Gentlemen:

We have been informed by the Oakley Herald of Oakley, Idaho, that the publication of the notice of proof of application of water to beneficial use was not published in the Oakley Herald on October 8th. They requested information from us as to what they should do. We informed them to advance the publication dates for one week, which would make the publication dates October 15, 22, 29 and November 5, instead of October 8, 15, 22 and 29, and thus the date for proof to be changed from November 2d to November 9th.

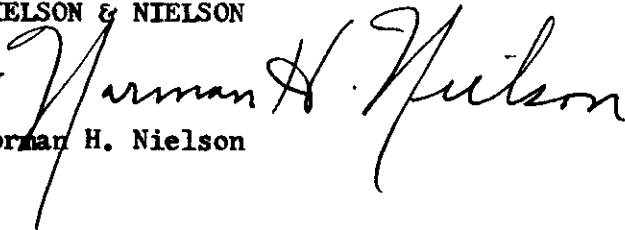

Is this agreeable with your Department?

RE: Permit No. 21057

Messrs. Nielson & Nielson
Attorneys at Law
Burley, Idaho

Attn: Mr. Norman H. Nielson

Dear Mr. Nielson:

We note from your letter of August 18, 1953, that Mr. Eugene Pickett wishes to make proof on only two wells under Permit No. 21057 instead of the four wells originally applied for.

As mentioned in office letter of August 3, 1953, this permit was originally for 24 cubic feet per second, but the proof submitted on the two wells only totals 4.72 second feet.

If Mr. Pickett will write a letter to this Department requesting that the permit be amended reducing the amount as indicated, proof on Completion of Works on the two wells may be re-submitted on Form 6 and meanwhile, we return the two proofs enclosed in your letter of July 30th.

We can then prepare the proper notice for Beneficial Use proof, but, of course, it will have to be later than September 7 the date originally set in order to allow time for the four weeks publication.

Very truly yours,

Gentlemen:

After receiving your letter relative to proof having to be made on all four wells as shown on Permit No. 21057, we have discussed this matter with Mr. Pickett. He states that he is interested only in proving on the two wells on which we have already forwarded papers to you, and as to the other two wells, he intends to abandon them as one of the wells is dry and the other not feasible.

Would you please return the papers to this office and inform us if you wish us to make proof of just the two wells or whether they may be separated as has been done by the papers sent to you.

Very truly yours,

Burley, Idaho

ATT: Mr. Norman H. Nielson

Dear Mr. Nielson:

We have your letter of July 30, 1953, enclosing two copies of Form 6, each purporting to be proof on one well described under Permit No. 21057 in the name of Eugene Pickett. Also two notices for beneficial use proof to be made on these two wells.

Our records show that Permit No. 21057 is for 24 cubic feet per second from four wells located in the NW¹/₄ SE¹/₄ Section 7, NE¹/₄ NE¹/₄ Section 18, SW¹/₄ SE¹/₄ Section 17, and NW¹/₄ NW¹/₄ Section 21, Township 13 South, Range 22 East, B.M.

We cannot accept proof of completion of works on these wells separately but completion of works proof should be made on the whole not later than May 18, 1954. This, of course, will require publication before the proof is made.

We are returning your check for \$10.00 which accompanied these partial proofs.

Very truly yours,
