CHANGE IN POINT OF DIVERSION

That affiant desires to change the point of diversion of said waters from the point above described to a point located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 3; NW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 4; SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 5; SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 8, Twp. 12 S., Rge. 22 E.B.M., through private ditches;

That he intends to divert and convey said.....second feet of water to the tract of land last above described in the following manner and as per map accompanying this application:

Note—If this water right has heretofore been carried jointly in a ditch with other water, affiant should secure written consent of other owners or users to removal from its original carrier and file such consent with this affidavit.

CHANGE IN POINT OF DIVERSION

That affiant desires to change the point of diversion of said waters from the point above described to a point located in SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 4....., Township 12....., Range 22....., and thereafter conduct same to the above described land through the already existing.....ditch, as per map appended.

That his reasons for desiring to make such change are, as follows:

Existing wells not producing sufficient water on account of lowering of ground water table.

Petitioner asserts that no one will be injured by such transfer, or change in point of diversion, and that the change will be made at petitioner's own risk.

WHEREFORE, Affiant and Petitioner prays that the State Reclamation Engineer of the State of Idaho issue to him the proper certificate authorizing such change in point of diversion and/or place of use, in accordance with the provisions of Sections 42-108 and 42-222 of the Idaho Code.

Dear Mr. Higginson:

Mr. Whiteley and I wish to thank you for your consideration of our problems this morning while we were in Boise.

Pursuant to our agreement I am sending a claim of water right filed by Mr. Whiteley together with a check in the sum of \$10.00 for filing the same.

I am also sending the number of acres that are irrigated on the various tracts on licensed water as follows:

Howard Adams Purchase; Section 7, 111.1 acres,
Section 8, 606.3 acres

Gilbert Purchase; Section 5, 69.5 acres, Section 32,
290.1 acres.

Church and Bean Purchase; Section 4 East of tracks
36.6 acres, Section 3, East of tracks, 252.4 acres,
Section 34, West of tracks, 185.1 acres, Section 34,
East of tracks, 229.6 acres, and there are other lands
irrigated by sump and waste water in Section 34 and
27, but not directly from the permits.

Mr. X Purchase; Section 4, West of tracks, 558.1 acres,

Mr. Y Purchase; Section 5, 516.2 acres.

In rearranging these permits we would like to have the top priority retained on Sections 4 and 5 if at all possible.

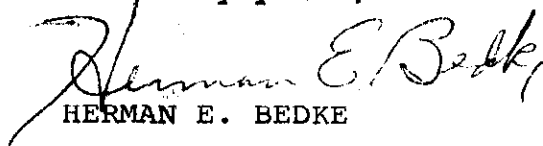

We trust that this is sufficient information to get this started, if you need any further information please advise.

Oakley, Idaho

Dear Mr. Whiteley:

We were recently working in the area between Oakley and Burley and had the opportunity to note the wells that are being used, and the irrigation that was taking place in the area. We noted a well that was being pumped on Kenyon Farms and we felt our location was in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 4, T. 12 S., R. 22 E., B.M. We were aware that the well had been drilled since the area was withdrawn from ground water appropriation in January of 1961 so we checked to see the nature of the water right that we had on file concerning it. We found that Transfer No. 280 had been filed in January of 1966 which allows for the drilling of a well in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of the above described section.

We felt that it was likely that the well we observed was drilled under the above numbered approved transfer application although the description of the point of diversion in the transfer application does not agree with the location we noted in the field.

We are writing to verify the water right issued with the well. It is entirely possible that we may have mislocated the position in the field. However, if the well is located as we have described it and the water right for it is covered under Transfer No. 280 we would appreciate your advising us of the fact so that the transfer application can be corrected to show the proper location.

Very truly yours, .

Dear Mr. Whiteley:

Enclosed is a form to apply for transfer of point of diversion under your various water licenses.

Check the information shown, correct as necessary, complete the blank spaces and return to this office.

Obtain the Affidavit of Publication after the second publication in the Burley paper and file in this office with the \$1.00 fee.

You will be notified if there is a valid protest in regard to the proposed change and a hearing will be set, otherwise, the transfer will probably be approved.

represents to the State Reclamation Engineer of the State of Idaho;

That ~~she~~ is (~~are~~) the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-22428.

That the point^{are}sof diversion ~~is~~ described in said permit as being located ;
in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 8, Township 12 South, Range 22 EBM.

That she now requests that the pointsof diversion be changed to a point
located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 8, Township 12 South, Range 22 EBM

That the reason for desiring to make such change is as follows:

A better location in relation to the land to be irrigated under said permit.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Re: Permit No. G-22428
Elna S. Campbell

Geo. N. Carter
State Reclamation Engineer

Dear Mr. Carter:

I would like information concerning the above permit. It applies to a well and land previously filed on by Mrs. Campbell and now a part of K.F.I.. The permit as first approved on Oct. 30, 1951 was for two deep wells, one in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and one in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 8, Twp. 12 S. Rge. 22 EBM. On Oct. 28, 1955 Mrs. Campbell was granted an extension of time for making proof of completion of works and beneficial use to Oct. 30, 1956. Then according to correspondence I have here, the Notice of Completion of Works and Beneficial Use Proof were published in the Burley Herald Bulletin in Sept. and Oct. of 1956, after which I assume the depositions were executed before Mr. A. H. Nielson and sent to your office. Then on June 13, 1957 Mrs. Campbell received an amendment to the permit requesting that the list of lands to be irrigated be changed to read as follows; the N $\frac{1}{2}$ of Sec. 8., Twp. 12 S., Rge. 22 EBM.. I don't understand why this amendment was necessary since the $\frac{1}{2}$ section to be irrigated described in the original permit and the amendment appear to be one and the same. However the plat on the original permit shows the proposed wells to be drilled along the north boundry of the $\frac{1}{2}$ section. In order to gravity irrigate the half section the water must flow from south to north following the natural slope of the land. The one well that was drilled was located along the south boundry of the $\frac{1}{2}$ section. This change of location of the well was noted in your office and pointed out in a letter to Mr. Nielson on Sept. 13, 1957, wherein you asked that Mrs. Campbell apply for an amendment specifying which subdivision the well is located in. Upon receipt of the amendment and the necessary fees Mrs. Campbell was to receive the Certificate for Completion of Works and the License. I am enclosing the application for amendment Mrs. Campbell was to send and assume this is the present status of the above permit. The well is located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 8, Twp. 12 S., Rge. 22 EBM..

If during the lapsed time something else is required, please advise me. Also let me know what statutory fees are now due.

Please be advised that I located the records of permit No. G-22428 and rechecked the location of the well after I had written you Jan. 15, 1960. Which explains my reason for asking you at that time if a permit was ever applied for by K.F.I. in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 8, Twp. 12 S. Rge. 22 EBM.

Thank you for your assistance in this matter.

Very truly yours,

Reed Whiteley

ATTENTION: Mr. A. H. Nielson

Dear Mr. Nielson:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-22428, Elan S. Campbell, shows that his well is located near the center of the $\frac{1}{2}$ of Section 8, Township 12 South, Range 22 East, B.M. and is capable of conveying 278 miner's inches (5.56 c.f.s.) of water for irrigation of 320 acres. The record of the permit shows the wells (proposed) located in the $\text{NW}\frac{1}{4}\text{NW}\frac{1}{4}$ and $\text{NW}\frac{1}{4}\text{NE}\frac{1}{4}$ of Section 8, therefore, it is necessary that it be amended. We have partially prepared an application for amendment (enclosed) and ask that you complete it. Please specify which subdivision the well is located in--either the $\text{SE}\frac{1}{4}\text{NW}\frac{1}{4}$ or the $\text{SW}\frac{1}{4}\text{NW}\frac{1}{4}$ of Section 8.

Upon receipt of the amendment, mentioned above, and the statutory fees, total of \$21.00, we will issue to Mr. Campbell the Certificate of Completion of Works (for which the fee is five dollars) and the License (sixteen dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of October 19, 1951, to his use of 5.56 second feet of subterranean water with the point of diversion as amended, for irrigation of 320 acres in the $\text{N}\frac{1}{2}$ of Section 8, Township 12 South, Range 22 East, B.M.

To Permit to appropriate the Public Waters
of the State of Idaho, No. G-22428

RECEIVED
JUN 13 1957
Department of Reclamation

Comes now Elna S. Campbell, and represents to the State
Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of
Idaho, No. G-2428, and requests that the list of lands to be irrigated, as described in said
permit, be changed to read as follows:

1st of Sec. 8., Twp. 12 S., Rge. 22 E., P.M.

....., making a total of 320 acres.

That an additional amount of water is not asked for, and that the rights of others will not be ad-
versely affected by such change.

Signed at Burley, Idaho, this 11th day of June, 1957
Elna S. Campbell

Date of receipt at office of Department of Reclamation June 13, 1957

APPROVAL OF STATE RECLAMATION ENGINEER

I, MARK R. KULP, State Reclamation Engineer of the State of Idaho, hereby approve
the above and foregoing application for amendment to Permit to appropriate the Public Waters of
the State of Idaho, No. G-22428. This approval constitutes a new permit and is issued as an
amendment to the original permit, to which it refers, and of which it becomes a part, and said appli-
cation is approved only insofar as the rights of others will not be adversely affected thereby.

ATTENTION: Mr. A. H. Nielson

Dear Mr. Nielson:

We acknowledge receipt of the deposition of the holder of the Permit and two witnesses, also affidavit of publication in The Burley Herald all submitted in proof of completion of works and beneficial use on Permit No. G-22428.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Campbell at the time he makes the examination so that arrangements may be made to show him over the grounds.

However, our records disclose that recording of Permit No. G-22428 shows that you filed on the E $\frac{1}{2}$ of Sec. 8., Twp. 12 S., Rge. 22 E., R.M. and we are convinced by all the records of recording that Permit No. G-22428 should have been on the N $\frac{1}{2}$ of Sec. 8., Twp 12 S., Rge. 22 E., R.M.

We are inclosing a Form for amendment made out by the Department changing the land list from the E $\frac{1}{2}$ of Sec. 8 to the N $\frac{1}{2}$ of Sec. 8.

We are unable to determine how this error was made. However, in checking with the Bureau of Land Management they say that they have issued a Patent to you for the N $\frac{1}{2}$ of Sec. 8.

Before a License can be issued we will require this Amendment for our records.

Very truly yours,

MARK R. KULP

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Elna S. Campbell, Route 2, Burley, Cassia County, Idaho, housewife.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. acting for myself alone.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-22428, October 30th, 1951, Date of priority, October 30th, 1951.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Water is supplied by a well located in the Northwest Quarter of the Northwest Quarter of Sec. 8, Township 12 South, Range 22, E. B. M. Said well being located near the line between the Northwest Quarter and the Northeast Quarter of said Northwest Quarter.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The water from the well is pumped into a pipe and transported to the lands to be irrigated. The pump is capable of producing and the ditches are capable of conveying 6.4 cubic feet per second of water. The well is 616 feet deep. There is approximately 60 feet of 20" casing in the hole. It is 360 feet to the water. A pump is used. The water has been measured. There is not any sprinkling system used.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. William B. Thomas, 29 years of age, farmer, Route 2, Burley, Cassia County, Idaho

Ques. 2. Are you acquainted with Elna S. Campbell, the holder of Permit No. G-22428? How long have you known him and where does he reside?

Ans. I have known Elna S. Campbell very well for five years. Burley, Idaho

Ques. 3. Have you read or heard read said Permit No. G-22428, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water is obtained from a well on the border between the Northwest Quarter and the Northeast Quarter of the Northwest Quarter of Section 8, Township 12 South, Range 22, E. B. M. The water is pumped from the well into a pipe and then conveyed to the entire 320 acres of land by open ditches and by pipes.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I have seen 6.4 cubic feet of water pumped from the well and safely conveyed upon the said lands all during the year 1956.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

M. and the entire 320 acres was sown to crops during the year 1956 and crops harvested therefrom. All of the 320 acres cultivated. There is no natural meadow and improvements have been placed consisting of a well, pump, fences, ditches, drain ditches, piping and roads, all as a result of the well.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. -----

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. It would take approximately one inch to the acre to properly reclaim and cultivate the above described premises.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I do not have any interest in the above works or in the permit or the land.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been on the place dozens of times where the body of water is being used and during the entire year 1956 while crops were being matured and I saw water from the well used to irrigate the said crops.

Gentlemen:

The undersigned, Elna S. Campbell, Box J, Rupert, Idaho, and the applicant for beneficial use under permit No. G-22428, requests an extension of time later than the date set for proof, October 30, 1955.

This application is made for the reason that a well has been dug in compliance with said application, to a depth of 520 feet. Casing is down 170 feet, but to date water has not been found sufficient for irrigation purposes. Work is continuing on the well and this applicant requests an extension of time.

Respectfully Submitted,
