Dear Mr. Jenkins:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in The Burley Herald, all submitted in proof of completion of works and beneficial use on Permit No. G-22687.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer from this department will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Mr. Jenks:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-22687. The proofs are to be made at 11:00 o'clock A.M. on the 24th day of August, 1959, before Kenneth Bell - 634-5th St., Rupert, Idaho, Notary Public.

As of this date we have mailed the Notice to the Burley Herald Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Dear Mr. Jenks:

Enclosed are the two Form 36 and Form 11 you submitted in connection with your proofs for Permit No. G-22687 and two blank Form 36.

Under No. 5 you should show the legal description of the land you are irrigating from the well in this permit.

The date of making your proofs will not need to be changed if you promptly return the corrected forms and also Form 11.

Very truly yours,

GEO. H. CARTER

RE: Permit No. G-22687

Date May 1, 1959

Mr. Orvin C. Jenks
Route #2
Rupert, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-22687 are due not later than July 28, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper will will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Dear Sir:

I received notice for proof of completion of works and application of water under my permit No. G-22687. However my Desert Land Entry was not allowed for over two years after I received my water permit. I am in the process of developing my water, but because of the delay in my Desert Land Entry allowance, it is not complete at this time.

I understand it is possible under these conditions to get an extension of time for completion of this work. If this is possible I would like to request an extension of time to complete this work.

Very Truly Yours,

Brown C. Jenkins
