STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR)
TRANSFER OF LICENSED WATER RIGHT)
NO. 45-2418/22802)

MEMORANDUM DECISION

On May 23, 1952, Mrs. Lola Beth Moorman applied for a permit to appropriate the waters of the State of Idaho and was subsequently issued such a permit. On December 11, 1962, license was issued confirming a right to divert 3.52 cubic feet per second of water for irrigation and domestic use. The license provided for irrigation of 725 acres of land in Townships 10 and 11 South, Range 21 East, Boise Meridian.

On June 5, 1968, Mr. Mark Edgar Moorman applied to the Department of Reclamation to transfer 3.52 cubic feet per second of water under this right to 725 acres of land lying in Township 10 South, Range 21 East, B.M., and to add a point of diversion in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 35, Township 10 South, Range 21 East, B.M.

The State Reclamation Engineer having considered the application hereby approves the transfer subject to the condition: (1) That no more than 2238 acre feet of water per season will be pumped from the two points of diversion under this right, and (2) That permanent measuring devices of a type approved by the Department of Reclamation be installed.

The amount of water allowed under this transfer is subject to final determination upon adjudication of the right by the District Court. According to information available to the Department of Reclamation the irrigation of crops common to the area require 4 acre feet per acre per season at the point of diversion or a total of 2900 acre feet per season as a full supply. Transfer No. 45-2419 transfers 662 acre feet of water to this land leaving 2238 acre feet to be supplied under License 45-2418/22802 and 45-2417/22801 in order to meet the needs of the crops each season.

Re: Permit No. G-22802
Lola Beth Moorman and
Laura Viola Hale

Mark Edgar Moorman
Murtaugh, Idaho

Dear Mr. Moorman:

Enclosed is a form for relinquishment of Laura Viola Hale's interest in Permit No. G-22802. This interest is in the assignment of 100 inches under the permit, signed by the permit holder and her husband January 22, 1957. The water involved is now licensed under Permit No. G-22803, with the same priority and to the same land plus additional land, according to agreement signed by the interested permit holders in our file G-26747.

In case the relinquishment is not completed and filed in this office, we must cancel Certificate and License of Water Right No. G-22803 and issue a new license omitting the 100 inches of water from the well in the SE¹/₄ SE¹/₄, Sec. 35. That water belongs to Laura Viola Hale who could assign her interest to Celia Kunau. That would require cancellation of License No. G-22803 and a new license No. G-22802 for 100 inches in the name of Celia Kunau and amendment to land list.

We believe the relinquishment to be adequate to clear the records.

Very truly yours,

POINT OF DIVERSION

Permit No. G-22802

Comes now Lola Beth Moorman and
represents to the State Reclamation Engineer of the State of Idaho:

That she is (~~owner~~) the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G-22802.

That the point of diversion is described in said Permit as being located:

SE1/4 Sec. 34, T10S-R21E., B.M., Ida.

That he now requests that the point of diversion be changed to X point
located: SE1/4 Sec. 34; SW1/4 Sec. 35, T10S-R21E., B.M., Ida.

That the reason for desiring to make such change is as follows:

Water is used from both of these wells in the development of the lands.

That no one will be injured by such change, and that such change will be made
at Permit Holder's own risk.

Signed at Murtaugh, Ida., this 17 day of October,

Dear Mr. Moorman:

We have the report of the field examiner on the works under the above noted permits.

The report shows Well No. 1 in SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 34 produced 5.52 c.f.s.; Well No. 2 in SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 35 produced 5.20 c.f.s.; and Well No. 3 in NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 3 produced 3.12 c.f.s., a total of 13.84 c.f.s. to irrigate a total of 1122 acres in Secs. 33, 34, 35, T. 10 S., R. 21 E. and Secs. 3, 4, T. 11 S., R. 21 E., an average of 0.615 miner's inch per acre.

Our record of the permits show:

Permit No. G-22801, 6.4 c.f.s., P.D. wells No. 3 and 2 irrigate all the land
Permit No. G-22802, 6.4 c.f.s., P.D. well No. 1, irrigate all the land
Permit No. G-22803, 4.8 c.f.s., P.D. well No. 1, irrigate all the land
Permit No. G-26393, 5.6 c.f.s., P.D. well No. 1 and 3 irrigate Secs. 33 and SE $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 34
Permit No. G-26747, 4.8 c.f.s., P.D. 3 wells, irrigate NW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 3, NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 4

The certificates of water rights will be issued upon payment of the statutory fees, totaling \$93.00, upon advice as to what percentage of each well goes with each of the various permits, properly signed by each of the applicants, one copy for each permit.

continued - page 2

In case the property is operated as a unit, possibly the best method would be to amend the points of diversion to the three wells to irrigate all the land on each of the permits.

If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The well is drilled to a depth of 472', 20" dia., cased 73', 12" discharge, the water stands at 426' and is equipped with 350 hp motor. All irrigation is by gravity - there is no sprinkler system. This well will produce 340". It has not been tested, but it has been designed to produce that much. I (Lola B. Moorman) have 2 ditches. These are capable of carrying 200", then they taper to 100", then to 50". I (Laura Hale) have 3 ditches which are capable of carrying 200" each.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated, and the nature of an improvement which have been made as a direct result of said use.

Ans.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. This well was drilled by James Schomaker of Burley, Idaho.

22802

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. This is used for irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. We need all the water we are using on this land.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. We are the person to whom the permit was originally leased.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Development was started on this land when the permit was issued and we have continued with it ever since.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. See attached sheet

Permit No. G-22802

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is David Lindburg, I am 69 years old, I live at 1025 E. Franklin St., Boise, Idaho, I am a partially retired carpenter and my post office address is the same as above.

Ques. 2. Are you acquainted with Lola B. Moorman and Laura Viola Hale, the holders of Permit No. G-22802? How long have you known him and where does he reside?

Ans. I have known Laura Hale 15 years and know that she lives at 1618 Burton, Burley, Idaho. I have know Lola Moorman 15 years and know that she lives 13 mi. west of Burley.

Ques. 3. Have you read or heard read said Permit No. G-22802, and are you familiar with its provisions and conditions?

Ans. I am familiar with the above mentioned permit.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Lola Moorman's ditches will each carry 4.0 cfs. of water. she has two. Laura Hale's ditches will each carry 4.0 cfs. of water and she has three.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Accoring to my best estimate, the pump will discharge 6.8 cfs. of water. This has not been tested but it was designed to produce that much.

22802

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. for irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The soil is a light lava ash. All the water they are using now, they need.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have know this land for many years and have seen this development at various times since it was started.

Re: Permit No. G- 22802

Date: June 1, 1960

Lola B. Moorman

Mr. Harley M. McDowell
Boise, Idaho

Dear Mr. McDowell

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 22802 are due not later than August 11, 1960.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

Dear Sir:

This is to advise you that we have recently closed a loan for Soil and Water conservation purposes to Lola B. Moorman and Mark Moorman, her husband, of Murtaugh, Idaho. Mrs. Moorman is the holder of permit No. G-22802 which is involved in this loan.

We are requesting that you sign and return to this Office the extra copy of this letter which will be notification to us that you will notify us of any Application for Change in Permit which would be adverse to the security interests of Farmers Home Administration as the borrower agrees to obtain our written consent if any change is necessary.

Sincerely yours,

Fred L. Johnson
County Supervisor

The above letter has been placed in the file in connection with Permit Number G-22802 and we will notify you accordingly.

Dear Mr. Johnson:

Permit G-22802 in the name of (Mrs.) Lola Beth Moorman and Laura Viola Hale, assignee of 100 miner's inches of said permit requires completion of works and beneficial use proofs on or before August 11, 1960. The time for such proofs was extended from June 3, 1957 as the Desert Land Entry No. 02900 was not allowed until August 11, 1955. Land to be irrigated was amended May 13, 1957 to E $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 33, S $\frac{1}{2}$ N $\frac{1}{2}$, S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 34; SW $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 35, Twp. 10 S., R $\frac{1}{2}$ E. 21 E. B. M., with no increase in the amount of water from 6.4 c.f.s. claimed in the original application

Certificate of completion of works and certificate and License of Water Right will be issued on completion of proofs on time as shown above. The amount of the certificate and license will depend upon the amount of land irrigated and the amount of water produced. The license will not be for more than one miner's inch for each acre irrigated.

Very truly yours,

GEO. N. CARTER

Dear Sirs:

We are in the process of writing a real estate loan for Lola Beth Moorman of Murtaugh, Idaho. The security for this loan involves a water permit number G-22802.

From the evidence our attorney had for issuance of loan closing instructions, he determined that said permit had expired on June 3, 1957. We have no evidence that the work on the well was completed and water applied to beneficial use.

In order to determine the soundness of our security, will you please advise if the permit has been cancelled or extended and the dates involved. Also will you please advise if the permit has been extended, that you will hear the proof.

We have contacted the Moormans and they advise they will be in Boise soon to help straighten out the matter. However, we must have your statement in writing.

We also would appreciate a statement of your opinion as to whether or not, providing the proper steps are fulfilled, the final certificate will be issued?

Sincerely yours,

Dear Mr. McDowell:

Enclosed is "Application for Amendment" together with two photo-copies of said amendment to Permit No. G-22802 which has changed the land list as described in the original permit to read as follows: E $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 33; S $\frac{1}{2}$ N $\frac{1}{2}$, S $\frac{1}{2}$ Section 34; SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 35, Township 10 South, Range 21 East, B.M.

This amendment has been approved by the State Reclamation Engineer and recorded in the Department of Reclamation in Book 81 of Permits at Page 22802. It should now be attached to the original permit to which it refers and of which it becomes a part.

Also enclosed is departmental receipt No. G-2610 for \$1.00 issued as receipt of payment of the fee for the photo-copies.

Idaho

Dear Mr. Moorman:

Reference is made to your letter of April 28, 1955, in regard to the above numbered Permits in the name of Mark Edgar Moorman, Lola Beth Moorman, and Celia Pauline Kunsau all of which were issued in connection with Desert Land Entries.

Since special land use permits were not granted until March 21, 1955, there will be no loss of priority if well drilling is commenced right away.

An Extension can be allowed for making proof of Completion of Works and Beneficial Use equal to the time the Desert Land Entries were pending.

It will be necessary for the Applicants to notify this department when the Desert Land Entries are allowed and apply for such an Extension.

In 1952 Celia Pauline Kunau, Mark Edgar Moorman, and Lola Beth Moorman made applications for Desert Land Entries Idaho 02898, 02899 and 02900 respectively. These applications were not allowed but suspended and on March 21st, 1955 a Special Land Use Permit was granted to the above applicants. And these applicants expect to start drilling an irrigation well within the next several weeks. The above named applicants, also, applied for permits to appropriate subterranean waters of the State on or about ~~Aug~~ ~~1952~~ June 3, 1952. Permit of Lola Beth Moorman is G-22802.

June

What we would like to know is if well drilling is started right away and continued as required, will date of priority be June 3, 1952. These people were not permitted to start drilling until they got their Special Land Use Permit March 21, 1955.
