Re: Permit 20337
License G-24034

Mrs. Leona M. Uenzell
Box 182
Twin Falls, Idaho

Dear Mrs. Uenzell

Mr. Fred C. Farmer was issued Permit 20337 for 11.2 cubic feet per second of subterranean water with priority of March 8, 1948, to irrigate the S¹/₄NE¹/₄, SE¹/₄, Sec. 22, E¹/₄, Sec. 27, T. 11 S., R. 20 E. from various wells. The permit was assigned to you June 15, 1949 and you made proof of completion of works for two cubic feet per second from two wells in SW¹/₄NE¹/₄, Sec. 22, for irrigation of land in S¹/₄NE¹/₄, SE¹/₄, Sec. 22, T. 11 S., R. 20 E. Proof of beneficial use is due March 16, 1959.

License G-24034 was issued to you for 2.58 cubic feet per second, priority April 24, 1953 from the two wells and for 185 acres in same land as described in the proof of completion of works under Permit 20337.

Mr. Farmer stated this morning that the one well which measured 33 miner's inches on August 26, 1958 has produced 90 or more inches with a larger pump than the one now in the well. The large pump had to be replaced on account of breakage due to a crooked hole. He also stated that he wanted to install a submersible pump which would operate in the crooked hole and deliver more water.

You can make proof of beneficial use of water under Permit 20337 for the amount you can produce from those two wells over the 2.58 c.f.s. now licensed, up to the 2. c.f.s. on which proof of completion of works has been made, provided you were irrigating 229 acres of land. The priority would be advanced the same length of time the proofs were made after March 16, 1959.

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-24034 are due not later than May 2, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper with the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,
