read or heard read said Permit No. G-26288, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The source of water supply is a subterranean well located in the Southwest Quarter of the Southwest Quarter of Section 17, Township 12 South, Range 23, E. B. M. The diversion points carrying water from the subterranean well are open ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The diversion works are capable of carrying 12 second feet of water from the well, and these ditches are reduced in size to carry water to the rows which actually irrigate the crops.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have observed the subterranean well produce 7 second feet of water and I measured this by the use of a weir.

526288

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Water is used for irrigation and it is used to irrigate Section 17, Township Ans. 12 South, Range 23, East Boise, Meridian, Cassia County, Idaho. The entire section can be irrigated and is being irrigated at the present time. The land was reclaimed from desert land entry and a subterranean well has been drilled on the property; a pump has been installed, the land has been leveled and a fence has been constructed around the property.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land has been reclaimed from desert land entry and the amount of water required for profitable cultivation would be the sum of 12 second feet of water.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest whatsoever in the water.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been on the land a number of times and during all of this spring and summer, that is of the year of 1957, I have observed the water from the well being put to beneficial use during those times that I was on the property.

Application for Amendment

POINT OF DIVERSION

Permit No. G-25868

Comes now L. Leigh Bair
and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G-25868.

That the point of diversion is described in said Permit as being located:

NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 26, T. 1 S., R. 32 E., B. M.

That he now requests that the point of diversion be changed to a point located: SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 26, T. 1 S., R. 32 E., B. M.

That the reason for desiring to make such change is as follows:

Field survey showed the well to be actually located in the South East quarter
of the South West quarter

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Attention: Mr. Norman H. Nielson

Dear Mr. Nielson:

We are returning herewith proofs of application of water to beneficial use, in connection with the above captioned permits, for the reason that the same are not notarized by a Notary Public.

Also, we observe that these proofs were not made or signed on the day as advertised in the publication notice. It will therefore be necessary that you furnish this department with an affidavit for each of the enclosed proofs, giving the reasons why said depositions were not taken before you, as published, also stating that your office was open for business on the 8th day of July and that no one appeared to protest the taking of the deposition in connection with said proofs.

Please have these depositions of proof notarized and return to this department, accompanied by satisfactory affidavits.

Attention: Mrs. Hazel Woodall, Associate Editor

Dear Mrs. Woodall:

In answer to your letter of June 25th, 1957 relative to changes authorized by this department in connection with legal notices sent to your paper.

Publication notices are made out on forms by the permit holder and sent to our office in duplicate. One copy is corrected for publication in our office prior to being sent to the paper for publication. This was done in the case of the three legals sent to your paper. However, the girl who prepares said notices and makes the corrections on the notices sent to the paper, was on vacation and said notices were prepared by another, thereby sending the uncorrected copy of the publication to the paper.

After this department received the printed legals from your paper, the same was checked in this department against our corrected copy and it was found that the printed legal sent in by you was incorrect, therefore a corrected authorization was sent you with the idea in mind that the paper was at fault. We are trying to explain to you why this mistake happened in this department. It is just one of those things that happen due to a number of circumstances.

Therefore we will accept the bill for payment as suggested in your letter of June 25th.

Very truly yours,
