RE: Permit No. G-22477

Mr. C. P. Parrish
144 Walnut Street
Twin Falls, Idaho

Dear Mr. Parrish:

The Report of our Field Engineer on examination for Completion of Works and Beneficial Use on your Permit No. G-22477 shows that your well in the NE¹NE¹ Section 8, Township 11 South, Range 22 East, B. M., has been used to irrigate 300 acres in the NE¹ Section 8, and the NW¹ Section 9, same Township and Range.

A Certificate of Completion of Works and License can therefore be issued for 4.9 second feet applied for upon receipt of the statutory fees. These amount to \$5.00 for Certificate of Completion of Works and \$16.00 License fee, the latter being at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

Dear Mr. Nielson:

Question 7 of the depositions of the two witnesses in proof of completion of works and beneficial use on Permit No. G-22477 of C. P. Parrish, still does not completely describe the land included in the Permit and in the published notice and also Mr. Parrish's own deposition; in that they only include the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 9 instead of the entire NW $\frac{1}{4}$.

However, we have placed the depositions on file together with the affidavit of publication in the Burley Herald-Bulletin awaiting inspection by our field engineer, at which time, his report will show the number of acres that have been irrigated.

We cannot tell just when this examination will be made but our field engineer will try and contact Mr. Parrish at the time he makes the examination in order that arrangements may be made to show him over the grounds.

If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Diversion works consist of ditches and pipelines. The diversion works will carry 7 second feet of water. The well is 413 ft. deep, the 16 inch casing goes down to 383 ft. It is 378 ft. to the water; the amount of water the well will discharge is 4.9 second feet. It was measured by the use of a pressure gage. The pump installed is a Layne-Bowler Pump with 250 H. P. capacity.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation and is used to irrigate the NE $\frac{1}{4}$ of Section 8, and the NW $\frac{1}{4}$ of Section 9, Township 11 S., Range 22, E., B.M. The land has been reclaimed from desert land and has been cultivated. All of the land described herein can be cultivated. The improvements made hereon is a well costing \$8,000.00, pump placed in well costing \$13,500.00, planing and leveling of the land costing \$4,000.00 and a pipeline costing \$3,000.00. All of the land described herein can be irrigated except the 10 acres in the North $\frac{1}{2}$ of the NE $\frac{1}{4}$ and 10 acres in the W $\frac{1}{2}$ of the NE $\frac{1}{4}$ of Section 8, Twp. 11 S., Rge 22, E., B.M.

22477

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Minimum amount of water required is 5 second feet.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water was first used on April, 1954 and has been used during the cropping season of 1954 from that date. That the 4.9 second feet of water has been diverted.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There is no other water that may be used on the above described property except the water from the subterranean well.

RE: Permit No G-22477

Messrs. Nielson & Nielson
Attorneys at Law
Burley, Idaho

ATTENTION: Mr. Norman H. Nielson

Dear Mr. Nielson:

We acknowledge receipt of your letter of September 27 enclosing depositions of C. P. Parrish and two witnesses also affidavit of publication in the Burley Herald-Bulletin all submitted in proof of completion of works and beneficial use on Permit No. G-22477.

None of these depositions state whether or not a pump has been installed and we return same in order that this information may be given under Question 5 of the deposition of the holder and Question 4 of the two witnesses.

If the pump has been installed, the depositions should give the kind and power.

Also the description of the land which has been irrigated as given in Question 6 of the deposition of the holder describes the NW $\frac{1}{4}$ of Section 8 and the NW $\frac{1}{4}$ of Section 9, which we think is in error as the Permit as well as the published notice describes the NE $\frac{1}{4}$ of Section 8 and NW $\frac{1}{4}$ of Section 9.

Dear Mr. Parrish:

We have your letter of May 4, 1953, requesting extension of time for completion of works and beneficial use on Permit No. G-22477, for the reason that you were not allowed by the Bureau of Land Management to go on the ground until last month.

Since your application only requested two years in which to make these proofs, or until November 24, 1953, a 3 years extension can be allowed, or until November 24, 1956, and we enclose a form of application for such extension herein.

Dear Mr. Kulp:

I am writing in regards to subterranean water permit number G-22477, recorded in Book 80. Location of well is in the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 8, Township 11S, Range 22E, B.M., County of Cassia.

I would appreciate a time extension on this permit. Approval from the Bureau of Land Management to go on this ground was not granted me until this past month. This does not leave me time enough to comply with terms of your permit. I expect to drill the well in August of 1953, and grow crops in 1954.
