Dear Sir:

We are sending this letter and application for permit to you as you are more acquainted with the above matter than anyone else, and in compliance with your letter dated November 5, 1956, we are sending an application signed by J. T. Robinson for an additional 210 inches of water from the same well described in permit number 21591. J. T. Robinson is now the owner of all the lands of Fred E. Bedke, together with other lands where water from the above mentioned well has been used and where water from the new application will be used.

We are sending our check for \$6.00 to pay for the filing of said application. If there are any questions regarding this new application, we would be pleased to give you what additional information you require, so that we can get the matter settled.

As requested in your letter of November 5, 1956, and on behalf of Fred E. Bedke, we are sending \$15.00 in the sum of a check.

We are sending to Mr. McDowell in Boise a Relinquishment of permit number G-24158.

RE: Permit No. 21591

Mr. Fred E. Bedke:
Oakley, Idaho

Dear Mr. Bedke:

I have checked carefully regarding the above numbered permit since returning to the office.

As soon as fees in an amount of \$5.00 for Completion of Work and \$10.00 for Beneficial Use proofs are received, it can be licensed in an amount of 90 inches for use on the NE 1/4, S1/4 of Section 4 and NE 1/4 of Section 9, Township 13 South, Range 22 East B.M. with point of diversion in NW 1/4 of Section 9, Township 13 South, Range 22 East. B.M., with a priority of July 6, 1930.

I do not find any other Permit on this well though I thought you told me there was one.

In order to get License on the balance of the output from this well it will be necessary to make a new filing.

Dear Mr. Bedke:

State law requires that a field inspection be made on any Permit being brought to license within the State of Idaho.

I intend to make inspection in connection with your two Permits above captioned on August 14, 1956, in the afternoon.

Please be prepared to accompany me on the inspection.

I will drive to the place where the well is located if I do not contact you before the time of our meeting.

I will be at the Frontier Motel in Rupert, Idaho, the evening before if you wish to contact me.

Very truly yours,

Proof of Application of Water to Beneficial Use

and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is Fred Bedke, residence - 5 miles east of Oakley, Idaho, occupation is farming and Post Office address - Oakley, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting as individual in my own behalf

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit # 21591 Date of Permit July 19th 1950 Date of Priority which I wish to establish is July 6th 1950

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water is a drilled well to raise subterranean water and this well is located in the SW corner of the NW¹/₄ NE¹/₄ Sec. 9 T 13 S R 22 E. ~~XXXXXXXXXX~~ consist of a drilled well to a depth of 327' with a 14" casing. This is cased almost the entire depth of the well. It is equipped with a turban type pump & Motor 30 horsepower and this well will discharge

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure. My works consist of a drilled

Ans. well to a depth of 327' with a 14" casing. This is cased almost the entire depth of the well. It is equipped with a turban type pump & motor 30 horsepower and this well will discharge and the works are capable of producing and conveying to the place of use 50 miners inches. This discharge of 50 miners inches was measured by U.S. Geological Survey and also I had Weir put in the ditch and measured. All distribution is by gravity. There is no sprinkler system here. This water is all used for irrigation and a small amount for domestic use is stored in a cistern at the dwelling which is right at the well site.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. following described land. NE¹/₄ SE¹/₄, S¹/₂ SE¹/₄, Sec 4: N¹/₂ NE¹/₄, Sec 9 T 13 S R 22 E BM The above area described is irrigable and I cover just as much of it as possible with this water. I can cover 50 acres here on row crop, when I use hay & grain I can get 60 or 70 acres irrigated with this amount of water, but it is distributed over the entire area and used in connection with permit #G-24158 to cover all of the area. None of the land is natural meadow. It is all cultivated. The agricultural diversified row crop land, hay and grain. All improvements have been made as a direct result of this use. My well, pump & motor cost \$1200.00. Fencing \$1000.00. Clearing, leveling and ditches were \$9250.00. All improvements were made as a direct result of this use.

21591

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. All this water is used for irrigation and domestic. None is used for any other purpose.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Requires even more water than I have available from this source to properly irrigate the land and no less used to any good.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the original applicant for this permit.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. This was first used for irrigation in 1952 and we have used the full amount for irrigation in 1952- 53 - 54 and we have a crop planted and I am using this in 1955, to produce an agricultural crop. All the water was diverted as set out under the above permit and on the lands described in #6.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other use was made under a permit owned or controlled by me until 1954 when the well drilled and described on Proof was set out in #24158 has been also applied to this lands. This permit has works and a water capacity for 725" of water that is also applied to the land Described in #6 as well as another 40 acres.

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Margaret Wells, Age 33, Residence, 6 miles East of Oakley, Idaho.

Occupation is housewife. P. O. Address is Oakley, Idaho

Ques. 2. Are you acquainted with Fred Bedke, the holder of Permit No. 21591? How long have you known him and where does he reside?

Ans. 15 years. He resides 5 miles East of Oakley, Idaho

Ques. 3. Have you read or heard read said Permit No. 21591, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Mr. Bedke drilled a well and the place of diversion is the SW corner of the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 9 T. 13 S. R. 22 E. B. M. The works are 327' deep hole with 14" casing.

It has a 30 horsepower turban type pump and motor and gravity ditches. ~~The works are~~

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate the pump will throw 50 miners inches. This is estimated by observation when the water is conveyed in the irrigation ditch. My experience from irrigating.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the water in the ditches and by experience in farming I know about what it takes to measure an acre and if the ditch is used as an estimate here, I think it would be 50 inches.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. ~~Used for irrigation and used for agricultural row crop, hay and grain and there is no natural meadow land on this land for use and all the improvements are the direct result of this irrigation, investment and improvement.~~

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. ~~No power~~

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. ~~The soil is of deep clay loam, capable of producing diversified row crop. It is very good farm land and in my estimation it could not be properly cultivated with less water.~~

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. ~~No.~~

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. ~~I travel to & from Burley almost every week and this is close to the highway and I have seen the land and water system since it was first developed. I know that the water has been put to beneficial use on the land described in this permit.~~

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate the pump will throw 50 miners inches. This is estimated by my observation when the water is conveyed in the irrigation ditch. My experience from irrigating

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen this pump deliver 50 miners inches and this was measured after the water was in the irrigation ditch and I base my estimate on my experience from irrigation and having seen water estimated and measured.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. It is used for irrigation and for agricultural row crop, hay & grain and there is no natural meadow land on this land of use and all of the improvements are the direct result of this irrigation, investment and improvement.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. No power

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

The character of this soil is of deep clay loam. It is capable of producing diversified row crops. It is very good farm land. And in my estimation it could not be properly cultivated with less water

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the water or the land here.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

I have seen this land and water system since it was first developed in 1954 and as it is close to the highway. I see it almost every week, going to Burley and traveling. I know that all the water has been put to beneficial use on the land described in this permit.

RE: Permit No. 21591

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Fred E. Badke
Route 1
Oakley, Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 21591 you are required to complete your diversion works on or before July 19, 1955. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

RE: Permit Nos. 20743 and 21591

Mr. Fred Bedke
Route 1
Oakley, Idaho

Dear Mr. Bedke:

We are in receipt of your reply to office letter of October 26, 1951, addressed you by Mr. Thompson, in regard to Permit No. 20743.

Since this work was completed in June, 1951, you may execute Form 5 enclosed, describing your works. Upon approval of the proof, and receipt of the statutory fee of \$5.00, a certificate of completion of works may be issued.

Since proof of completion of works on Permit No. 21591 is not due until July 19, 1955, no extension is necessary at the present time.
