Dear Mr. Clark:

Our field engineer's report on his inspection of the application of water to beneficial use under the terms of Permit No. G-26029 shows the well is capable of conveying 80 miner's inches, or 1.6 c.f.s. of water for the irrigation of 80 acres.

Upon receipt of the statutory fee of \$ 9.00 -based at the rate of \$2.00 for each 40-acre subdivision - we will issue the License and Certificate of Water Right, confirming the right with priority of October 17, 1955 to the use of 4.0 second feet of surface water with the point of diversion in NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8, for the irrigation of 80 acres in Section 8, Twp. 12 S., R. 22 E., B. RE: Permit No. G-26029

Mr. John A. Clark
Oakley, Idaho

Dear Mr. Clark:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in The Herald-Bulletin, all submitted in proof of completion of works and beneficial use on Permit No. G-26029.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. John A. Clark; residence, Oakley, Idaho; occupation; merchant and farming;
postoffice address, Oakley, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit #G-26029; date of permit, 10/21/55; date of priority, 10/17/55.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Drilled well in NW¹/4 SW¹/4, Sec. 8, T12S-R22E.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well drilled to depth of 695', 20" hole, pumps from about 379'-382'. Discharge of this pump with 250 hp pump and motor is 200 Miner's inches. This was measured by the Pump Company who put it in. I have never had it measured by any engineer. Works are all gravity and are capable of conveying by private ditch 1/2 mile long 200".

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation. NW¹/4 SW¹/4, 40 acres; NE¹/4 SW¹/4, 40 acres, Section 8, T12S-R22E. No natural meadow. I have spent \$12,000 to put this well to beneficial use (this was my proportionate share of the cost of the well and developing of the land and represents approx. 1/3 of the cost.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. LaMar Barrus, Burley, Idaho

G26029

\$

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I need all the water I have for successful irrigation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Original permittee.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I filed on this well and drilled immediately and have continued development at all times.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None.

Ques. 2. Are you acquainted with John A. Clark, the holder of Permit No. G-26029? How long have you known him and where does he reside?

Ans. I have known him 40 years and know that he lives in the town of Oakley, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-26029, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water is from a well in NW 1/4 Sec. 8, T12S R22E drilled to 695 ft. 20" hole and pumps from about 380'. He has 1/2 mile of ditch for conveying the water to the place of use and a 250 hp pump is installed.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate works will safely convey 200" of water and have seen this much so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water is used for the irrigation of 40 acres in each subdivision of N1SW1/4, Section 8, T12S-R22 E. All improvements have been made as a direct result of said use and there is no natural meadow.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is lava ash soil. He needs all the water he is now using.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have watched the development of the land and water since he began in 1958.

Re: Permit No. G- 26029 - John A. Clark

Date: August 1, 1960

Harley M. McDowell
P. O. Box 2161
Boise, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G- 26029 are due not later
than October 31, 1960.

Before these proofs can be made, the statutory requirement is that a notice of
your intention of proof be published once a week for four consecutive weeks in
a newspaper within the county in which the land is located. In completing the
Notice of proof for publication, the information should be taken from your Per-
mit, including any amendments made in connection with a change of point of diver-
sion or land list which has been recorded in this department. If changes have
been made and no amendments are on record, we advise that you request a form
for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to
this department at least forty (40) days before the above mentioned date,
(allowing for four weeks publication). Please give the name of the town, the
address of the place where the depositions will be executed, and, the name of
notary public before whom you will appear to make the depositions of proof
(this may be at any place convenient for you and your two witnesses), the
quantity of water filed; for what purpose it is used; the point of, or points of
diversion; and the location of use or the lands which are irrigated -- all by
legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice
published in the designated county newspaper at your expense. This is to be
returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms
for the depositions of holder and two disinterested witnesses. It is important
that the depositions be executed at the time, on the date set, at the place
named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
