Dear Water User:

As you are aware a large area in Twin Falls and Cassia Counties was designated as a critical ground water area in 1962. Since that time the State Reclamation Department has entered into a cooperative agreement with the U. S. Geological Survey to study the ground-water resources of the area. That study is now completed, and a report is being prepared. The state reclamation engineer is reviewing the hydrology and water level changes while considering the possibility of modifying the area that is designated as critical and closed to additional water development.

With regard to this the State Reclamation Engineer, R. Keith Higginson, will conduct a public meeting in the Murtaugh High School Auditorium at 7:30 P.M. on January 25, 1967. The locations and amounts of present water rights will be reviewed, and alternatives for modification of the area will be presented. In addition U. S. Geological Survey personnel will be present to relate what is now known of the ground water resources of the area.

Water users are encouraged to participate in the discussion, and all interested parties are urged to attend.

Dear Mr. McLean:

Proof of Completion of Works and Beneficial Use of the Water was due on or before February 6, 1958, under the terms of Permit No. G-23645. The full five years time after approval of the application was allowed, therefore an extension of time cannot be granted. You were notified (pre-cancellation) on July 21, 1958, and the sixty-day period will lapse September 19, 1958.

Just hitting water in a well does not complete a water right under terms of a permit. Completion of works and beneficial use of the water is required. To obtain a water license for subterranean water, the water must be lifted from under ground and used beneficially to whatever use for which it is filed on in the original filing, and proofs made thereunder.

We are unable to say why that area is barred from obtaining Federal Loan help.

Dear Sir:

When I see that I could get my well going by Feb. 58 I came to
Your office and payed a fee and had my permit renewed for five more
years. I beleive your records will show that.
I wonder if you would have the time to send me an answer to these
questions? I rented a four hundred acre farm, that was three years
ago, I got sick and was down in bed for three months that spring;
I had very poor hired help raised apoor crop and came out that fall
over eight thousand dollars in the red, that is why I was unable to
drill a well, if all goes well I will be back on top this fall.
You stated in your letter that I had sixty days to show reason why
my permit No. ~~A~~ G-23645 should not be cancelled. If I could drill
a well this fall, would it be possible to still come under that permit?
Also if I drill a well do I have to just hit water to count or do I
have to be pumping it? Also my farm is only three-fouths of a mile
west of Murtaugh Lake, will you tell me why that country in there
is condemned from getting this Federal loan help?
Every one hits a good flow of water in there, even for a mile west
of mine the wells are deep but really good.
I just wondered who was responsable for this restriction?.

Dear Mr. Stanger:

Our field engineer's report on his inspection of the completion of works and application of water to beneficial use under the terms of Permit No. G-23645, Lawrence Ray Stanger, shows the well is capable of conveying 48 miners' inches (.96 c.f.s.) of water for irrigation of 80 acres.

Upon receipt of the statutory fees, totaling \$9.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (fee, four dollars) confirming the right with priority of January 28, 1953, to the use of .96 second foot of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14, for irrigation of 80 acres in the W $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 14, Township 11 South, Range 19 East, B.M.

Re; Permit No. G-23645

Mr. Roy V. Stanger
Rt. # 2,
Hansen, Idaho

Dear Mr. Stanger:

In reference to this permit, Proof of Application of Water to Beneficial Use and Completion of Works were completed by you under Power of Attorney for Lawrence Ray Stanger, as he was out of the state at the time proofs were made.

These proofs are now satisfactory to the Department of Reclamation, however, this permit was supposed to have been divided and proofs cover the part retained by Lawrence Ray Stanger. It will be necessary, before we can approve the proofs recently sent in by you in connection with the WISE¹ of Section 14, that we have proper assignments in this department dividing said permit.

We have written Mr. Orville McLean, also Lawrence Ray Stanger and you self in regard to furnishing this department proper assignments in regard to this permit. Without these assignments in connection with this permit, we are unable to process your proofs, therefore if these assignments are not received in the near future, this permit will be subject to cancellation.

Re: Permit No. G-23645

Mr. Roy V. Stanger
Rt. # 2,
Hansen, Idaho

Dear Mr. Stanger:

We are returning your Proof of Application of Water to Beneficial Use and Completion of Works in connection with the above stated permit, for additional information.

Under Question (11), you should state that you are making said proofs as power of attorney, for Lawrence Ray Stanger and if this proof includes the whole proof for Permit No. 23645, also in the name of Mr. Orville McLean, it should so state. If the land is divided, then this proof is made only for the W $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 14, and should be so stated under Question (6) of the Holder's Deposition, showing the land to be irrigated by 40 acre subdivision, section, township and range.

We wish to state that under this permit, we received an assignment signed by Orville McLean, dividing the property. As the assignment was not in due form, it was returned to Mr. Orville McLean, Murtaugh, Idaho, with a letter stating how assignments should read. However, this letter was returned to this department stating that said letter could not be delivered, after which the letter and assignment was returned to Lawrence Ray Stanger, at 123 W. Ruth, Sunnyslope, Arizona. We have had no reply from Mr. Stanger up to this date.

Under the proof of the Holder, please answer Question (10) more specifically. Under Question (6) of the witnesses. a complete answer should be given, also to Question (11).

Please add the requested information and return to this department.

Dear Mr. McLean:

We are returning herewith your assignments in connection with the above stated permit, for the following reasons.

This assignment is not made out correctly due to the fact that the wording of said assignment is not changing the partnership as filed on in the original permit.

We have prepared an assignment assigning all right, title and interest to said permit to Orville McLean, as far as it relates to the E $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 14, Township 11 South, Range 19 East. This assignment should be signed by Lawrence Ray Stanger and wife, also an assignment assigning all right, title and interest to said permit as far as it relates to the W $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 14, Township 11 South, Range 19 East, assigning same to Lawrence Ray Stanger and should be signed by you and your wife, as we assume from correspondence on file in this department that what you wish to do is to divide the permit, - Stanger taking the W $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 14 and you taking the E $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 14. Providing our assumption is correct, please sign accordingly before a Notary and return to this department.

After looking over the assignment to be signed by Lawrence R. Stanger and wife, assigning the E $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 14 over to you, will request that you forward same to Mr. Stanger, whose address according to our files, is 123 W. Ruth Avenue, Sunnyslope, Arizona.

Providing you have two disinterested witnesses in Arizona, you can make Proof before a notary in Arizona, otherwise it would be better to give power of attorney to someone in Idaho who could sign the deposition of the holder for you if you do not come to Idaho. If the witnesses are in Idaho, and will sign the depositions in Idaho, it will be necessary to follow the last stated procedure.

If it is not clear as to the procedure to follow in making said proofs, please feel free to write us again.

Very truly yours,

Re: Permit number - G 23645 DEC 1 6 1957

Department of Reclamation

Dear sirs:

In reply to your recent letter in regard to the permit numbered above; and pertaining to the property described as follows - SE $\frac{1}{4}$, Section 14, Twp. 11-S, Rge. 19E, County of Twin Falls.

At the time the application of permit was made the above described property was in the names of Orville McLean and Lawrence Ray Stanger and wives. and the application was made ~~accordingly~~ accordingly. Since that time, the property has been divided by the partners. The west half of SE $\frac{1}{4}$, Sec. 14, Twp. 11-S; Rge. 19E, is in the name of Lawrence Ray & Vivian Stanger (husband and wife). and the East half of SE $\frac{1}{4}$, Sec. 14, Twp. 11-S, Rge. 19E., is in the name of Orville and Pauline McLean.

A23645

The well that was drilled is on

west half of the $\frac{1}{4}$ section or 2 is on the spot as located on Permit map #9, 23645, as approved Feb 6, 1953 by Mark R. Kulp. This well is producing approx. 70 minus inches of water, said water is used to irrigate the west half of the section by Stanger.

At the time this division was made I was in the Reclamation Office and gave this information to one of the clerks so it should be on file in your office.

Evidently the forms 36 and 11 mentioned in your letter were sent only to Lowell McLean as there weren't any in the letter addressed to me.

As I have recently moved to Sunnyslope, Arizona will it be possible for me & my witnesses to appear before a notary here or will I have to return to Idaho?

Very truly yours,
Lawrence Ray Stanger
