Ques. 1. State your name, residence, occupation and postoffice address.

Ans. R. O. Hatch, Burley, Idaho

Farmer and Superintendent, Amalgamated Sugar Company

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-22796 - May 23, 1952

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean well. Point of diversion SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 33, Township

10 South Range 22, E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Diversion works consist of ditches which are capable of conveying 1.5 second feet of water from well to place of use. The well is 620 feet deep - 320 feet to water. Size of casing is 12-inch. Casing goes down 380 feet. Fairbanks-Morse pump in said well with 75 horsepower capacity. The discharge of the pump is 1.3 second feet of water and was measured by use of a weir.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation and is used to irrigate the East Half of the Southeast Quarter of Section 33, Township 10 South, Range 22 E.B.M. The number of acres that are irrigated is 76. The land was reclaimed from desert land and has now been placed in cultivation. A well has been drilled on the land and a pump installed in the said well. The land has been leveled for cultivation.

22796

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. The minimum amount of water required is 1.5 second feet.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water has been used for two cropping seasons and has been used to irrigate the land above described.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There is no other water available for use for irrigation of the lands described herein other than the water from the wells.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. A. Lovell Holyoak, age 55; residence, Burley, Cassia County, Idaho;
occupation, farmer.

Ques. 2. Are you acquainted with R. O. Hatch, the
holder of Permit No. G-22796? How long have you known him and where does
he reside?

Ans. I have known him for 18 years and he resides at Burley, Cassia County, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-22796, and are you
familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Deep subterranean well. Place of diversion, the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section
33, Township 10 South, Range 22, E.B.M. Diversion works are ditches
for carrying water from point of diversion to place of use.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. Diversion works will safely carry 1.5 second feet of water. I have seen
works convey 1.3 second feet of water.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation and is used to irrigate 76 acres of land.
The improvements on the land consist of reclaiming the land from desert
land to cultivated land, drilling a well at a cost of \$6300.00 and leveling
land at a cost of \$900.00.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land reclaimed is sandy loam soil and 1.6 second feet of water is
needed for the profitable cultivation of said land.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have operated the farm for a period of two years and have used the
water from the well in the production of crops during that period of
time.
