Dear Water User:

As you are aware a large area in Twin Falls and Cassia Counties was designated as a critical ground water area in 1962. Since that time the State Reclamation Department has entered into a cooperative agreement with the U. S. Geological Survey to study the ground-water resources of the area. That study is now completed, and a report is being prepared. The state reclamation engineer is reviewing the hydrology and water level changes while considering the possibility of modifying the area that is designated as critical and closed to additional water development.

With regard to this the State Reclamation Engineer, R. Keith Higginson, will conduct a public meeting in the Murtaugh High School Auditorium at 7:30 P.M. on January 25, 1967. The locations and amounts of present water rights will be reviewed, and alternatives for modification of the area will be presented. In addition U. S. Geological Survey personnel will be present to relate what is now known of the ground water resources of the area.

Water users are encouraged to participate in the discussion, and all interested parties are urged to attend.

Very truly yours,

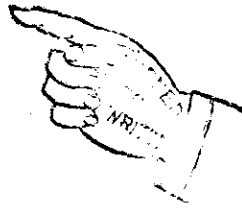

Jack A. Barnett
Assistant State Reclamation Engineer

Permit No. G-24815

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Work

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Phillip Martin, Rte #2, Burley, Idaho, farmer, age 38 years

Ques. 2. Are you acquainted with Jackson W. Allred and W. C. Lawyer, the holder of Permit No. G-24815? How long have you known him and where does he reside?

Ans. I have known Jackson W. Allred and W. C. Lawyer for one year.
They both reside in Murtaugh, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-24815, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water supply is Subterranean well in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 12, T. 12S., Range 22 EBM, Cassia County, Idaho which well is point of diversion. Works consist of Winthrop Pump with 200 h.p. motor. Cement divider box used, then water distributed by gravity flow to place of use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 4.5 cu. ft. per second which amount I have seen being conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Pump will deliver 4.5 cu. ft. per second, which amount I estimate from actually watching pump deliver water.

G-24815

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used to irrigate 240 acres in SW $\frac{1}{4}$ and W $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 12, T. 12 S., R. 22 EBM, Cassia County, Idaho. Desert land reclaimed and irrigated with this water.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Desert land reclaimed and I estimate 4.5 cu. ft. per second required for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have witnessed the application to beneficial use of said water on land described in answer to Question No. 7 in the crop year 1958.

Dear Mr. Benoit:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24815, in the name of Jackson W. Allred and W. C. Lawyer. Final proof is to be made before you, as Notary, on the 21st day of November at 2:00 P. M. at Twin Falls, Idaho.

P
As of this date we have mailed the Notice to the Burley Herald with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

Y
It is important that the enclosed depositions be executed by the permit holder and his two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication Notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Dear Mr. Allred:

In reply to your request, we enclose a form of application for permit to appropriate subterranean waters together with a pamphlet giving regulations and instructions in regard to filing same.

Since all three of the persons named in this letter wish to join in a permit from one well, the water to be used on the immediately contiguous land, we can accept one application.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of completion of works and application of the water to beneficial use are required. The time required for making these proofs should be indicated under Question 10.
