Rupert, Idaho

Dear Ms. Somsen:

C
We are in receipt of your letter of July 23, 1971. Our records are filed by name of the permit holder and location of the point of diversion on the source. Since your letter of May 25, 1971 listed your name as Dianne W. Somsen and listed no source of water supply, let alone legal description of the point of diversion, we drew the conclusions in our letter of July 12, 1971.

F
As you will note from the originals of the copies you have forwarded us of Permit No. G-25559/45-2491, the permit is in the name of Dianne Lenore Somsen, and not your name. We assume from the pieces of information that you have submitted that your letter of May 25, 1971 was to serve as evidence of right-of-way authority for Joanne P. Woodall and not a conveyance of some water right as was assumed. We will, therefore, place a copy of the May 25 correspondence in Permit No. G-23835 under the name of Joanne P. Woodall.

Y

Dear Sir:

In reference to your letter of July 12, 1971, I am sending copies of the current license and water permit in my name. It is inconceivable to me that you could not find a record of these permits.

I did not mean to sell or convey any part of my right to Joanne Woodall and any inference to do this is in error. My agreement with Mrs. Woodall is to pump her water, not my water, with my pump and existing equipment. Since she also has a valid water permit, this should be a personal agreement between us and of no concern to your department. I certainly hope these copies will clear up the matter to your satisfaction.

Sincerely,

Dianne W. Somsen

Dear Ms. Somsen:

We have researched our records extensively and cannot find any water right filing in our office for you under the name given.

In order for any individual to use Idaho's public waters, it must be based on a current permit and application. We would need to identify your authority to use water before we can assist you in conveying part of whatever right you have to Joanne Woodall. If you could assist us in identifying your permit or water right, we can assist you in conveying the portion thereof.

Your assistance in clarifying this issue is appreciated.

Dear Sir:

I am in receipt of the License and Certificate of Water Right for Permit No. G. 25261 and find that it is made out for the amount of 2.56 C F S of water which is the amount of the four lateral measurement. How will this be changed if the measurement on five lateral lines proves to be more?

I also find that the license for permit No. 25559 is made out for the amount of 2.64 C F S instead of the 3.14 C F S, as stated in your letter of May 6, 1965. Will you please have this corrected and let me know when the other measurement can be made.

Dear Mrs. Somsen:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Herald-Bulletin, all submitted in proof of completion of works and beneficial use on Permit No. G-25559.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mrs. Somsen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-25559. The proofs are to be made at 10:00 'clock A.M., on the 7th day of October, 19 63, before Floyd J. Fruit, F. Street, Rupert, Idaho, Notary Public.

As of this date we have mailed the Notice to the Herald-Bulletin Burley, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Diane L. Somsen
609 C Street
Rupert, Idaho

Dear Mrs. Somsen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 25559 are due not later than **Oct. 15, 1963**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

CARL E. TAPPAN, Acting State Reclamation Engineer

Dear Mr. Carter:

The Desert Land Entry in connection with this Permit No. G-25559 was just recently allowed, therefore we have not had sufficient time to develop water on this permit. I would like to request an extension period of three years.

The reason this entry was delayed was because of a conflict of filings.

Thank you.

Dear Mrs. Samsen:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 25559 are due not later than **April 7, 1962.**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Dear Madam:

We enclose an Extension of Time to April 7, 1962,
on Permit No. G-25559 for completion of works and beneficial
use proofs.

This extension has been approved by the State Recla-
mation Engineer and recorded in the Department of Reclamation
in Book 90 of Permits at Page 25559. It should be attached
to the original permit to which it refers and of which it
now becomes a part.

DEAR SIR:

IN REPLY TO YOUR LETTER OF FEBRUARY 1ST; THERE HAS BEEN AN ERROR MADE IN THE AMOUNT OF TIME ALLOWED FOR COMPLETION OF THE WORKS. THE PERMIT SHOULD HAVE READ FOUR YEARS AND IT WAS SET UP FOR ONLY TWO YEARS. WOULD IT BE POSSIBLE TO HAVE THIS CHANGED TO READ FOUR YEARS?

THE DESERT LAND ENTRY IN CONNECTION WITH THIS PERMIT IS ON APPEAL IN WASHINGTON D.C. AND AS YET, HAS NOT BEEN ALLOWED. UNTIL THIS APPEAL IS SETTLED, THERE IS NOTHING I CAN DO TOWARD MAKING FINAL PROOF OF COMPLETION OF WORKS.

IF THE PERMIT CANNOT BE CHANGED, PLEASE ADVISE ME AS TO WHAT ACTION IS NECESSARY FOR AN EXTENSION.

Dear Mr. Hall:

It is not necessary to amend the amount of water claimed under any permit before the advertising except in case of surface water where the permit claims over 6.4 c.f.s. and requires advertising before the proofs of completion of works, an amendment may be made reducing the amount to 6.4 c.f.s. or less, and the proof of completion of works may be made by the holder of the permit before a Notary Public without advertising.

Amendments are necessary where the point of diversion is moved to another "40-acre" tract or where land not shown on the permit is irrigated.

Any legal notice should show the conditions as accurately as possible and must also agree with the permit, except amount of water can be shown less but never more.
