We represent a purchaser of real property described as South Half of Section 12, Township 12 South, Range 21 East, Boise Meridian, Cassia County, Idaho. We wish to verify the water rights for the property and would appreciate your checking your records. We understand there is a subterranean water supply probably in the names of Ralph and Ray Assendrup. We are interested in knowing the date of priority, volume of water and whether it is a permit or a license.

We will appreciate any information that you can give us.

Yours very truly,

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Ethel M. Assendrup; 238-8 Ave. E., Twin Falls, Idaho; occupation, housewife; postoffice address, 238-8th Ave. E., Twin Falls, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual. A. H. Assendrup is acting in my behalf under Power of Attorney which is attached hereto.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-22371; date of permit 9/14/51; date of priority, 9/13/51.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of the water is SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 12, T12S-R21E from subterranean source.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. All irrigation is by gravity and the ditch is approx. 2 miles long and will convey over 200" of water in my private ditch. The well was drilled to a depth of 1100' and raises here and draws down and pumps at about 300'. This is a 16" hole and is cased approx. 20-30'. It has a Layne-Bender turbine type pump which discharges 190" of water. I have never measured this myself but the pump company designed it for this amount and they have measured it out by pressure method and that was the nearest test they got.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation of 40 acres in each subdivision of S $\frac{1}{4}$, Section 12, T12S-R21E except the NE $\frac{1}{4}$ SE $\frac{1}{4}$ which has only 35 irrigable acres. I have spent over \$30,000 in this development and all improvements have been made as a direct result of said use.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Well driller was Ray Assendrup, Murtaugh, Idaho.

G-22371

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I need at least this much water and could use more. An inch to the acre is really necessary for this land.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Original permittee.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I started this development right after the desert entry was allowed in 1956 and have irrigated all of this land. This will be the 5th year of irrigation coming up.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None.

Permit No. G-22371

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. C. W. Durling; age, 72; residence, Twin Falls, Idaho; occupation, retired;
postoffice address, 798 Locust, Twin Falls, Idaho.

Ques. 2. Are you acquainted with Ethel M. Assendrup, the
holder of Permit No. G-22371? How long have you known him and where does
he reside?

Ans. I have known her for 25 years and know that she lives in
Twin Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-22371, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. A well is drilled in SE 1/4, Sec. 12, T12S-R21E to a depth of about 1100'.
This is an 16" hole and is cased for about 20 or 30'. Water is conveyed to the
land through private ditches.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. I think the works will safely convey 190"-200" of water. I have seen
other water measured and land irrigated and this is my estimate.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I estimate the pump has delivered from 190" - 200" . This is an estimate
from past experience.

G-22371

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water is used for irrigation. All of the S $\frac{1}{2}$, Sec. 12, T12S-R21E is irrigated except about 5 acres in NE $\frac{1}{4}$ SE $\frac{1}{4}$. There is no natural meadow land. The improvements were made as a direct result of said use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is a volcanic ash soil. She needs all the water she has here for profitable irrigation and could use more.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None at all.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been out there two or three times during the farming season every year since this was broken up except in 1960. I am very familiar with it and know the entire area and that it has been irrigated and will produce this and she can run it through the ditches as stated above.

Ans. ~~Irrigation purposes.~~

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. ~~The land is a volcanic soil. This is good rowcrop land when it has water and it needs about 1st/acre to raise most rowcrops.~~

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. ~~None~~

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. ~~I have seen this land prior to the time it was broken up and have seen it several times each year since then. I am out in that area frequently buying potatoes.~~

Dear Mr. McDowell:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-22371, in the name of Ethel M. Assendrup. Final Proof is to be made before you, as Notary on the 7th day of April, 1961, ~~1959~~, at 10:00 o'clock A.M., at 618 Idaho Bldg., Boise, Idaho.

As of this date we have mailed the Notice to the Herald with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Re: Permit No. G- 22371 - Ethel M. Assendrup

Date: Feb. 1, 1961

Harley M. McDowell
Boise, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G- 22371 are due not later
than April 23, 1961.

Before these proofs can be made, the statutory requirement is that a notice of
your intention of proof be published once a week for four consecutive weeks in
a newspaper within the county in which the land is located. In completing the
Notice of proof for publication, the information should be taken from your Per-
mit, including any amendments made in connection with a change of point of diver-
sion or land list which has been recorded in this department. If changes have
been made and no amendments are on record, we advise that you request a form
for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to
this department at least forty (40) days before the above mentioned date,
(allowing for four weeks publication). Please give the name of the town, the
address of the place where the depositions will be executed, and, the name of
notary public before whom you will appear to make the depositions of proof
(this may be at any place convenient for you and your two witnesses), the
quantity of water filed; for what purpose it is used; the point of, or points of
diversion; and the location of use or the lands which are irrigated -- all by
legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice
published in the designated county newspaper at your expense. This is to be
returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms
for the depositions of holder and two disinterested witnesses. It is important
that the depositions be executed at the time, on the date set, at the place
named and before the notary public, as advertised in the publication notice.

Very truly yours,
