Gentlemen:

It has been brought to our attention that on or about
May 13, 1969, you had a well drilled.
The well is reported to be located at a point in the
SE 1/4, Sec. 32, T. 11 S., R.

A search of our records has failed to find your appli-
cation or approved permit. Under existing Idaho Statutes,
Sections 42-226, 42-229, and 42-230 of the Idaho Code, you
are required to file and obtain an approved permit before
you divert waters from a subterranean source, with the
exception of domestic wells which are defined under Section
42-111 of the Idaho Code.

If we have overlooked your permit, please advise the
Department as to your permit number. However, if you have
not yet filled out an application for permit, please use

Murtaugh, Idaho

Gentlemen:

It has been brought to our attention that on or about May 13, 1969, you had a well drilled. The well is reported to be located at a point in the SE 1/4 SE 1/4, Sec. 32, T. 11 S, R. 20 E, B.M. for irrigation use.

A search of our records has failed to find your application or approved permit. Under existing Idaho Statutes, Sections 42-226, 42-229, and 42-230 of the Idaho Code, you are required to file and obtain an approved permit before you divert waters from a subterranean source, with the exception of domestic wells which are defined under Section 42-111 of the Idaho Code.

If we have overlooked your permit, please advise the Department as to your permit number. However, if you have not yet filled out an application for permit, please use the instructions and the blank application form which we have enclosed.

We will be very happy to assist you with any questions you may have.

Very truly yours,

Dear Mr. Allred:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Times-News, all submitted in Proof of Application of Water to Beneficial Use, on Permit No. 21310.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Jackson W. Allred, Murtaugh, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit #21310 dated December 14, 1949 with date of priority December 14, 1949.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well in SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 32, Township 11 South, Range 20 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Works consist of well 350 feet deep with pumping level at 165 feet. Well is not cased. A Fairbanks pomona turbine pump with a 10" bow&6" column with a 40 hp motor is used with well. In addition, 1/2 mile of 8" steel 12 gauge pipe is used together with earthen ditches. Well discharges 1.2 cubic feet per second of water measured with standard measuring device.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation and water is used on S $\frac{1}{2}$ SE $\frac{1}{4}$ Section 32, Township 11 S., Range 20 E.B.M., Twin Falls County, Idaho. All of said land was reclaimed and placed under irrigation by means of said water.

21310

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1.2 cubic ft. per second.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Permit was originally issued to Hudson W. Brown, but was assigned to the undersigned on the 22nd day of March, 1954.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. 1.2 cubic feet per second of water diverted under the above mentioned permit has been diverted and used on the above described property for the crop years ^{1953,} 1954, 1955, 1956 and 1957.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described.

Dear Mr. Benoit:

This acknowledges receipt of the Notice of proof application of water to beneficial use under Permit No. 21310 in the name of Jackson W. Allred. Final proof is to be made before you as Notary, at 10:00 A.M. on the 1st day of May 1958.

As of this date, we have mailed the Notice to the Times-News, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and to then mail the affidavit of publication and statement of costs to you.

In completing the enclosed depositions, it is very important that the Permit holder and his two disinterested witnesses, who are familiar with the terms and the work done thereunder, execute the depositions before you, as Notary, at the time, date and place as advertised in the publication Notice, as well as all other information called for. The signatures of the holder and witnesses, and, your Notary seal are essential.

When returning the depositions to this office, please be sure to include the affidavit of publication.

Re: Permits #21310 and #23930

Gentlemen:

On September 19th, 1957 we received a letter from Mr. Thompson concerning the above permits. Both permits show a well in the same forty acres. Actually the well drilled was in the location in the forty acres shown in Permit #23930. However, we wish to make proof under Permit #21310. It is our understanding it is not necessary to amend Permit #21310 as long as the well is drilled in the forty acres set forth in the Permit. If this true will you please send necessary forms to complete so that we may originate Proof of Completion of Works and Application to Beneficial Use under permit #21310.

Attention: Edward L. Benoit

Dear Mr. Benoit:

In answer to your request of September 18, 1957, requesting the status of Permit No. 21310 originally issued to Hudson W. Brown and assigned by Brown to Jackson W. Allred, the status of said permit is as follows:

Permit No. 21310 - Name of Applicant - Hudson W. Brown
Amount filed on - 1.6 cubic feet per second
Source of Supply - Subterranean
Point of Diversion - SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 32, Township 11 South, Range 20 East, B. M.
Assigned - March 22, 1954 to Jackson W. Allred
Completion of Works made by Allred as of March 29, 1954
Certificate issued for 1.6 cubic feet per second
Place of Use - S $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 32, Township 11 South, Range 20 East
No amendment to the point of diversion of record
Beneficial Use Proofs due December 19, 1960.

We also have on record:

Permit No. G-23930 - Name of Applicant - Jackson W. Allred
Amount filed on - 1.6 cubic feet per second
Source of Supply - Subterranean
Point of Diversion - SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 32, Township 11 South, Range 20 East, B. M.
Note the well which is located in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 32 is in a different location than the well filed on in Permit No. 21310.
Place of Use - S $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 32, Township 11 South, Range 20 East
Completion of Works and Beneficial Use Proofs due April 2, 1958.

September 19, 1957

We assume that Permit No. G-23930 was filed in this department by Jackson W. Allred for the reason that the first well filed on under Permit No. 21310 did not furnish sufficient water to irrigate the 80 acres of land.

There is no other filings of record in this department filing a water right for the S $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 32, Township 11 South, Range 20 East, B. M.

Dear Sirs:

Enclosed please find assignment of water permit No. 21310 from Hudson W. Brown to Jackson W. Allred.

It appears I will have to amend this permit. Mr. Brown filed for a well on the SE $\frac{1}{2}$ S $\frac{1}{2}$ SE $\frac{1}{4}$ of Sec 32 Twp 11S Rge 20 E.B.M. on which I drilled a well in the spring of 1951 and did not get sufficient water. The well I now wish to prove up on is located in the SW $\frac{1}{2}$ S $\frac{1}{2}$ SE $\frac{1}{4}$ Sec 32 Twp 11S Rge 20 E.B.M.

The exact location and specifications are to be found on permit No. G-23930, Book 85 page 23930. I wish to transfer this information to permit No. 21310 and prove up on it, as all the work prescribed is finished.

Dear Mr. Allred:

Reference is made to your letter in regard to the possibility of your proving up on a prior filing on a well in the same location and for use on the same land as described in your permit No. G-23930.

The records in this department show Permit No. 21310, filed by Hudson Brown, December 14, 1949, and on which proof of completion of works is due on or before December 19, 1954.

If the conditions of this permit have been complied with, as to commencement of work and completion of one-fifth of the construction within half the time, we would consider as assignment to you of this permit from Mr. Brown. In which case, you could proceed with the proof of completion of works described in said permit.

A form of assignment is enclosed herewith and there is a recording fee of fifty cents required.
