Gentlemen:

Find inclosed Proof of Completion of Works by Jesse Bedke
holder of Permit # 20742 with the statutory fee of \$5.00.

At this time he has acquired and additional 40 acres of
land which is capable of being irrigated by the same well
just completed. This land is described as follows:

SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 28, Township 13 South, Range
22 East Boise Meridian, all in Cassia County.
This will make a total of 90 acres to be irrigated by the
well dug under Permit # 20742 which authorizes the use of
1.0 cubic feet per second. He desires that an amended
permit be issued authorizing an additional use of 0.8 cubic
feet per second to be used on the land described above.

It is my understanding that the priority of the 1.0 cubic
feet per second will remain the same but that the additional
0.8 will have the priority of the amended permit. If such
is the case, then please consider this letter, if possible,
as a request for an amended permit for the additional water.
If he will lose the priority of the amount authorized in the
original permit by amending the permit, please advise me before
such amendment is issued.

I await your early reply.

Yours truly,

Herman E. Bedke
