Re: Permit No. G-26206

Mr. Grant Wyatt,
R. R. #2,
Burley, Idaho.

Dear Mr. Wyatt:

Enclosed is pre-cancellation notice of cancellation of your permit on account of non-payment of fees.

By letter dated June 5, 1959, you were notified that the certificates of water right would be issued upon payment of fees totaling \$13.00. The certificates would show 2.6 CFS from a well in SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 10, for irrigation of NW $\frac{1}{4}$, Section 10, Twp. 11 S., Rge. 22 E., with priority of February 29, 1956.

You should assign the permit to the owner of the land, if you have sold. There is a fee of \$0.50 for recording an assignment.

Very truly yours,

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Grant Wyatt, residence and post office address is Rural Route Two;
Burley, Idaho. I am a farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit and date of priority you propose to establish under the permit.

Ans. G-26206 dated February 29, 1956 . Date of priority is February 29, 1956.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Underground water from a well. Exact location of point of diversion is
SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 10, Township 11 South of Range 22 East, Boise Meridian.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well is 400' deep, cased 316' with 14" casing and 312' to water.

Pump delivers 135 inches of water as per Company Engineer's measurements.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. 150 acres of the entire NW $\frac{1}{4}$ of Section 10, Township 11 South of Range 22 East,
Boise Meridian are being irrigated from this well. Productivity of land has been
improved from a sage-brush state to cultivated farm as result of establishing well.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. John O. Miller, 57 years of age, resident and post office address is
Rural Route Two, Burley, Idaho. I am a farmer.

Ques. 2. Are you acquainted with Grant Wyatt, the
holder of Permit No. G-26206? How long have you known him and where does
he reside?

Ans. I have known Mr. Wyatt for 14 years. He lives approximately 4 miles
West from my farm.

Ques. 3. Have you read or heard read said Permit No. G-26206, and are you
familiar with its provisions and conditions?

Ans. YES

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. A deep well situate in SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 10, Township 11 South of Range 22
East, Boise Meridian. Pipeline and ditches convey water from the well to various
points of land to be irrigated.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. Three cubic feet per second.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons

Re: Permit No. G-26206

Dear Mr. Wyatt:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use on Permit No. G-26206. The proofs are to be made on the 26th day of February, 1959, at 10:00 A. M., before Beth I. Jones, Notary Public, Room 4, Post Office Building, Burley, Idaho.

You will note we have changed the time for making final proof to February 26, 1959, in place of January 26, 1959, as stated on the notice. The statutes require that the notice be published for four weekly issues prior to the date set for final proof and since your Notice was not received in this department until January 20, 1959, it was necessary to advance the date to allow for the four weekly publications.

As of this date we have mailed the Notice to the Burley Herald, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, at the time, and before the Notary, as advertised. It is very important and necessary that each question is answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

We also enclose a Form 36 in duplicate, Form 11, and instructions, as per your letter.

RE: Permit No. G-26206

Date January 1, 1959

Grant Wyatt
1842 Almo Ave.
Burley, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-26206 are due not later than March 1, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper will will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Dear Mr. Wyatt:

We are returning your Application for permit to appropriate the subterranean waters of the State of Idaho, filing on 3 cubic feet per second.

You state in your Application that the well is located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 10, Township 11 South, Range 22 East.

You also state under answer to Question 12 of the Application that the land to be irrigated is in the NW $\frac{1}{4}$ Section 10. Your sketch map, if you show North as being the top of the map, shows the land to be irrigated in the NE $\frac{1}{4}$ Section 10.

Since we had to write you in regard to the fee which was not enclosed with the Permit, we are asking you for a clarification as to the land description. On one of the sketch maps we show Section 10 and North as being at the top of the map.

Please mark on this diagram the location of the well and cross-hatch or color the quarter section which you intend to irrigate.

Please return said Application together with your check for \$5.50 in payment of filing fee.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Dear Mr. Wyatt:

In answer to your request as of January 30, 1956, requesting forms for filing. We assume you wish to file on Subterranean water from a well, therefore, we are enclosing a form of application for permit to appropriate subterranean water from a well together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of Completion of Works and application of the water to Beneficial Use are required. The time required for making these proofs should be indicated under Question 10.

It is not necessary to have drilling Permits. The only thing is if you drill on Government land, on which a desert entry has been filed, you are not allowed to drill on said land without permission from the Bureau of Land Management, until the application for filing on Desert Entry has been approved by the Bureau of Land Management.

Very truly yours,
