Dear Mr. Benoit:

We acknowledge receipt of your letter of August 28, 1951, enclosing depositions of Henry J. Coiner and two witnesses, also affidavits of publication, all submitted in proof of beneficial use under the above numbered permits.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one field engineer who makes examinations all over the State.

However, he will try to contact Mr. Coiner at the time the examination is made so that arrangements may be made to show him over the grounds.

Dear Mr. Benoit:

We acknowledge receipt of your letter of July 19, 1951, enclosing Proofs of Completion of Works on Permits Nos. 21349 and 21350, in the name of Charles H. and Henry G. Coiner; also notices of Beneficial Use Proofs to be made on these two Permits.

This will avoid the necessity of having the Notary and the witnesses making a trip to Burley for the purpose of making this proof.

Before sending the Notice to the Burley Bulletin, we shall await your advice as to whether or not we should change this notice, setting place for making the proof in Twin Falls.

I am enclosing herewith Application for Extension of Time for Completion of Works, in the above mentioned permits.

Will you please see that I am in receipt of a grant of this extension of time by return mail?

Referring to your letter of September 18, 1950, relative to Permit No. 21350, wherein you returned the Proof of Completion of Works, requesting further detailed information, I wish to advise that we have learned since the date of the Proof of Completion of Works that the well will not give sufficient water, and that is why we are asking for an extension of time. Together with the proof of completion of works, I sent you my check for \$5.00. I do not know whether you are still holding the check or whether you cashed the same.

Very truly yours,

Harry Benoit

Re: Application No. 29042

Mr. Harry Benoit

Dear Mr. Benoit:

We acknowledge receipt of your letter of January 21st, enclosing three applications for permit by Charles H. Coiner and Henry C. Coiner, accompanied by your check for the \$16.75 filing fees, for which we enclose Departmental Receipt No. 22036.

There seems to be a slight discrepancy in the descriptions given in Application No. 29042, and in the sketch maps which accompanied same.

Question 4 gives the point of diversion as in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 6, whereas the sketch map shows it in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of this section. No doubt the sketch map is correct, as this agrees with the land description. But we are returning both the application and the sketch map for the proper correction.
