Re: Permit No. G-22192

Mr. Theodore Sturgill
Route # 1
Kimberly, Idaho

Dear Mr. Sturgill:

We have the report made by our field engineer of the inspection of proof of completion of works and application of water to beneficial use under Permit No. G-22192, which shows that you have four wells located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 34, which produce a total of 70 $\frac{3}{4}$ miner's inches (1.42 c.f.s.) for irrigation of 275 acres. The point of diversion as amended and described on the record of the original permit shows the point of diversion in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 34, it is, therefore, necessary that you complete, sign and return the enclosed application for amendment.

Upon receipt of the amendment, mentioned above, and the statutory fee of \$21.00, we will issue the Certificate of Completion of Works (\$5.00) and the License and Certificate of Water Right (\$16.00—based at the rate of \$2.00 for each 40-acre subdivision) which will confirm the right with a priority of June 18, 1951, to your use of 1.42 second feet of the water from subterranean flow with the points of diversion in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 34, for irrigation of 275 acres of the W $\frac{1}{2}$ of Section 34, Township 11 South, Range 20 East, B.M.

Dear Mr. Sturgill:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Times-News, all submitted in proof of completion of works and beneficial use on Permit No. G-22192.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Re: Permit NO. G 22192

Gentleman :

I am herewith enclosing proof on the above permit taken by me on the 14th day of June, 1956. I am not familiar with what is required but will call your attention to the fact that the map with the original permit application does not show the correct location of No. 2 Well which is located in the north part of the NE $\frac{1}{4}$ NW $\frac{1}{4}$ 34-11-20. Also the points of diversion of all of the water as shown in the publication is not correct as to part of the water. Whether it makes any difference I do not know but thought I would call the matter to your attention.

Yours very truly,

Edward Babcock

Dear Sir:

In reply to your letter of Nov
the 7-1952 I wish to state that ~~is~~
what I have in mind, is to drill
a well in the N.E. $\frac{1}{4}$ of Sec 34 instead
of in the S.W. $\frac{1}{4}$ of Sec 34.

I think my chances are better for
a good well in that location.

I have completed one well in
the S.W. $\frac{1}{4}$ of Sec 34 and it will
only pump approximately 30 inches
of water.

That is my main reason for
wanting to change my location.

Very truly yours,

Theodore Sturgill

RE: Permit No. 22192

Mr. Theodore Sturgill

Dear Mr. Sturgill:

In reply to your letter of November 3, 1952, addressed to the State Land Department, inquiring as to whether or not it is necessary to file again in order to drill another well in the NE $\frac{1}{4}$ of Section 34, Township 11 South, Range 20 East, B.M.

The records of this department show that your Permit No. 22192 calls for 4 second feet of water from four wells, all located in the SW $\frac{1}{4}$ of Section 34, for use on the W $\frac{1}{2}$ of said section.

If what you have in mind is drilling another well in a different location to take the place of one of the four originally described and for use on the same land, it will not be necessary to file a new application, but the present Permit No. 22192 may be amended to include the additional well.

If that is what you have in mind, please let us know, and we shall be glad to send you the necessary form of application for amendment.

Very truly yours,

Dear Sirs:

Embassy India
Nov 3 - 1952.

I would like to know if it's
necessary to file again in order
that I might drill another well to
be located in the N. ~~W.~~^{E.} corner of
the $\frac{1}{2}$ Sec. 34 - T.W.P. 11.5-R 20-E.

Also what steps are necessary to
take about the well I drilled in
the S.W. corner of the $\frac{1}{2}$ Sec 34-11.5-20E.
It pumps about 30 inches of water.

Yours Truly,

Theodore A. McGill.

Dear Mr. Sturgill:

We enclose Permit No. 22192, together with
Departmental Receipt No. 23471 for the \$5.75 filing fee.

Your application states that you will need one
or more years to make the statutory proofs, so we have
allowed two years or until June 18, 1953.

Since this Permit is to take the place of Per-
mit No. 19801, we enclose a form of Relinquishment which
we will ask you to execute for said Permit and return
in the enclosed envelope.

Dear Mr. Sturgill:

We regret that it is necessary to again return your Application for Permit to appropriate underground water for the following reasons:

Question 3 should indicate definitely the number of wells you expect to drill and if there is not room under Question 4 to give the various locations, this could be stated under "Remarks".

Question 4 gives the location in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 34, but if the four "x" marks on the sketch map are supposed to indicate the location of the wells, it is entirely different.

Question 12 describes the land to be irrigated as 320 acres in the NW $\frac{1}{4}$ and SW $\frac{1}{4}$ of Section 34, but the sketch map has cross-hatched the S $\frac{1}{2}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ and SE $\frac{1}{4}$ of this Section. Please advise which is correct, Question 12 or the sketch map.

Dear Mr. Sturgill:

We acknowledge receipt of your application for Permit to appropriate underground water, accompanied by your check for the \$5.75 filing fee.

We return your application herewith, with the request that you answer Questions 10 and 13.

We enclose two additional forms of sketch map, with the request that you indicate thereon the location of your well and also the land to be irrigated. The land to be irrigated should be colored or cross-hatched and both copies of the sketch map should be returned to this Department.

Very truly yours,
