Dear Mr. Gray:

Listed below is the information requested in your letter
of January 15, 1969.

Name	Permit or License #	Amount	Priority
Dorothy Matlock	per.45-2428 (G-23439)	1.3 cfs	12-15-52

The permit of Dorothy Matlock and W. W. Newcomb have proofs
made, however, no licenses have been issued. The amount of water
is what was requested and until licensed it would be all we have
since no measurement has been made.

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. G- 25261 to appropriate the Public Waters of the State of Idaho, have not been complied with as to _____

Non-payment of fees totaling \$13.00 - Failure to answer letter dated

April 3, 1960

YOU ARE HEREBY notified in compliance with Sec. 42-234, Idaho Code that said Permit No. G- 25261 is hereby held for cancellation.

YOU ARE HEREBY required to show cause before the State Reclamation Engineer on or before sixty days from date of this notice why said Permit should not be cancelled.

SAID PERMIT NO. G- 25261 claims the use of 2.56 cubic feet per second of the Subterranean Waters a well with point of diversion located

NE1/4NE1/4, Sec. 28, T. 9 S., R. 25 E., B. M.

and was approved Nov. 13, 1954.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of my office at Boise, Idaho, the 9th day of April, 1965.

Dear Mr. Somsen:

Enclosed is pre-cancellation notice and copy of our letter dated September 22, 1959.

You protested the amount allowed, by letter dated March 31, 1960. Mr. Humphrey answered April 3, 1960, that he would be glad to go over your system with you any time the two of you could get together. No answer has been received.

Your protest was that the amount of water should be measured when 5 or 6 laterals were in use. Mr. Humphrey's report shows 5 laterals were in use at time of examination.

Re: Permit No. G-25261

Dear Mr. Somsen:

I am sorry that you were not along during inspection for your Permit No. G-25261.

I tried to contact you on three different occasions but you were always over by Gray's Lake.

Finally I did talk to Ted Ketterling and did go out and get full information on the set up.

In checking your proofs I find your sworn statement states that you used $\frac{1}{4}$ mile laterals, and that the depth of water was 90' 10".

The nozzles you used were either $\frac{3}{16}$ " or $\frac{11}{32}$ " singles, or doubles size $\frac{3}{32}$ " x $\frac{3}{16}$ ".

I double checked the yield by calculation and believe that I gave you the full capacity of the pump through that sprinkler system.

In regards to using more lines, if a system has enough laterals to be up near capacity delivery, additional lines merely divide up the same amount of water through more nozzles. Actually you have, in 128", an amount of water per acre that is higher than a great many use and is also more than necessary to produce most crops.

I will be glad to meet you and talk with you regarding this matter and even make another inspection if you insist. But if I make another inspection the amount of water being delivered will be the amount awarded even if it proves to be less than 128 inches determined by my inspection of August 10, 1959.

I scarcely know how to contact you if you do not live in Rupert. Any inspection will have to be made on a day that I am working in that area or passing through Rupert.

If you will advise me when you are in Rupert, maybe it will coincide with a date that I will be there.

Gentlemen:

In reference to the Engineers report of the capacity output of my pump and motor, I would like to have this checked again. The pump is ~~suppose~~ to pump 160 inches of water and the report states the maximum to be 128 inches.

Evidently this figure was arrived at with only four lateral in operation instead of five or six.

I will appreciate having the Engineer check this again, making certain that there are at least five lateral lines in operation.

Thank you.

Dear Mr. Somsen:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-25261 shows the well is capable of conveying 128 miner's inches (2.56 c.f.s.) of water for the irrigation of 160 acres.

Upon receipt of the statutory fees totaling \$13.00, we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$8.00 - based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of November 8, 1954, to the use of 2.56 second feet of subterranean water, with the point of diversion in the NE 1/4, Sec. 28, for the irrigation of 160 acres in the E 1/4, NW 1/4, NE 1/4, Sec. 28, T. 9 S., R. 25 E., B. Dear Mr. Somsen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-~~25623~~. 25261
The proof is to be made at 2:00 P. M. on the 10th day of November 1958, before Dean Kloepper, Notary Public at Burley, Idaho.

As of this date we have mailed the Notice to the Burley Herald, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the place, on the date and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions (Holder and two Witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

RE: Permit No. G-25261

Date September 2, 1958

Garrett Frank Somsen

Mayan, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-25261 are due not later than November 13, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Idaho

Dear Mr. Somsen:

In reply to your letter of June 4, 1956, in which you state you are making final proof on your Desert Land Entry Idaho-05567 and you wish to know what is necessary to complete your water right. The status of your Permit is as follows:

Filed for 3.2 cubic feet per second.
Completion of Works and Beneficial Proofs are due according to the terms of the said Permit on November 13, 1958.
Land use - N $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 28, Township 9 South, Range 25 East.

It will be necessary for you to make final proofs on said Permit by November 13, 1958, however you can make them at any time previous to that date. It is not necessary to have your License and a water right prior to getting your Patent on your Desert Land Entry claim.

Providing you wish to prove up in the near future or at any time prior to the date set in your Permit, please feel free to request forms for making said proof.
