

State of Idaho

License and Certificate of Water Right

Water License No. 20968

Amount 1.25 second feet

Water District No.

Priority March 2, 1949

THIS IS TO CERTIFY that MERRILL ALVIN KEMPTON and RUTH PAULINE KEMPTON of Albion, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated March 2, 1949; that Permit No. 20968 was issued under said application; that Certificate of Completion of works, with a carrying capacity of 1.25 second feet, was issued thereunder on December 3, 1951, showing that said works were completed on the 23rd day of November, 1951; and that on the 11th day of August, 1952,

MERRILL ALVIN KEMPTON and RUTH PAULINE KEMPTON of Albion, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of the right to use the waters of a well ~~subterranean~~ (subterranean flow, for the purpose of irrigation, under Use Permit No. 20968 of the Department of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume 8 of Licenses at page 5000, on the 22nd day of September, 1952;

The right hereby confirmed dates from March 2, 1949;

The Point of Diversion is located

in the SE 1/4 SW 1/4, Sec. 5, Tp. 12 S., R. 25 E., B.M. Cassia County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 1.25 cubic feet per second.

Description and location of use:

Twsp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
12 S.	25 E.	5	NE 1/4 SW 1/4	40	40
			NW 1/4 SW 1/4	40	36
			SW 1/4 SW 1/4	40	31
			SE 1/4 SW 1/4	40	38
			Number of Acres Actually Irrigated -	-	145

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

22nd day of September, 1952.

APPLICATION FOR PERMIT
To Appropriate the Public Waters of the State of Idaho

APPLICATION No 28622
PERMIT No. 20968
DISTRICT No.

M. Alvin Kempton
Box 107- Albion, Idaho

1. Name of Applicant: MERRILL ALVIN and RUTH PAULINE KEMPTON

Postoffice address: Albion

County: Cassia

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (b) Treasury stock:
- (d) Other resources: House (\$7.500) 160 acres land

- (a) Cash on hand: \$9,000.00
- (c) Bonds to be issued:

2. Quantity of water claimed: 3.8

cubic feet per second.

3. Source of water supply: Underground (well)

which is a tributary of

4. Location of point of diversion: Apprex. 600

feet distant from the Southeast

corner of Section 5, T. 12 S., R. 25 E., B.M., and is in the SE 1/4 SW 1/4

of Section 5, T. 12 S., R. 25 E., B.M., County of Cassia

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T., R., B.M., in the of Section, T., R., B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet
distant from the corner of Section, T., R., B.M., in the
of Section, T., R., B.M.

7. Estimated cost of works: \$ 6,700.00

8. Kind of works: Ditch and deep well

9. Height of dam None feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width None feet; height feet.

11. Ditch: Width at bottom Unknown feet; width at water line feet; depth of water feet;

dimensions of flume: None

Diameter of pipe None inches; length of conduit miles.

Average grade per mile 60 feet.

12. The time required for the completion of such work is Three or less years.

13. The time required for the complete application of the water to the proposed use is One or less additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 10 inches water of Rose Creek and 30 inches water of Land Creek, priority of May 31, 1879. 120 inches water of Marsh Creek, priority of April 12, 1892. These water rights are of such low priority that they have been inoperative for many years.

16. (a) Is reservoir to be used? No If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

MERRILL ALVIN KEMPTON - RUTH P. KEMPTON *Applicant.*

By _____ Agent.

Date of first receipt at Department of Reclamation: 9:00 A. M. March 2, 1949

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is 20968

Recorded in Book **75** Page **20968** Approved **March 10, 1949**

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before May 10, 1949 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before September 10, 1950

The whole of said work to be completed on or before **March 10, 1952**

Beneficial use of water appropriated in accordance herewith, to be made on or before **March 10, 1953**

WITNESS My hand this 10th day of March, 1949

MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, C. A. ROBINS, Governor of the State of Idaho,
and J. D. "CY" PRICE, Secretary of State of the State of Idaho, have caused this instrument to
be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 10th

day of March, 19 49

STATE OF IDAHO

Countersigned:

(SEAL) By J. D. "CY" PRICE Secretary of State.

By C. A. ROBINS Governor.

The land is now in sage brush. Drilling operations are now going on.

REMARKS: My knowledge of this land goes back twelve years and the land has not been cleared or irrigated in that time.

RE: Permit No. 20968

Mr. Merrill Alvin Kempton
602 A Gunter Air Force Base
Montgomery, Alabama

Dear Mr. Kempton:

We now have on file the report of our field engineer on examination for beneficial use on Permit No. 20968, in the name of yourself and Ruth Pauline Kempton. This report shows that 145 acres have been irrigated in the SW $\frac{1}{4}$ Section 5, Township 12 South, Range 25 East, B.M., from your well in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of said section.

Therefore, upon receipt of the statutory fee of \$8.00, a license can be issued for 1.25 second feet of water from said well.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 20968

This proof is for Beneficial use In Water District No. _____

1. Name of applicant Merrill Alvin and Ruth Pauline Kempton, Albion, Idaho
2. Source of water supply: Subterranean from a well
3. Location of point of diversion: Is in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 5
T. 12 S. R. 25 E. County of Cassia
4. Describe works as they exist, giving dimensions and capacities of same: Drilled Well 300' deep and 16" diameter. Casing 200' x 16" dia. Depth of pump 125'. Peerless pump # 83 944. U.S. motor # 818 479, 30 HP., 220V., 74 amp., 3 phase, 1800 rpm. Square D switch 220 V., 30 HP. G.E. meter # 27 430 966, 240 V., 50 amp., 60 cycle. 4" or 8" dia. discharge pipe toward the south into a board dividing box. 4'x 8' board pumphouse.

5. Water is used for: Irrigation
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Southwest Quarter Section 5, Township 12 South, Range 25 East, B. M.See Map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Crops: hay, grain, and pasture.This examination was made on the 28th day of August, 19 52

Messrs. Nielson & Nielson
Attorneys at Law
Burley, Idaho

ATT: Mr. Norman H. Nielson

Dear Mr. Nielson:

We acknowledge receipt of your letter of August 16, 1952, enclosing the depositions of Merrill Alvin Kempton and two witnesses, also affidavit of publication in the Burley Herald-Bulletin, all in proof of beneficial use under Permit No. 20968.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Kempton at the time he makes the examination so that arrangements may be made to show him over the grounds.

NOTICE FOR PUBLICATION NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at ten A. M. on the 11th day of August, 1952, at Burley, County of Cassia, State of Idaho, before Norman H. Nielson, Notary Public, proof will be submitted of the application to beneficial use of 1 1/4 cubic feet per second of the waters of a well in accordance with the terms and conditions of Permit No. 20968 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Merrill Alvin Kempton and Ruth Pauline Kempton, Albion, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 1 1/4 cubic feet per second.

The place where said water is used: Southwest Quarter of Section Five, Township Twelve South, Range Twenty-five, East Boise Meridian.

The name of the canal or ditch or other works by which said water is conducted to such place of use is well and ditches.

The right to take water from such works is based upon Permit No. 20968.

The source of supply from which such water is diverted is subterranean well in the Southeast Quarter of the Southwest Quarter of Section Five, Township Twelve South, Range Twenty-five, E. B. M.

The date of priority which said user is prepared to establish is March 2, 1949.

MARK R. KULP

State Reclamation Engineer

BOISE, IDAHO

Permit No. 20968

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Merrill Alvin and Ruth Pauline Kempton, Albion, Idaho, professor, Albion,
Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 20968, date of permit - March 19, 1949, date of priority - May 15, 1949.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. deep well --- 600 feet from the Southeast corner of the Southwest Quarter of
Section Five, Township Twelve South, Range Twenty-five, East Boise Meridian.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Ditches carry water from well and are capable of carrying 3 cubic feet per second.
Well is 300 feet deep with a 14 foot casing going down 100 feet. The water when being
pumped is 140 feet distance from the surface. 53 inches was being discharged from the
pump when the water was measured by the use of a weir, however, more water is pumped in
the spring of the year than in the summer, and this applicant wishes to establish a
right of 58 inches.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used to irrigate the Southwest Quarter of Section Five, Township
Twelve South, Range Twenty-five, East Boise Meridian. The land has been reclaimed from
waste land, cleared of brush and leveled. Additional fencing has been placed on the
land, and the land has been cross fenced.

20968

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. _____

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The entire 53 inches is being used to irrigate 160 acres of land. This amount, however, is not sufficient to adequately irrigate the 160 acres.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. The land described in this deposition has a 30 inch water right from Land Creek which water is used during the spring of the year, but is not used thereafter as there is not sufficient water in the creek to satisfy the said water right.

(Sign)

Merrill Alvin Kempton

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Burley, County of Cassia, State of Idaho, on this 11th day of August, A. D. 1952,

DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No.....20968.....

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Frank O. Price, 48 years of age, Albion, Idaho, farmer and rancher, Albion, Idaho.

Ques. 2. Are you acquainted with Merrill Alvin and Ruth Pauline Kempton, the holder of Permit No. 20968? How long have you known him and where does he reside?

Ans. 14 years - permanent resident of Albion, Idaho, and is now on a tour of duty with the United States Army.

Ques. 3. Have you read or heard read said Permit No. 20968, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Deep well approximately 600 feet from the Southeast corner of the Southwest Quarter of Section Five, Township Twelve South, Range Twenty-five, East Boise Meridian. Water is conveyed by the use of a ditch.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Ditch will carry 3 cubic inches and I have seen 53 miners inches of water being conveyed. I have seen 53 miners inches being pumped from the said well and measured the flow by the use of a weir.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen 53 miners inches being pumped from the said well and measured the flow by the use of a weir;

20968

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation. The water is used to irrigate the Southwest Quarter of Section Five, Township Twelve South, Range Twenty-five, East Boise Meridian. The land has been reclaimed from waste land to cultivated land. A well and pump have been put upon the said land, and the said land has been fenced and cultivated.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what etxent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The character of the land that has been reclaimed was waste land, and the type of soil is a loam soil. The entire amount of water asked for under this application does not irrigate the said 160 acres adequately.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been out to the place on numerous occasions and have seen the water put to beneficial use. The amount of water I have observed being put to beneficial use is 53 miners inches.

(Signed) Frank O. Price

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Burley, County of Cassia, State of Idaho, on this 11th day of August, A. D. 1952.

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Deep well approximately 600 feet from the Southeast corner of the Southwest Quarter of Section Five, Township Twelve South, Range Twenty-five, East Boise Meridian. Water is conveyed by the use of a ditch.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Ditch will carry 3 cubic inches and I have seen 53 miners inches of water being conveyed. I have seen 53 miners inches being pumped from the said well and measured the flow by the use of a weir.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen 53 miners inches being pumped from the said well and measured the flow by the use of a weir.

20968

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation. The water is used to irrigate the Southwest Quarter of Section Five, Township Twelve South, Range Twenty-five, East Boise Meridian. The land has been reclaimed from waste land to cultivated land. A well and pump have been put upon the said land, and the said land has been fenced and cultivated.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The character of the land that has been reclaimed was waste land, and the type of soil is a loam soil. The entire amount of water asked for under this application does not irrigate the said 160 acres, adequately.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been out to the place on numerous occasions and have seen the water put to beneficial use. The amount of water I have observed being put to beneficial use is 53 miners inches.

(Signed) *Sterling Adams*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Burley, County of Cassia, State of Idaho, on this 11th day of August, A. D. 1952.

Harman H. Nelson
Notary Public.

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at ten A. M. on the 11th day of August, 19 52,
at Burley, County of Cassia, State of Idaho, before
Norman H. Nielson, Notary Public, proof will be submitted of the
application to beneficial use of 1½ cubic feet per second of the waters of a well
in accordance with the terms and conditions of Permit No. 20968
heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are.....

Merrill Alvin Kempton and Ruth Pauline Kempton, Albion, Idaho

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 1½ cubic feet per second.

The place where said water is used (~~if for irrigation, give full and accurate description of the~~
~~land irrigated~~) Southwest Quarter of Section Five, Township Twelve South, Range Twenty-
five, East Boise Meridian.

The name of the canal or ditch or other works by which said water is conducted to such place of
use is well and ditches.

The right to take water from such works is based upon Permit No. 20968

The source of supply from which such water is diverted is subterranean well in the South-
east Quarter of the Southwest Quarter of Section Five, Township Twelve South,
Range Twenty-five, E. B. M.

The date of priority which said user is prepared to establish is March 2, 1949.

MARK R. KULP

State Reclamation Engineer.

Gentlemen:

Sometime ago we sent to you a notice of proof of application from Merrill Alvin Kempton to Ruth Pauline Kempton. You sent the proof to our local paper and it was published, but we were never able to get the witnesses in to make proof on the said application. We are, therefore, sending a notice of proof of application of water to beneficial use and ask that it be published so that we may prove upon the well.

If there is any further information you desire, would you please notify us?

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 2nd day of January, 1952,
at Burley, County of Cassia, State of Idaho, before
Norman H. Nielson, a Notary Public, proof will be submitted of the
application to beneficial use of 1½ cubic feet per second of the waters of a well
in accordance with the terms and conditions of Permit No. 20968
heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Merrill Alvin
Kempton and Ruth Pauline Kempton of Albion, Cassia County, Idaho.

The use to which said water has been applied is for irrigation

The amount applied to beneficial use is 1½ cubic feet per second

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)

The Southwest Quarter of Section Five, Township Twelve South, Range Twenty-five,
E. B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is
a well

The right to take water from such works is based upon Permit No. 20968

The source of supply from which such water is diverted is an underground subterranean well
in the SE¼, SW¼, Section 5, Twp. 12 South, Range 25 East, E. B. M.

The date of priority which said user is prepared to establish is March 2
xxxxx 1949

RE: Permit No. 20968

Messrs. Nielson & Nielson
Attorneys at Law
Burley, Idaho

ATT: Mr. Norman H. Nielson

Dear Mr. Nielson:

We enclose certificate of completion of works issued under Permit No. 20968, in the name of Merrill Alvin and Ruth Pauline Kempton, for the diversion of 1.25 second feet of water from a well in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 5, Township 12 South, Range 25 East, B.M., for irrigation of land in the SW $\frac{1}{4}$ of said section.

We also enclose departmental receipt No. 23971 for \$5.00 paid in connection therewith.

We shall send to the Burley Bulletin notice of beneficial use proof to be made under this permit on January 2, 1952, with instructions to publish it once a week for four consecutive weeks prior to that date and to send the affidavit of publication and statement of costs to you.

Meanwhile, we enclose the necessary forms of deposition to be used in making this proof, consisting of one for the permit holder and one for each of two witnesses. We note that you have power of attorney to act for Mr. Kempton, but obviously you could not sign the proof if you are acting as the Notary Public. Perhaps Mrs. Kempton could make the proof. Otherwise it would have to be made before another Notary Public.

Enclosure

20968

Permit No. 20968

STATE OF IDAHO
Department of Reclamation

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO

County of Cassia

ss.

Merrill Alvin Kempton and Ruth Pauline Kempton, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to appropriate the Public Waters of the State of Idaho, No. 20968, and that his postoffice address is Burley, State of Idaho

Second: That the name of the stream ^{FROM} which said water is to be ^{DIVERTED} directed is a well

Third: That the point of diversion of said water is 600 feet distance from the Southeast corner of Section five, Township 12 South, Range 25, and Southeast Quarter and Southwest Quarter

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by March 10, 1952

Fifth: That the use for which said water is intended is irrigation

Sixth: That on the date above mentioned, the works constructed under said permit were (~~reservoir~~) fully completed and consisted of the following:

I. Kind of works: well and ditches and a pump
(Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work:

(a) Height of dam feet, length of dam at top feet, length of dam at bottom feet. Material used in construction

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir acre feet.

(c) Size of headgate: Width feet, height feet.

(d) Conduit width at bottom feet, width at water line
(State whether ditch, flume or pipe)

 feet, depth of water feet; diameter of pipe inches, average grade per mile is feet. Length of conduit is miles.

Seventh: That said works are capable of conducting to the place of intended use 1 1/4 second feet of water.

Eighth: That water appropriated under said permit is available for acres of land described as follows: Southwest Quarter of Section 5, Township 12 South, Range 25, E. B. M.

Ninth: Remarks: That the well is 300 deep. Water is pumped a distance of 145 feet, the casing is 100 feet and is a 14" casing. Said well is three years old. Layne and Bowler Pump with 90 horse power capacity.

RE: Permit No. 20968

Messrs. Nielson & Nielson
Attorneys at Law
Burley, Idaho

ATT: Mr. Norman H. Nielson

Dear Mr. Nielson:

We acknowledge receipt of your letter of November 23, 1951, enclosing proof of completion of works under Permit No. 20968 in the name of Merrill Alvin Kempton and Ruth Pauline Kempton, accompanied by your check for the \$5.00 fee. Also notice of beneficial use proof to be made under said permit.

We return the proof of completion of works since it does not mention a pump, which no doubt is part of the works and should be included under Question 8, and a description of the pump given under Question 9.

The notice for proof of application to beneficial use fails to state the date on which this proof is to be made. If you will advise us as to this, we will complete the notice and send a copy to the Burley Bulletin with instructions in regard to publishing. Of course you know this date should be sufficiently far ahead to allow for four weeks' publication.

Dear Mr. Kempton:

In reply to your letter of January 23, 1949, we enclose a form of application for permit to appropriate the public waters of the State of Idaho, together with regulations and instructions in regard to filing same.

This form is used for filing on subterranean water from a well the same as from any other source. The point of diversion called for under Question 4 should be the legal subdivision in which the well is located.

When this application is approved it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense and at the time set for proof depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making such proof should be stated under Question 13 of the application.
